Charles Williams Receives 40-Year Award

Charles (Doc) Williams, Hospital, was awarded the diamond-studded gold service pin for completing forty years of continuous service on June 28. Above he receives the award from President L. P. Sperry as Hospital Business Manager Mollie Kelly and Vice-President Alan C. Curtiss smilingly look on.

SERA Kids' Day Camp

The enrollment for the Day Camp has, as *THE BULLETIN* went to press, far exceeded expectations. However, any employee who wishes to register his child or children may do so as late as Thursday, July 7.

Additional supervision and the arrangement of facilities have been made to accommodate the number expected on the basis of present enrollment. Get your reservations in at the earliest possible date in order that necessary arrangements to maintain the high standards already established can be made.

New Assignments Engineering

The following notices of appointment have been received from M. L. Sperry, Vice-President in charge of Engineering.

Effective June 16, 1949, Burton H. Walker has been appointed Construction Engineer under supervision of Mr. A. W. Schaff, having the responsibility for the engineering construction in the Main Plant.

Effective June 16, 1949, John J. Fitzgerald has been appointed Heating and Ventilating Engineer under the supervision of Mr. A. W. Schaff, with responsibility for the engineering design of all ventilating and piping systems in the Main Plant.

Effective June 20, 1949, Arthur L. Taylor has been relieved of his responsibility of general supervision of the Welding and Tin Shops. He has been given the additional duties of having charge of the Real Estate Department of the Main Plant, under the supervision of Mr. T. W. Colina.

Effective June 20, 1949, Mr. Albert S. Carignan has been given the additional duties of general supervision of the Tin and Welding Shops, under Mr. T. W. Colina.

Ten Retirements

William T. Leggett

WILLIAM T. LEGGETT, Chief Draftsman, was placed on the Special Retirement List as of July 1, 1949, after fifty-five years of Company service.

Coming to Scovill in April, 1894, as a Toolmaker in Tool No. 1, Mr. Leggett took up drafting in 1898 and was transferred to the Drafting Department in 1902. In 1908 he was placed in charge of Drafting and in 1930 was appointed Assistant Mechanical Superintendent.

He was transferred to the Engineering Department in 1946 as Mechanical Engineer, later becoming Supervisor of Mechanical Design. Since February 1, 1948 he has been Chief Draftsman in the Engineering Department.

Burton J. Hine

Fire Marshal BURTON J. HINE was added to the Special Retirement List as of July 1, 1949, with a record of forty-eight years' continuous service.

Mr. Hine came to Scovill in 1901 in the Coin Room. He soon decided to become a machinist and served his apprenticeship under the late Deacon Shipley. Later on he became a draftsman and his drafting experience soon led to designing button machines.

In 1912 he was made Fire Marshal and in 1914 Chairman of the Safety Committee. In August, 1946 he was appointed Fire Marshal and Safety Consultant and has served in this capacity up to his retirement.

Harry I. Phillips

HARRY I. PHILLIPS, Job Analyst, has joined the ranks of the Scovill Retired Folks as of July 1, with a continuous service record of 44 years.

Mr. Phillips first came here in April, 1905, as assistant to the foreman in

(Continued on Page 4, Column 3)

Be Sure To Vote

Some employees have said they are not interested in the election to be held July 7th. They want no union so they are not going to vote. That attitude defeats its own purpose. The election will be determined by the choice receiving the *majority of those who vote*. All employees otherwise eligible can vote regardless of union membership.

To get "neither union" you must vote for it. If you do not vote, you will probably get a union that you do not want. And remember, "neither union" means *no* union.

The Management does not coerce or offer benefits to sway your vote. There will be no retaliation or benefits because of your vote. The experience you have had with our present union, and the poor local record of the contesting unions seems to make "neither union" your logical choice. We will accept the choice of our employees.

If you wish "neither union" you must mark (x) your ballot in the left hand box as shown below.

