Job Security

Our jobs are only as secure as we individually and collectively make them. The end point of our effort must be to satisfy our customers. We can satisfy them only with good service and quality products at satisfactory prices. And the price must yield a reasonable profit to the company if we are to stay in business.

With wages and salaries rising steadily, we must increase productivity and thus lower costs. To increase productivity we must produce more per man-hour with normal effort. This means we must have better tools and equipment, better methods, and eliminate all wastes.

The personnel of our Methods and Time Study Departments are doing their best to suggest ways of reducing costs, and thus insure the jobs of all of us. So are all employees who make suggestions of better ways to do a job.

The road to job security is a straight road to satisfied customers. Without them there will be no jobs.

Adam C. Curtis
Vice President

New Assignments

General Mfg. - Stampings

Announced by Mr. G. L. Chase, Factory Superintendent, Stampings Div.:

Chester A. Bandurski has been appointed Asst. Foreman in the Lipstick Dept., effective May 21, 1956. He will report to Foreman E. C. Mellon.

Rod Fabricating Division

Announced by Mr. W. H. Machin, Manager, Rod Fabricating Div.:

Effective June 1, 1956, Norman J. Schaffer has been appointed Factory Superintendent of the Rod Fabricating Division. He will have line responsibilities for the operation of the following departments:

Bldg. 112 Service, excluding Slide Fastener; Chucking, Fuze, Screw Machine — Single Spindle, Multiple Spindle, and Pack; Cleaning, Hot Forge and Tool; Screw Machine Tool; Screw Machine Products — Production Con-

trol, Estimating, Process Engineering, Design; Factory Supt's Office.

He will report to the Manager, Rod Fabricating Division.

Effective June 1, 1956, William F. Lanzoni has been appointed an Assistant to the Factory Superintendent of the Rod Fabricating Division. He will be responsible for Production Control, Budgets and other duties to be assigned. He will report to Factory Superintendent Schaffer.

Mills Division

Announced by Mr. C. P. Goss, Manager, Mills Div.:

The Mill Production Department has assumed responsibility for Mill Product Warehouse planning, layout, equipment and materials handling methods, and the coordination of related mat-

(Continued on Page 3, Column 3)

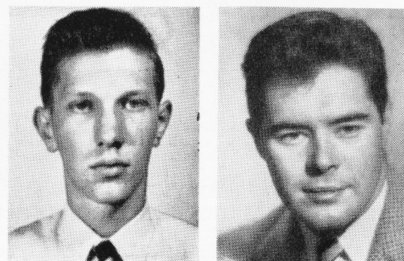

Two Receive Mills Division Scholarships

Mr. C. P. Goss, manager of the Mills Division, has announced the award of two full tuition scholarships to engineering students for the 1956-1957 academic term.

The recipients, selected from a field of several applicants, are: William Henry Brennan of 120 Johnson St., and James Andrew Mulholland of 12 Springdale Ave.

Mr. Brennan, a native of Waterbury, entered the General Training Course of the Company in October, 1951, following his graduation from Sacred Heart High School. He completed his training as a Mechanical Draftsman in January, 1956, and since then has been on the staff of the Mechanical Engineering Dept. He will enter the University of Connecticut in September as a Mechanical Engineering major.

Mr. Mulholland, also a native of Waterbury, was graduated from Crosby High School in 1952, and entered Massachusetts Institute of Technology,

J. A. Mulholland W. H. Brennan

where he is completing his junior year in the Chemical Engineering Course. While at M.I.T., he has been a member of the varsity track and basketball teams and sings in the Glee Club.

Blood Donor Day

Employees of the East Plant and various offices had pledged 147 pints of blood to be donated at Doolittle Hall on Friday, May 25th.

Due to an unavoidable delay of the Red Cross Mobile Unit, which comes in from Hartford for these visits, earlier scheduled appointments had to be cancelled and 58 pints were collected.

The collection of these 58 pints was made possible through the wonderful cooperation of the Blood Bank staffs at the local hospitals. A hurried call brought a similar setup of equipment to Doolittle Hall.

Miss Anne Slauzes, technician at Waterbury Hospital (who was on her day off) and Mrs. Diane Chepok, technician at St. Mary's Hospital, took the blood from the 58 donors. We gratefully acknowledge their contribution.

Seven Scovillites Retire

The following have retired with benefits to start as of June 1, 1956.

