GRIPPER Products In July Exhibits

This attractive display of GRIPPER Snap Fasteners and Zippers for work clothes, dress trousers, and jackets, was exhibited at two conventions during the month of July.

The display was first shown at the Southern Garment Manufacturers Association's Convention at Hotel Roosevelt in New Orleans, Louisiana, July 13 to 17.

The following week, it was shown at the Textile Merchants Associated Industries Convention at the Palmer House in Chicago.

Occupying a large modern suite three similar units were shown featuring Scovill products. Each unit consisted of two large plastic balls hanging from brass rods. Inside these plastic balls mounted on panels are GRIPPER Zippers, Buttons and Snap Fasteners.

New Assignments

Closure Division

Announced by Mr. P. E. Fenton, General Manager, Closure Div.:

Effective August 1, 1957, Mr. Edward F. Anderson has been appointed Product Manager of the Slide Fastener section. He will be responsible for the development of policies on product design, inventories, marketing and advertising, and will report directly to Mr. Fenton.

Mr. J. DeWitt Knotter continues as Sales Manager of the Slide Fastener section of the Closure Division.

Mr. William R. Spearrin, formerly of our New York Sales Office, has been appointed to the newly created post of Sales Promotion Manager of the Closure Division. He will be responsible for the execution of promotion policies as they are developed by Mr. Anderson for Gripper Zippers and by Mr. E. D. Janes for The Button and Fastener section, including our GRIPPER brand Snap Fasteners and other metal closures.

SERA Day Camp

The tenth season of the SERA Children's Day Camp at Woodtick has reached the half-way mark. Average attendance has been 110 children, with a high of 130 youngsters between the ages of 5 and 12 years.

The Camp is scheduled to run through the week of August 26th.

No Fishing At Woodtick

Until further notice, there will be no fishing at Woodtick Lake.

The SERA Fishing Committee has found it necessary to close the lake for fishing because of the unusually dry weather and the necessity for the continuous drawing of water for manufacturing purposes.

Forging & Screw Machine Div.

Announced by Mr. W. H. Machin, General Manager—Forging and Screw Machine Division:—

Effective July 22, 1957, Mr. William B. Rotella has been appointed Foreman of the second shift in the following departments:— #81, Chucking; #83, Screw Machine Single Spindle; #84, Screw Machine Pack; #85, Cleaning; #88, Screw Machine Multiple Spindle; #378, Screw Machine Tool. He will report to the General Foremen in charge of the departments.

Fringe Benefits

Most employees take the so-called fringe benefits as a matter of course. They know they have them, but they have little realization of their cost.

Each one cent per hour per employee the Company spends on fringe benefits has the same effect on costs as one cent paid in wages.

Among these so-called fringe benefits are paid holidays, vacations, insurances, pensions, recreation, overtime, shift extras, social security, unemployment compensation, and others. The costs for all these benefits are not known, because the individual does not actually receive the money that most of them cost.

But each individual should know the amount that they do cost. Here at the Waterbury Division the cost to the Company of these fringe benefits amounts to 67.3 cents per hour per employee based on a 1,750 hour work year.

That ain't hay! It is a substantial part of total compensation for working.

Adam C. Curtiss
Vice President

Retirements

The following have retired from active service as of August 1, 1957.

JOSEPHINE CALABRESE first came to Scovill in April, 1908, but due to periods out of the plant, her continuous service record begins in February, 1946. She served in various departments prior to 1956 when she went to Lipstick as Power Press, Foot Press Operator.

JAMES CARROLL has 42 years of service, with 37 continuous years since July, 1920. He was first hired in October, 1914. Always in the Tool and Machine Division, Mr. Carroll was serving as a machinist in the West Machine Room when retired.

ANDREW CRAFA has accumulated almost 53 years of continuous service in Scovill since November, 1904. He has served in Trim & Knurl, Cosmetic and Press II as toolsetter since 1943.