Alan C. Curtiss

Vice-President

Neither Union

A.F. of L.

P.M.C.-C.I.O.

Golden Hill Closed

The Golden Hill entrance from Hamilton Ave. has been closed, effective June 23. All materials formerly sold from Golden Hill will continue to be sold from the Salvage Dept., in the old Silver Shop on Silver Street.

Employees using the service of this department are asked to do so outside working hours. The department is opened from 7:00 a.m. to 4:00 p.m.

Summer Theater Tickets Available

Tickets for this Summer's productions at the Litchfield Playhouse are now being made available, at industrial group prices, to Scovill employees through the services of the Employee Activities Office. For information and reservations, call 834.

Cooling Off at Woodtick

Many Waterbury residents found the Woodtick Recreation Area the answer to getting away from the heat during the past few weeks. Thousands of Scovill employees, their families and friends enjoyed the shaded areas where they could have picnic lunches or just sit around; the beach and lawn for sunbathing; the cool, clear water for swimming; the playground for the children.

No. 13

Independence Day

July 4, 1949

Webster says—"Independence—State of quality of being independent; freedom from control by others; self government."

Let us all in these troubled times give serious thought to the above definition of independence. Freedom from control by others — where else in this wide wide world can that statement be made, and yet many of our citizens will listen to the ideologies of parlor pinks, leftists, commies and others of the same ilk — who are controlled by distant masters to cause unrest among our people.

Please remember that no other peoples in the world have the freedom enjoyed by the population of this great country of ours. Freedom of speech — freedom of religion — freedom of the ballots and many more freedoms too numerous to mention — and yet some of us will listen to the Communistic propaganda being spread by agents of the Soviet. For what? What have they got in the way of material things that we don't have 100 times as much of? What do we have that they will never have — independence and freedom from control.

Let us all on this anniversary of Independence Day rededicate our lives to the suppression of communistic propaganda and to the furthering of free policies of our great nation.

Our Retired Folks

George Hubbard, newly-elected Chairman, has appointed the following members to serve with him on a Program Committee to plan activities for the group:—Bill Greenwood, Mike Martone, Tom Murphy, and Tom Reynolds.

All members are invited to get in touch with any Committee member and pass along their suggestions for possible activities of the group.

The next meeting of the Club is scheduled for September. Details will be announced in the usual manner.

Rod Mill Topics

By Dom Polo

The boys heard singing around the Mill, "We went out to the ballgame" were: JOE DORSO, HAROLD DESCO-TEAUX, BRONIS ZAKARAUSKAS and JULIUS ZRAUTHAWICZ. It was quite an occasion for them — they went to New York to see a double header. All had a swell time and, what—no hang-overs?

Our heartiest congratulations to:—MR. and MRS. JERRY SHEA on the birth of a baby boy; MR. and MRS. JULIUS ZRAUTHAWICZ, on the birth of a baby girl.