JOHN ASTYK, North Mill, first came to Scovill in July, 1941, and has a continuous service record since September of the same year. Most of his years of service have been in the Automatic Screw Machine Dept. where he served as a maintenance man until June, 1955, when he went to the North Mill in the same capacity.

RALPH BROWN, Waterville, has a continuous service record since June, 1941, when he first came to Scovill's Waterbury Division. Always in the Screw Shipping Dept., he went to the Waterville Div. when it moved in April, 1942. Most of his years were spent as an inspector-checker and he has been serving as a storekeeper since December, 1955.

FRANK CHAPULIS, Casting Shop, was hired in April, 1907, but due to periods out of the plant his continuous service record began in October, 1921. He served in the North Mill as a muffle man until 1921, when he went to the Casting Shop as a barrel man.

ANTONI SEWIRCENSKI, Casting Shop, came to Scovill in February, 1914, and has a continuous service record since June, 1927. He had served

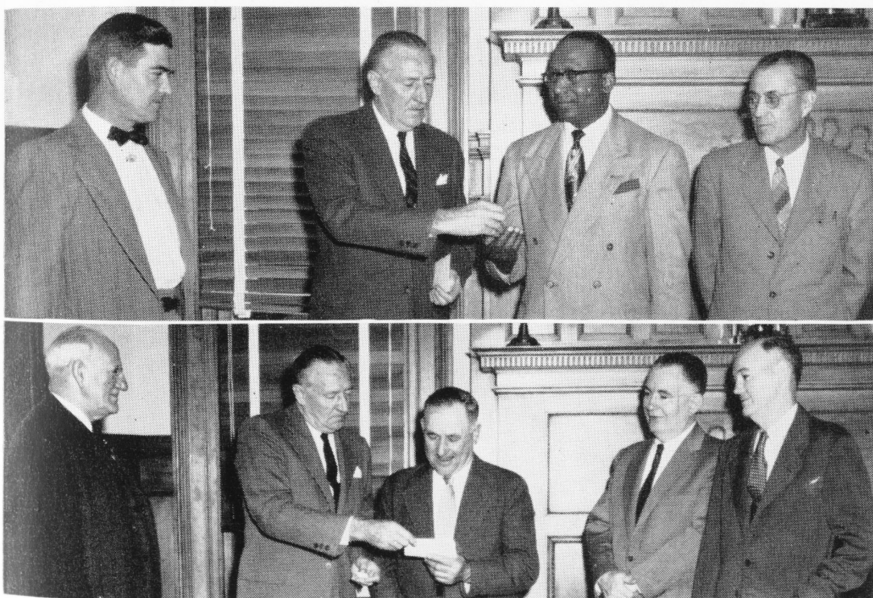

in various departments but, since 1921 all of his service was in the Casting Shop, except for a brief period in the Sanitation Dept. Most of his years were spent as a furnace man and moldman. He was serving as a maintenance man in the Casting Shop when retired.

CARMINE STANGO, Waterville, first came to Scovill in June, 1933, and has a continuous service record since September of the same year. He began his career at Scovill's Waterville Div. in the Buff Room. Except for short periods in other departments, he has always been a buffer.

CHARLES CLEMENTE, Dip Room, was retired with benefits to start May 1, 1956. Mr. Clemente first came to Scovill in October, 1908, with a continuous service record since July, 1911. Except for a short period in the Fuse Dept., he has always served in the Dip Room where he was a supervisor for over nine years. He was serving as a dipper-samples when retired.

MILDRED E. ROCKWELL, Providence, retired from active service on May 11, 1956, with over 29 years of continuous service. Miss Rockwell joined the staff in the Providence Office on March 1, 1927 and had been serving as secretary-stenographer.

40-Years Of Continuous Company Service

Milton Wyrick, Sr., Automobiles, proudly accepts his 40-year continuous service pin from President W. M. Goss. On hand for the occasion were: Asst. Supt. of Traffic Wm. J. Morrison and Transportation Foreman Philo B. Lee.

Luigi Pirone, Wet Rolling, also receives his 40-year award from Mr. Goss. Looking on are: Closure Div. Works Manager Jerome G. Wolff, Button and Fastener Div. Gen. Foreman Raymond Havican and Foreman Edward Dowling.

No. 11

When Buying — Buy Scovill

"The Lord helps those who help themselves" is an old adage—and it has its modern counterpart for Scovill employees.