(Continued on Page 4, Column 3)

SERA Calls Special Membership Meeting

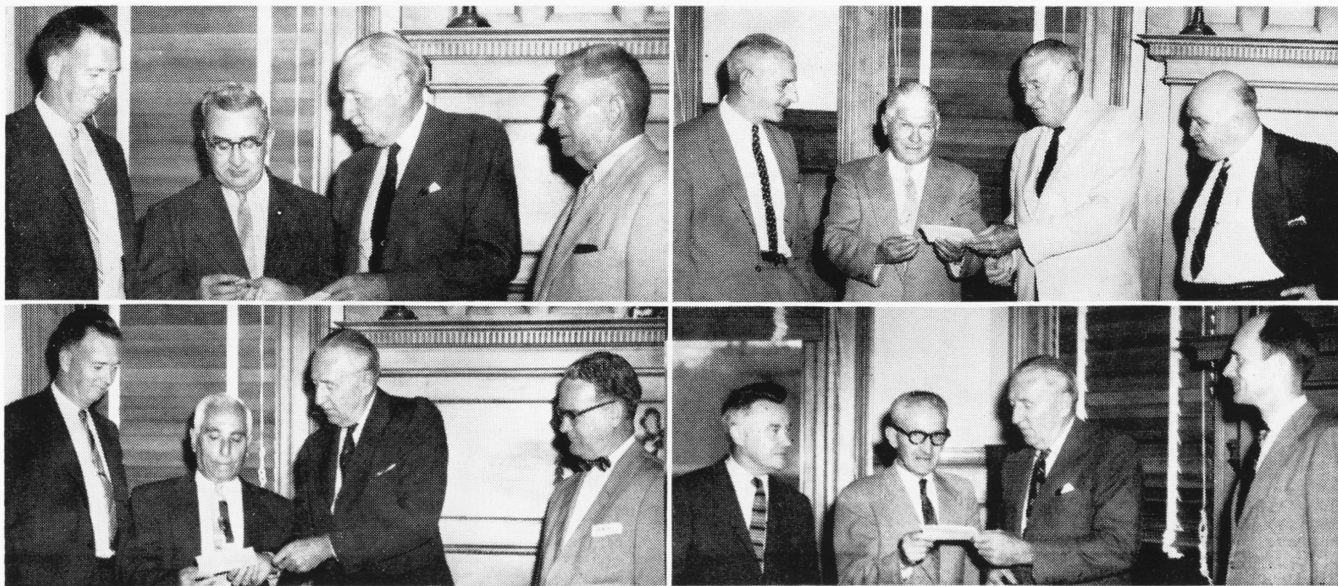

A special meeting of all members of the Scovill Employee Recreation Association will be held on Monday, August 12, 1957, at 8:00 p.m. in the Scovill Girls' Clubhouse.

The meeting is being called for the purpose of having members vote approval of a new constitution as revised by the Board of Directors. Changes have been made in the old constitution and by-laws to provide membership in the Association for employees of all divisions in the Waterbury area. Heretofore, membership was limited to employees of the Waterbury Div. only.

The new constitution will open membership to employees of the Oakville and Waterville Divisions. These employees have been very active in the use of the various facilities and have

Woodtick Lifeguards On Duty

Woodtick's regular lifeguards are: Chuck Andrews, Head lifeguard, Dave Pierpont (seated) and John Dunn.

Bathers at Woodtick are under the constant watch of qualified lifeguards. Regular guards this year are: Head Guard Chuck Andrews, Dave Pierpont and John Dunn.

The guards are on duty six days a week with a replacement on their day off. On weekends when the swimming area is filled to capacity more lifeguards are on the scene. One such fellow is Tom Phelan who is a qualified lifeguard and had worked at Woodtick for three years. This year he is employed elsewhere and is on duty weekends. He attends Holy Cross College.

The watchful eyes of the guards keep all bathers under surveillance, whether they're seated on the "watch

tower" on the beach, cruising around the lake in their special boat, or walking along the beach and grassy area.

Chuck Andrews has been at Woodtick area for the past five years. He performed various services around the area such as basketman, mowing lawns, cleaning the beach, supervising small children and, now, he is head life guard. Chuck attended University of Connecticut and plans to join the Air Force this fall.

Dave Pierpont is a Crosby senior and plans college upon graduation. This is Dave's first year at Woodtick.

John Dunn has been at Woodtick for three years. He plans to enter college this fall. He was an outstanding athlete at Wilby High.

Ten Year Service Awards

July 25—*Louise D. Foell*, Slide Fastener Finish; July 27—*Claire Daly*, Slide Fastener Chain; August 4—*David C. Fisher*, Sturgis Office.

Attention Bowlers!

Have you had any thoughts of bowling lately? It may be pretty warm right now but bowling will be coming up soon and it's time to make plans.

Bowling usually starts early in September so captains and league secretaries are advised to start making plans now to get teams assembled.