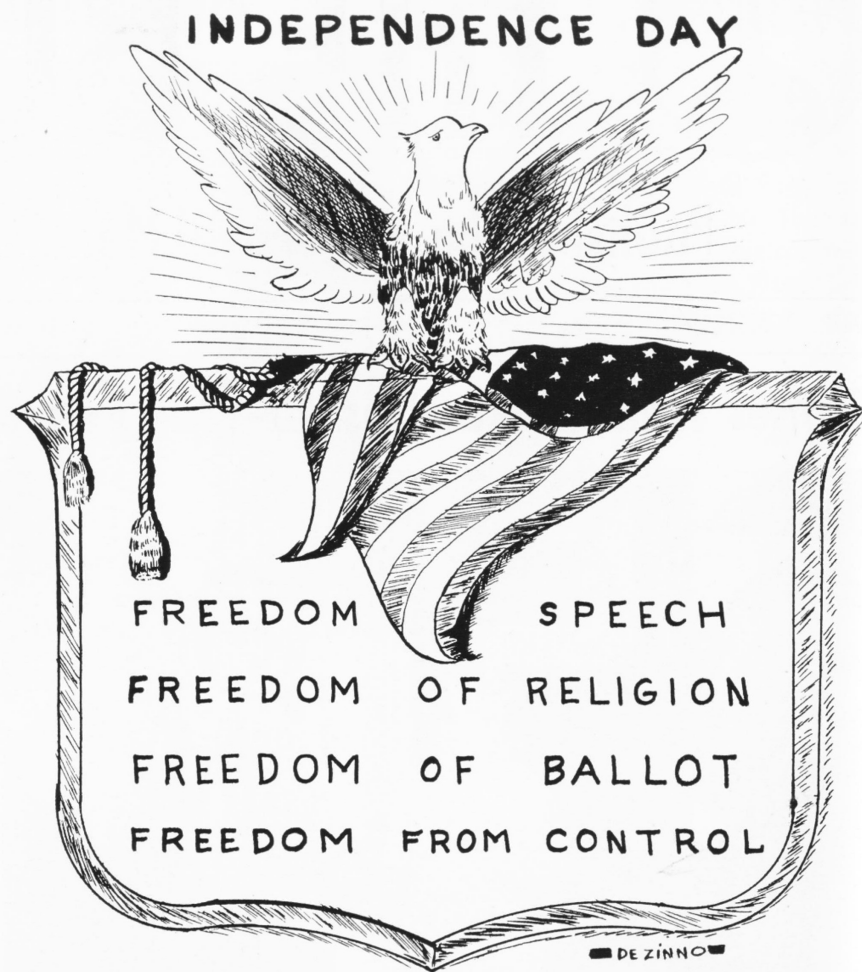

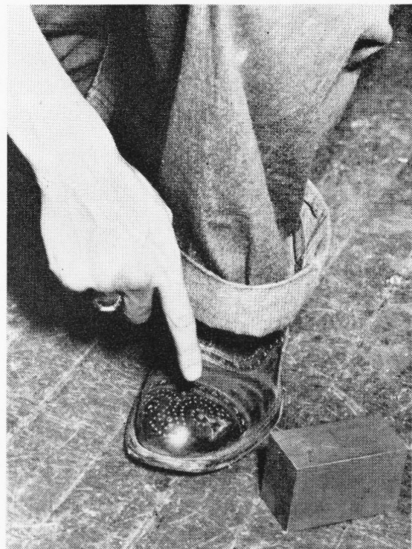

Something To Point At

Two employees, from different sections of the plant, point to their Safety Shoes which protected them from injury recently.

Left, in the Rolls Division of the North Mill, this employee escaped injury when a 185-lb. flat bar of metal fell from a wagon onto his toe.

Right, a General Training Room employee was unharmed when an 8-lb. piece of metal fell four feet, from a vice, and landed on his toe.

SERA Varsity Teams

Standings as of June 25

The SOFTBALL TEAM has a 4-1 record for the season. The team is one game out of first place with Chase in top position with a 5-0 record.

The GOLF TEAM is also in second place with a 3-1 record, trailing U.S. Rubber by one game. The team's record is 3-0.

The HORSESHOE TEAM has won 22 games and lost 26 and is now in third place, trailing French Small Tube and U.S. Rubber.

The BOCCI TEAM is in first place with an 8-3 record. U.S. Rubber follows Scovill with a 6-5 record.

Girls' Club News

By Dora Mori

Judging from the smiles on the girls' faces whenever the Incoming-Outgoing Councils dinner (which was held at Waverly Inn on June 9) is mentioned, a wonderful time was had by all certainly.

Speaking of wonderful times, thanks to our Chairlady of Entertainment, LUCILLE PEPIN, the Hot Dog Roast held at Woodtick on June 14 can also be classified as such. Approximately 70 members were in attendance and, might I add, hungry members! A little softball was played — a few brave souls ventured into the water — and Evelyn P. certainly looked professional on that see-saw.