Scovill makes many items sold under the Company name which either are used as part of an item such as GRIPPER Snap Fasteners and Zippers in clothing, or complete items as the GREEN SPOT or Hamilton Beach lines.

Scovill employees can help themselves when shopping if they will specify Scovill products in the items they purchase. They will receive not only the best product of its kind on the market, but will also help create an additional demand for Company products which will, in turn, mean more jobs.

When shopping, it is easy to spot Scovill products. For instance, men's shorts are almost universally equipped with GRIPPER Snap Fasteners, as are a great number of infants' and children's clothes. GRIPPER Zippers are found in most work pants, dungarees, dress trousers and slacks.

When stocking up on watering accessories, ask for the GREEN SPOT line.

If you should be thumbing through a "notions" counter for pins, eyelets, home-attached GRIPPER Fasteners and similar items, look for Oakville Division products. When looking for home supplies of paper clips and similar stationery products, ask for the "Yellow Box" line.

As for such household electrical appliances as food mixers, vacuum cleaners, liquid blenders, home drink mixers, floor polishers and hair dryers, none can top those made by Hamilton Beach.

The superiority of A. Schrader's Son automotive equipment has always been recognized.

If you are in the process of building or remodeling a house, ask that Scovill kitchen and bathroom brass plumbing fittings made by our Waterville Division be specified.

These are just a few of the areas in which employees can help themselves by buying Company products. Not only will it help jobwise, but will also point out to Waterbury that Scovill employees know their products are the best on the market and are not satisfied with any others.

Safety Shoes Save Toes

Many feet are saved every year by safety shoes. Today's safety shoes are attractive, comfortable and as long lasting as any other type shoe.

The Safety Shoe Store is located in the basement of the Employee Rela-

tions Building. If you aren't one of the many regular shoe customers, stop in any Tuesday or Thursday, between 7 a.m. and 4:30 p.m., and see them.

They may be purchased through Payroll Deduction payments.

Just a small cut in the cap of a shoe? It is, but the owner Byron Fleming, of Button Eyelet, is thankful he was wearing safety shoes when a 200-lb. machine fell from table height and struck his shoe.

Byron did not even realize his toe had been touched until a fellow employee called his attention to the cut in the cap of his shoe. The steel toe of the shoe was nicked below the cut but Byron's toes were safe.

Quack! Quack!!

By Robert W. Butler, M. D.

—That really means one quack in this issue and another in the next—can't get it all into this one.

Sick people unfortunately never get better fast enough—a statement which will provoke no argument. Unfortunately, the impatient patient too often falls into the hands of that free-wheeling, triple-distilled, contemptible lizard, the quack, and the results are always the same: loss of time, money and health.

Not long ago the American Medical Association published a pamphlet on mechanical quackery, the content of which follows. It might be worth reading and remembering as against the day you may be sick yourself and tempted to squander your money, time and chances of recovery.

Mechanical Quackery - Part 1

Today there are thousands of quacks promising quick cures for every disease known. They extort millions of dollars annually from their gullible patients.

The quack's promises, curealls and gadgets are phony. As phony as a fixed gambling wheel or a "conman's" schemes. Healthy people usually laugh at or ignore the quack and his gadgets—but sick people may grasp at anything that offers a quick cure. Even you can be fooled unless you know how quacks operate. This pamphlet describes some mechanical devices they have used.

Machines can be a blessing or a curse to medicine. In the hands of a skilled physician, certain machines are useful in arriving at a diagnosis or charting a method of treatment.

But there are machines which are a threat to your health. Any quack who passes off his device or gadget or "system" as a cure-all is cashing in on your superficial knowledge of science.

Our doctors of medicine are trained for years in reputable schools and hospitals and are licensed only after they meet high medical standards.

Not so with the quack.

He pretends to medical skill. He invents a machine, device or scheme to defraud the public. He advertises that he has the one and only "cure". He may pass himself off as

a member of a "drugless healing" group or perhaps a "doctor" of—say, "electro-therapeutics" or "herbal materia medica". Quacks even purchase phony medical diplomas. All the quack needs is someone to believe him. And some sick people are easily impressed.

The quack usually relies on testimonials to convince the ailing patient that someone else has been cured. The quack's victim has to accept his word that the "cured" person had the disease to begin with. The victim never hears a word about the ones who die.

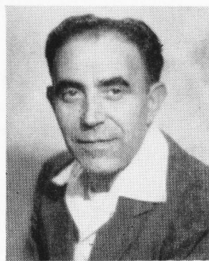

Degrees or titles should be judged by the caliber of the institution granting them. During official proceedings before an Indiana state examining board, an alleged "doctor", Heil Eugene Crum, testified he received four degrees from a "Drugless Practitioners College" he said he had attended for one year. They were: doctor of chiropractic, naturopathy, herbal materia medica and electro-therapeutics.

When C. W. Kent, inventor of the Electreat Mechanical Heart, was tried for violation of the federal food and drug law, he identified himself as a graduate of the United States Institute of Phrenology. (A phrenologist "interprets" the bumps on your skull.) He told the court: "I had a course in high school entitled physics. I took another course about electric motors. The tuition was four dollars and the course ran three months, meeting twice

Retired Folks' Picnic

Members of the Scovill Retired Folks' Club will wind up the season with their annual picnic at Woodtick on Tuesday, June 12.

They will meet at the Scovill Girls' Clubhouse at 1:30 p. m. and will be taken to Woodtick in cars. Members who will be driving and can take passengers are asked to stop at the clubhouse and take along a few members.

If inclement weather, the meeting will be held in the Clubhouse.

"Scoops" From Zippers

By Louise Foell

Vacations have started in Slide Fastener with Adele Sharka. She spent her time just resting at home and enjoyed it.

Bea Biondi's destination is a trip to Europe — her dream come true. We all wish Bea a "Bon Voyage".

A Memorial Day birthday for Lucy Rinaldi. Many happy returns, Lucy.

The girls in Salvage are sporting some pretty fancy shoes lately, thanks to Iva Corcoran.

A happy announcement: Gladys Brittain and Warner Nichols have recently become engaged. Gladys is a former Slide Fastener employee and her mother, Ruth, is in Assembling.

Picnics At Woodtick

The picnic grounds at Woodtick have been cleaned, all the equipment reconditioned and the area is now ready for department and group picnics.

Dates are being given on a first-come, first-served basis. In order to obtain the date desired, be sure to call the Employee Activities Office, ext. 834, as soon as possible.

Picnics scheduled for June are:

June 12—Retired Folks' Club
June 13—Oakville Division
June 20—Mill Production
June 23—Slide Fastener
June 28—Cost Office

Quack! Quack!!

(Continued from Page 2, Col. 4)

a week. I missed a couple of classes."

A colorful Parsee who came here from India, Dinshah P. Ghadiali, advertised that he has at least 15 degrees, including an "honorary M.D."

Dinshah G. Ghadiali invented the theory that good health could be retained or regained through "attuned color waves". Then he invented a machine to do the "attuning". It was the Spectro-Chrome. A metal box on a stand houses a 1,000 watt light bulb. Panes of colored glass slide in front of the bulb—different colors "treat" different diseases. Ghadiali's victims had to join his Institute and pay \$90 membership fee in order to get the machine—free.

Ghadiali started the Spectro-Chrome Institute about 1920. He did a flourishing business until the government prosecuted him in 1947 for repeated violation of the federal food and drug law. At the trial it came out that Ghadiali told an elderly diabetic to stop taking insulin. While using his Spectro-Chrome, the diabetic went into a coma and died. An epileptic who testified that the same device had benefited him collapsed on the witness stand—from an epileptic fit.

A \$20,000 fine was levied against Ghadiali and his Institute. Ghadiali escaped a prison sentence because of his age (he was 73). He was put on five years' probation but, now that the time is up, he's reported working again.

Scovill PANELOC Fasteners Displayed

A display of PANELOC Fasteners was Scovill's contribution to the Design Engineering Show sponsored by the machine design division of the American Society of Mechanical Engineers, at Convention Hall, Philadelphia, recently.

The Scovill PANELOC Fasteners used in this exhibit were dramatically utilized to hold together the entire display.

Panel fasteners, high performance fasteners and rotary latches were the primary PANELOC Fasteners used. The simple and economical, yet strong and durable, new rotary latch was the featured fastener. It is noted for the fact that in addition to saving space, weight, time and cost, it does an unsurpassed fastening job on hinged or removable parts such as electrical panels, machinery or inspection doors, etc.

The display was constructed of aluminum panels, channel and tubing which were easily assembled and disassembled with the use of quarter-turn panel fasteners; the background drape was secured to the aluminum channel by Snap Fasteners.