Stork Wings

A son, Richard Murphy, Jr., was born on June 10 to Mr. and Mrs. Richard Murphy. She is the former MARY CARNEY of the Tool Office.

Vacationing

MOLLIE COLLINS of Trucking is sunning herself at Atlantic City for one week. . . . ETHEL ZEINER, of Mill Sales, is taking the scenic route by way of Cleveland, Michigan, and points west. . . . TERRY GRIFFIN of Central Time has gone to the Marine Base at Edenton, North Carolina to visit her sister — she says. . . . BETTY KERNAN of Mill Sales is a lassie who sure gets around. Betty returned June 20 with glowing accounts of her trip to Scotland, England and Ireland. . . . STACIA BODZIACK, Central Time, is motoring to New Orleans. . . . Also motoring is PATRICIA FEELEY of Mailing. She is headed for Maine. . . . JULIE PROULX of East Time is off to Canada.

Condolences

Our sympathy goes out to ALICE GRAVELINE of Drug & Cosmetic Sales on the death of her stepfather recently.

1949 Major Leagues Baseball Schedules

August 1 thru 31, 1949

(* denotes Night Game)

(** denotes Double Header)

Yankees—Yankee Stadium

Detroit	August 2*, 3, 4
St. Louis	August 5, 6, 7**
Washington	August 16*, 17
Philadelphia	August 19*, 20, 21

Dodgers—Ebbets Field

New York	August 8*

The Sarandreas

Joseph Sarandrea, Lacquer Wash, and his wife Antionette are justly proud of their five sons — Joseph, age 11; Anthony, age 7; Larry, age 5; Louis, age 3, and Bobby, age 2.

Service Awards

40-Year Pin to Doc Williams

Charles Williams, of the Main Plant Hospital, completed 40 years of continuous Scovill service on June 28, 1949.

"Doc" Williams, as Charlie is affectionately known to most everyone in the Main Plant, has served as an attendant in the Scovill hospital throughout his entire Scovill career.

25-Year Awards

John DeBlasio, Traffic Department, celebrated his 25th anniversary of Scovill service on July 1, 1949.

John first came to Scovill in April, 1901, but due to several periods away from the plant, his continuous service record was started on July 1, 1924. During his service at Scovill, he has served in the Yard Department as a laborer, in the East Rolling Mill as inspector and, his present job, with the Traffic Department as driver.

Robert McHugh, Casting Shop, completed 25 years of continuous Scovill service on July 3, 1949.

Mr. McHugh's career at Scovill has been a varied one. He has worked in the Solder Room, Dept. "F", Pipe Shop, Research Dept., and in the Casting Shop. His services have included floorman, helper, inspector, steamfitter's helper, furnaceman, crane man, caster, supervisor, furnace lineman and, his present position, assistant foreman in the Casting Shop.

Edwin H. Nearing, Tube Mill, completed a quarter-century continuous service at Scovill on July 3, 1949.

Mr. Nearing has been a Mill man throughout his Scovill career, except for a period of about one year as scaleman in the Traffic Department. His services have included work on the slitters, clerk, checker, in the North Rolling Mill; and utility man, Finishing Room helper and inspector-gauger in the Tube Mill.

The Model Association

The newly-organized Model Club is progressing in membership and in the development of facilities. At the present time there are 23 members enrolled in the Club and these members have been working regularly in developing one of the two circles which they anticipate having.

The first circle is completed and a contest procedure demonstration was held on Wednesday, June 22. The first contest will be held on Wednesday, July 6, from 7:00 - 8:30 p.m.

The new facilities, developed by the SERA and the Model Club members, are located on the Scovill road in Woodtick.

The membership now enrolled in the Club is very enthusiastic about the possibilities of the Club and are inviting all Scovill employees, and their youngsters, who are interested in model airplanes to join.

Trim & Knurl

By Betty Young

We all welcome back KITTY STACK after her absence due to illness.

Mr. and Mrs. BOB CURRIE are "Getting Away From It All" at Cape Cod.

Mrs. Nick Mariano is visiting her daughter in Arizona who is recuperating from an illness.

We hope to see NICK GRIFFIN back soon. He's out due to illness.

BOB CURRIE skippered the winning team of lawn bowlers to win the George Bisset Cup recently. Nice going, BOB.

RED CORDELLI and I always seem to be discussing our garden problems. We both admit we have had lots of sunshine and are now complaining about the lack of rain. Guess we're just never satisfied.

Ten-Year Awards

Main Plant

Joseph J. Lokis, No. Mill Finish, June 21; Erwin P. Sachse, West Machine, June 21; Michael Ciarlariello, Box Shop, June 22; John J. Stankeveich, Tube Mill, June 23; John Bijowski, Mill & Grinding, June 26; Robert S. Cady, Engineering, June 26; John E. Kessler, East Machine, June 28; Robert W. Vander Eyk, Manufacturing Eyelet Tool, June 30; Aurelia L. Mottalini, Cutting, July 1; Edward J. Dusault, Slide Fastener Tool, July 1, 1949.

Waterville Division

Anthony V. Cofrancesco, June 14; Orville M. Patrick, June 29, 1949.

Scovill Chlorinating Stations

River Water Chemically Treated For Use In Plant

John Theriault, Pipe Shop, daily inspects the four chlorinating stations in the Main Plant. At left above he has just replaced an empty chlorine cylinder with a full one. Note the scale — John can tell exactly how many pounds of chlorine is used in 24 hours. Right, he makes an adjustment on one of the chlorinators located in the West Power House.

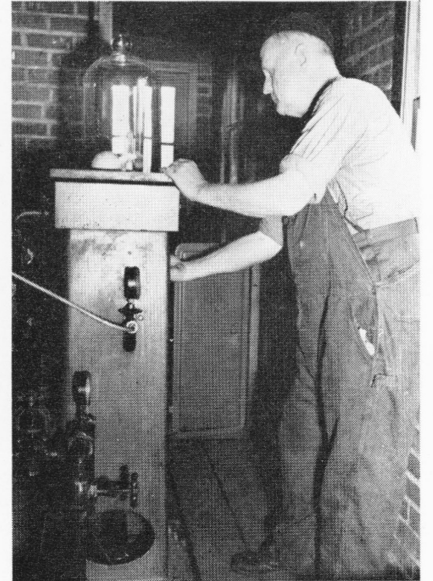

The water used for "industrial" purposes in the East and West plants is obtained from the six Scovill reservoirs—Chestnut Hill, Cedar Lake, North and South Hitchcock Lakes, Woodtick Pond and Brass Mill Pond (in Hamilton Park). The "industrial" uses include Sanitary purposes, showers, wash-rooms, and many systems for cleaning metal, diluting chemical solutions and cooling hot metals and various flushing systems.

This water is not used for drinking purposes. The drinking water used is pure city water that is chilled and recirculated throughout the plant to hundreds of drinking bubbler outlets.

The water for industrial purposes is chemically treated with chlorine before it enters the supply pipes. A rigid inspection and maintenance control by our Pipe Shop of the four chlorinating stations in the Main Plant keep the river water automatically chemically treated to comply with the sanitary code requirements of the State Department of Health.

Continual Checks Required

Mr. John Theriault, Pipe Shop, under the supervision of Foreman Charles Winters, makes a daily inspection of the four chlorinating stations and looks after the automatic controls, etc. He

replaces the empty chlorine cylinders with filled ones on the scales.

The chlorinating system operates around the clock year in and year out.

Once each week John tests with an instrument the amount of chlorine present in six different samples he collects.

Once each month he collects six samples of water from six different locations. These are sent to the Newlands Sanitary Laboratory, Hartford, where they are chemically and bacteriologically analyzed. A complete report is sent to Management with recommendations, if necessary.