A number of hinged and removable panels were flush mounted as an integral part of the exhibit to enable visitors to operate and study the fasteners.

All the panels in the display were finished and anodized in Scovill's Aluminum Finishing Dept.

Rod & Gun Club Notes

Important dates for your notebook!

1. Rod & Gun Club Fishing Competition—Saturday, July 28, starting at 8 a.m. (for Rod & Gun Club members only).

2. Rod & Gun Club Annual Outing at Woodtick — Saturday, Aug. 18.

3. Tentative Reeves Fishing Competition Dates: September 8, September 22, October 6 and October 20.

Watch THE BULLETIN for additional information which will be released later. Meanwhile, reserve these dates!

The Rod & Gun Club has been entered in the Schaefer Striper Contest. Any members catching a striper 15 pounds or over, may enter their catch in this national competition. There is a similar contest for Blue Fish.

For entry blanks and further information, contact Secretary Bob Anderson, Hot Forge Tool.

Scovill Rifle Team

The Lyman Range in Middlefield is the scene of the Scovill Rifle Team's matches. To date, they have competed with and lost to the Middletown and Mossburg teams. They hope to do much better in the future matches which are scheduled as follows:

June 4—Wepaug
June 20—Bell City
June 27—Falcons
July 23—Glastonbury
July 31—Winston
August 7—Lafbury
September 19—Lymanettes

Employees in the Waterbury, Waterville and Oakville Divisions are eligible to be members of this team. If interested contact Allan Steel, Maint. Engineering; Ben Blake, Engineering; Harold Slocum, Shell Dept.; Harold Hendricksen, Gen. Mfg. Tool Room; Fred Simons, Oakville Div. or Dick Bares, Gen. Training Room.

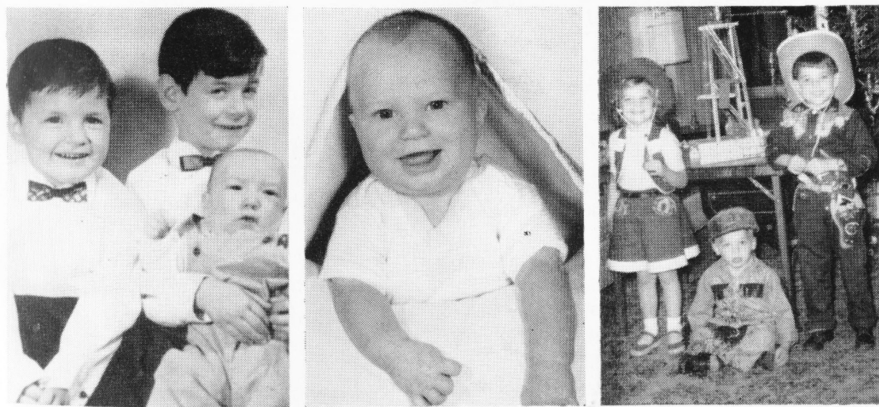

New Assignments

(Continued from Page 1, Column 2)

tters between the Mills and Warehouses.

Ward D. Hobbie, Sr. has been assigned supervisory duties in connection with the above affairs. This new assignment is in addition to his duties in the Mills Division. He will report to Mr. James P. Cusack, Manager, Mill Production Dept.

The Younger Set

Left photo:—A happy threesome are Carl (5), Richard (6) and Laurence (15 months). Mother is Theresa Rogers, Lacquer Room; two uncles in Scovill are: Harold Rogers of Mfg. Finishing Lab and William Rogers of Mfg. Eyelet.

Center:—Stacy Christian, now seven months old, awakens from his nap full of vim and vigor. He is the son of Pegi (Conway) Christian, formerly of the Attaching Machine Dept., and the nephew of Aimee Conway of the Payroll Dept.

Right:—Dressed in their favorite outfits are cowgirl Margaret, "Davy Crockett" Mark and cowboy Jackie. They are the children of John Kenny, Jr., salesman in our Atlanta district, and grandchildren of Peter Giesen, Button Packing.

Take Blue Cross Card On Your Vacation Trip

This is the time of the year when everyone starts planning their vacations. While making that list of everything you think you will need, don't forget a very important item — your Blue Cross Membership Card.

No one likes to think that his vacation can be spoiled by sickness or an accident, but it does happen — so be on the safe side and have your card with you at all times.

Your Blue Cross membership is good in any approved general hospital in the world. If you or a member of your family needs hospital treatment out of the state, ask the hospital to wire Connecticut Blue Cross collect — be sure they include your membership number in the wire. Blue Cross will promptly establish credit for benefits.

If you prefer, you can pay the bill and mail your receipted copy to Blue Cross. A check will then go directly to you. Either way, you'll find you're entitled to broad Blue Cross benefits in out-of-state hospitals.

Schrader Man Heads Brooklyn NACA

Frank Marseglia (left) accepts congratulations from John Hayes on his recent election as President of the Brooklyn Chapter of the National Association of Cost Accountants. On the morning after election, the floral horseshoe with good luck ribbon was presented to Frank by members of the Electric Accounting Machines Dept., of which Frank is head and John his assistant.

The Brooklyn Division also points with pride to Frank Buchheit who has completed his term as President of the Long Island Chapter of N.A.C.A.

Scovill Softball League

Standings to date:

	Won	Lost
Drafting	3	0
Pinmakers	2	0
West Machine	2	0
Gripper Eyelet	2	1
S.W.E.R.A.	2	1
A.S.M. Tool	1	2
North Mill	1	2
Casting Blue Devils	0	2
Lipstick	0	3
West Tool	0	3

Schedule for June 11:

Drafting vs. Lipstick — Brass Mills #1; Pinmakers vs. A.S.M. Tool—Brass Mills #2; West Machine vs. Lipstick—Brass Mills #3; Drafting vs. Strip Mill—Woodtick; West Tool vs. Casting—City Mills.

Two Succumb

JOHN J. BRESNAHAN, retired, died on May 17, 1956.

Mr. Bresnahan first came to Scovill in September, 1915, and had a continuous service record since April, 1924. Except for a short period in the North Casting Shop, he served between the North and East Mills in various capacities and was serving as a bandmaker in North Mill Finish when he retired in August, 1949.

CANIO DIRITA, retired, died on May 20, 1956.

Mr. DiRita, who had over 26 years of continuous service when he retired in January, 1948, first came to Scovill in March, 1917. He had been in the Dip Room since November, 1922, prior to which he served in various departments. He was serving as a floorman when retired.

Woodtick Reminders

Gardens

The garden plots at Woodtick have been plowed and harrowed and are now ready for use. There are still a few plots available. These will be distributed on a first-come, first-served basis. If interested, contact the Employee Activities Office. To protect both you and your plot, be sure to have the garden in the name of the person who will be working it.

Passes

Woodtick has developed into one of the most popular recreation spots in the area. With capacity attendance expected on really warm days, it would be wise to have your pass with you to be sure of being admitted to the area.

Application blanks for associate passes for family members of Scovillites have been sent to all employees. In order to avoid confusion and delays, these forms should be filled out and returned to the Employee Activities Office and the passes obtained as soon as possible.

Cooperation

Every effort has been made to make Woodtick the ideal recreation area for all Scovill employees. It is only fair that they do their part in keeping it so. This can be done by helping to keep Woodtick a clean, neat and safe place.

When finished with your picnic, remember to put the waste in the rubbish barrels that are conveniently located around the area and be sure the fire in the grill is out before leaving. Don't roughneck on the beach—horseplay can be dangerous with so many people around. When fishing, be careful with the boats—try to keep them clean and, when finished, tie them securely to the dock.

Classified Ads

For Sale

Universal washing machine, suitable for cottage, \$25. Call 3-8067 after 4 p.m.

7-foot red camp trailer, excellent condition. Call at 79 Sumac St. or phone 5-9027.

4-room house off Hamilton Ave., tile bathroom, hot air heat, General Electric hot water heater, large enclosed back porch, storm windows and screens; lot 100 x 100' off Meriden Road. Call 4-8232.

41/2-foot white bath tub on legs; side-arm water heater; hot water coil. Call 8-2369.

Modern mahogany 7-piece dinette set with table pads and mirror; 9 x 12' rug, rose floral pattern; porch glider; 4-poster mahogany bed; mahogany dresser; all in excellent condition. Call Cheshire BRowning 2-4340 after 5:30 p.m.

Red and chrome dinette extension table with 4 chairs, excellent condition, \$30. Call CRestwood 4-1244 after 6 p.m.

1946 two-tone blue Chevrolet, radio, heater. Call 6-3287.

3-rooms of furniture—7-piece mahogany dining room set; 3-piece mahogany bed-room set; 3-piece living room set. Call at 739 North Main St., 2nd floor, or phone 5-4986 after 4 p.m. weekdays or anytime weekends.