Every three months a State Health Department Engineer inspects our chlorinating system and examines samples with instruments at several outlets. He also collects six samples from different locations, which he turns over to State Laboratory technicians for chemical and bacteriological analysis.

The State Health Department sends reports to Management which are evaluated by several engineers and our Medical Department physicians.

Few people can realize the amount of detail, records, work, responsibility and constant supervision that is required to maintain such a system and keep it operating smoothly.

General Training Course Graduates For June

Alfred Stanco

Alfred Stanco graduated as a Toolmaker on June 5, 1949. He has been assigned to the Manufacturing Eyelet Tool Room. Al attended Leavenworth High and had served in the U.S. Navy.

William Johnson graduated as a Toolmaker on June 12, 1949, and has been assigned to Slide Fastener Tool

William Johnson

Room. A graduate of Naugatuck High, Bill had served in the U.S. Navy during World War II.

Thomas Luddy graduated as a Machinist on June 19, 1949. He has been assigned to the Button Tool Room. The son of John Luddy (Guard Dept.) Tom attended Crosby High and served

Thomas Luddy

with the U.S. Army during World War II.

Edward McAvoy graduated as a Toolmaker on June 19, 1949, and has been assigned to General Training Room No. 2. He attended Leavenworth High and served in the Army. Ed McAvoy (Guard Dept.) is his Dad.

Edward McAvoy

Quality Control Class No. 8

Representatives of the Planning, Metals Research and Mill Production Departments are included in this eighth class to study Quality Control by Statistical Methods under the direction of "Guns" Baldwin.

Seated, left to right, are:—David Eckerson, George Goss, Armand Wolff, Ruth Tourangeau, Marion Thompson, John Mellon, Edward Berube, James Mitchell, Wayne Johnson, Walter France, Philip Jensen, William Tedesco. Absent class members include: Mary Renna, James Cusack, and Harry Shewbridge.

The Mail Sack

From 1st Lt. Ernest L. Weir, stationed in Vienna, Austria, come greetings to the boys in the Pipe Shop.

Ernie is assigned as Administrative Aid-de-Camp to the G-2 (Intelligence Division) of the U.S. forces in Austria. He says living conditions are nothing at all like in the States but the quarters are comfortable.

Ernie expects to end his tour of duty about September, 1951, at which time he'll be back in the States for re-assignment. That is, he says, how it stands right now. Mrs. Weir is also in Vienna.

John Rochon Succumbs

John Rochon, Carpenter Shop, died on June 18, at St. Mary's hospital after a brief illness.

Mr. Rochon came to Scovill in April, 1912 to work in the Yard Department. He had been with the Carpenter Shop since 1918 where he served as carpenter until the time of his death.

Born in Brasher Falls, New York, he is survived by his wife, one son, one daughter, and two grandchildren.

The funeral was held June 20 from the Mulville Funeral Home to the Sacred Heart Church. Burial was in Calvary Cemetery. Company representatives were:—Edward Robinson, Thomas Pawlowski, William Lovett and Oscar Hubbell.

One Waterville, Nine Main Plant Men Retire

(Continued from Page 1, Column 2)

the Button Shop; later serving as foreman of the shipping and packing divisions of that department. In 1917 he was transferred to Planning as estimator, moving to the Cost Office in 1919. In July, 1926, he was named Job Analyst and has served in that capacity until his retirement.

Tracy Smith

TRACY SMITH, Electrical Engineer, has been placed on the Special Retirement List as of July 1. He has served Scovill for 38 years.

Mr. Smith's service for Scovill started in 1911 when he was an engineer in a downtown office. He came to the Scovill plant as Consulting Engineer in July, 1931, and later served as Staff Engineer of the Administrative and the Plant Engineering departments. He has served as Electrical Engineer since February, 1947.

George Wiley

GEORGE WILEY, Instructor in Milling & Grinding, was added to the Special Retirement List as of June 20, 1949, with 34 years' service.