1954 Meadowbrook Dodge, radio, heater, low mileage, good condition. Call 3-9030 after 4 p.m.

Resner gas space heater, chrome pipe, blower and thermostatic controls. Can be used as air circulator in the summer, used one season. Call 5-9871.

Boy's full size Schwinn bicycle, good condition, \$10; two hand lawn mowers, \$4 each. Call at 45 Joycroft Road or phone 4-8966.

Lawn chairs; cedar chest; cedar closet, 6' high, 3' wide, 22" deep; window curtain cornices. Call Southington, MArket 8-5332 after 5 p.m.

Two 600 x 16 tires, like new; 9 x 12' gray and maroon linoleum, used slightly; \$3. Call 4-8052.

Two pair summer drapes and one bed spread, slightly used, \$15. Call 6-3102.

Reconditioned 1/4 h.p. motor. Call 5-3701 after 3 p.m.

Upright piano, tuned yearly, excellent condition. Call 4-6735.

Light peach ribbon nylon dress, worn twice, size 14; boy's light gray gabardine suit, size 16; both in excellent condition. Call 3-7329 after 5 p.m.

Girls' Club News

By Teresa Ryan

The Girls' Club Bowling League held its annual banquet at D'Angelo's on May 10th. Awards were given to Hazel Didsbury—high average; Mary Winton—high single; and Sophie Stankus—high three. Loretta Clark was reelected secretary and Shirley Schnierer was reelected treasurer.

The "outgoing" and "incoming" council members held their dinner on May 24th at Ramini's in Meriden.

We wish to welcome the following new members: Josephine Oderwich, Providence Davino, Stella Dunn, Alice Franco and Teresa Dannis (all of Press #2); Irene Kosakowski and Josephine Calabrese (both of Closing); Rachel Graham, Marian LaFreniere, Flora Weymer, Muriel Graham and Helen Carleglio (all of Lipstick).

Mary Jaroz, Press #2, is riding in a new turquoise and eggshell Plymouth sedan.

Edith Carolan, Slide Fastener, has a new hobby, gardening. She has planted tomatoes, cucumbers and radishes.

We are sorry to hear that Adeline Goudreaux is ill. Hurry back, Adeline.

Frances O'Rourke, Lipstick, is happy because of the recent ordination of her nephew, Reverend Joseph Pettit.

We were very glad to receive "thank you" cards from our retired members, Rose Winslow, Rose Perigard and Jeanette Bronneke.

Mr. and Mrs. David Clark (the former Mary Petrucci) are the proud parents of a lovely daughter, born on May 23rd.

On June 17th, there will be a one day trip to a shrine with a stop over at Rye Beach. On June 30th, there will be a two week trip to Florida and Nassau. Watch for flyers on these trips or call Margaret Snowden, Milling and Grinding.

Boy's blue and gray glen plaid wool suit, size 10, like new. Call 5-4459 after 5 p.m.

Boy's 26" bicycle; white porcelain oil range; sink; setstubs; plate glass; 5' high chain link fencing, oak table. Call 5-6416.

Florence combination stove, 4 & 4, chrome pipe, oil drum; Coleman automatic floor gas furnace with thermostat, heats 5 rooms easily. Call 6-6306.

Magee combination gas and oil range with guarantee, practically new; Vacation home in Vermont near New York State border and four different lakes, good fishing and hunting. Call at 274 Rawley Ave. or phone 5-6924.

Bronze screens: 4—55 x 31 3/4", \$1.50 each; 2—27 3/4 x 43"; 1 each of sizes—51 x 28", 50 3/4 x 32", 43 x 23 3/4", 35 x 35 3/4", \$1 each. Call at 44 Midland Road or phone 5-4093.

Kenmore electric ironer, good condition. Call 4-6281 after 5 p.m.

Wanted To Buy

Willys jeep with 4-wheel drive, good condition. Call 3-2254.

Ride Wanted

Girl desires ride to Bristol on Fridays at 5 p.m. Contact Gloria Chodos, ext. 2312.

Lost

Fishing tackle box near Scovill dam at Woodtick. Call 5-6561.

Other

Invalid woman desires a housekeeper, must sleep in. Call 3-0059 or 5-8590.

Dump truck and driver available; will provide A-1 loam, sand, gravel and fill. Call 3-6445.