He came to Scovill in 1912 as a press operator in the Press Room.

After a period away from the plant, he returned in 1915 to the Grinding Room. He had worked there as a grinder until 1944 when he was named instructor.

Thomas Riley

THOMAS RILEY, Sanitary Department, has joined the ranks of Scovill Retired Folks as of July 1, 1949, with 34 years' continuous service.

Coming to Dept. F as an inspector in 1915, Mr. Riley has also served as Assistant Foreman in the Assembly Room and in Burner No. 2; as Foreman in Burner No. 2, Lipstick and, since 1938, in the Sanitation Dept.

Ralph Pagano

RALPH PAGANO, Dip Room, was placed on the Retirement List as of June 27, with almost 34 years of continuous service.

In 1915 he came to work in Dept. F. He has also worked in the Fuse Dept., Packing, Japan, Lacquer, and in the Dip Room where, since 1926, he has been a lacquerer.

Harry T. Wayne

HARRY T. WAYNE, Real Estate, was added to the Special Retirement List as of July 1, 1949, with 34 years of service.

He came to Scovill in 1915 to the Experimental Department. In 1917 he was made Superintendent of installation of furnaces and later served as assistant in the Industrial Service Dept. He has also served as Assistant Employment Manager and Salesman for the Boston Office. He returned from Boston in 1933 to the Real Estate Office where he served as Head of the Department until his retirement.

Sven Nilson

SVEN NILSON, Tool & Machine, was retired on June 20, with 32 years of continuous Company service.

Coming to Scovill in 1917, most of Mr. Nilson's career has been spent as a hardener in Tool & Machine, except for a short time in the X-Rod Mill.

Michael Longo

MICHAEL LONGO, Waterville, was retired on July 1, 1949, with 39 years of continuous service.

Mr. Longo came to work in the Main Plant Screw Department in 1910. He has spent his entire Scovill career in that department, except for a short time in the Yard Department. In March, 1942, he moved along to the Waterville Division when the Screw Department was transferred to that plant; and has served as a Toolsetter up to the time of his retirement.

Committee Plans For Industrial Museum

An Industrial Museum Committee of the Mattatuck Historical Society has recently been formed. It has as its expressed purpose the promotion of an industrial museum for Waterbury — one of the oldest industrial sections of the country.

This museum will hand down to posterity not only the products, but also the actual physical operations, which go into the manufacture of the products for which Waterbury has been and is now noted.

The committee is comprised largely of representatives of older factories and mills of the Naugatuck Valley. William C. Cleveland, of the Engineering Department, represents Scovill on the committee.

This group is peering in the dark basements and far-away corners in their own factories to see what articles of antiquity are hidden beneath a pile of dust and might be resurrected for the museum. They are compiling lists of all the manufactured products or old machines they discover. These lists will eventually provide the basis for the start of an industrial museum in Waterbury.

Personal Contributions

The committee expresses the thought that such articles may well be hidden in an attic or cellar. It may be an old watch, an early lamp or possibly a piece of machinery. Whatever it is, the committee is interested if Waterbury or some nearby town manufactured it.

Persons who have something they feel may be of interest are asked to contact Mr. Rawson Haddon at the Mattatuck Museum, 119 West Main.

Don't forget about the article because it seems small or of little value. It might be just the item the committee knows was manufactured by the millions 20 years ago, but can't find a single copy of today.

Guests At Woodtick

Yes, you can take guests with you to the Woodtick Swimming and Recreation Area — that is, if you are a Scovill employee with an Employee Pass or the member of a Scovill employee's family to whom an Associate Pass has been issued.

Be sure to bring your pass with you. Passes are being checked very closely as the prolonged heat wave has increased the attendance at the Area to a point where the facilities will accommodate only those who have been issued passes.

POSTMASTER—If addressee has removed and new address is known, notify sender. Dept. B, on Form 3547, postage for which is guaranteed by the sender.