Safety Glasses Save Another Eye

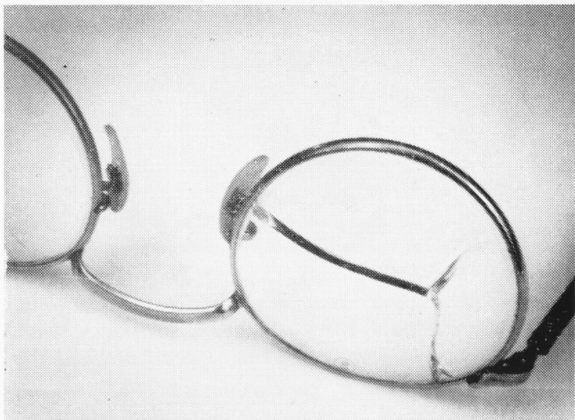

Thanks to eye protection, Joe Salerno still has two good "seeing eyes."

While Joe was making a heavy cut in a piece of steel on a lathe, a piece of the steel suddenly flew up and struck the right lens of his glasses. They were safety glasses which prevented him from being an eye accident statistic

with possible consequent loss of vision.

Scovill issues the best protection for your eyes but it is your responsibility to wear them. Don't take any chances. Joe didn't.

Are you protecting your vision at work, at play, at home and on the highway? Keep your eyes "seeing."

At left is the pair of damaged safety glasses which saved the sight recently of Joseph Salerno, General Training. Joe has good reason to smile.

Gladiolus Exhibit

A special Arrangement Class has been set up for Scovill employees who are interested in entering their own glads in the 32nd Annual Gladiolus Exhibit to be held at Doolittle Hall on Sunday, August 11, 1957.

Class #7 is for a composition or arrangement of Gladiolus suitable for a living room. Exhibitor's own choice of container. Entries in this class are open to Scovill employees only.

This does not mean employees' exhibits are limited to just this one class — unlimited entries may be placed in all classes.

Entrants are cautioned that judging will start promptly at 1:00 p.m. No entries may be made after 12:30 p.m. The hall will be open Saturday, Aug. 10, from 6:30 to 10:30 p.m. for the convenience of the exhibitors.

For further information, call the Employee Activities Office.

SFA Father-Son Day

There were 78 tired but very happy fellas returning to Waterbury at 10 p.m. on July 27th. The fathers and sons had enjoyed a full day together, topped by their attendance at the Yankee-Detroit Baseball Game.

The trip also included a stop-off in Yonkers at the Adventurers Inn with a visit to the Dog Cemetery in Hartsdale. Return trip included eats in Danbury.

Scovill Rifle Team

The Moon-Lite, Mid-Nite League has competed with and lost to the New Britain team, with final scores of 2783-174x for New Britain and 2777-166x for Scovill. They also lost to Quinnipiac's 2797-224x against 2781-162x.

Harold Slocum, Shell Dept., entered the state-wide elimination rifle matches and came out with the highest score in the state. He is one of ten men from Conn. entering the National Rifle Matches to be held at Camp Perry, Ohio, on August 18.

Break The 5 O'clock Mail Habit

The U. S. Post Office Department asks your cooperation in getting the mails through. Our Mailing Department reports approximately 75% of our U. S. mail is collected between 3 and 5 p.m. In order to make air mail schedules, this mail should be ready for collection at 3:30 p.m.

For Our Family Album

These two lovely sisters are Sheila, two years old, and Norma, four years old, whose proud parents are Norman Raeburn, Tube Mill and Madaline, formerly of Slide Fastener. They are the nieces of Andy Raeburn, Casting Scrap.

Strip Mill Employees Find "Room for Improvement"

There's always a better way. Even with the most modern equipment and facilities available, there can be room for improvement.

Employees in the Continuous Strip Mill firmly believe this, as evidenced by the number of suggestions they submit to the Industrial Improvement Committee. They are continually seeking ways to improve their jobs, to cut costs, to produce better products and, perhaps, to win a bit of extra cash.

They are proving their point — as evidenced by the number of awards they have received during the past year. Many of the ideas have been simple, almost

inconsequential things, but were rated important enough to be put into use and worth a cash award.

Among the latest Strip Mill employees to suggest ideas which appeared to be "simple" but netted them \$15 each are: Domenico Ianniruberto, Henry Karpovicius and Edward O'Brien (pictured below).

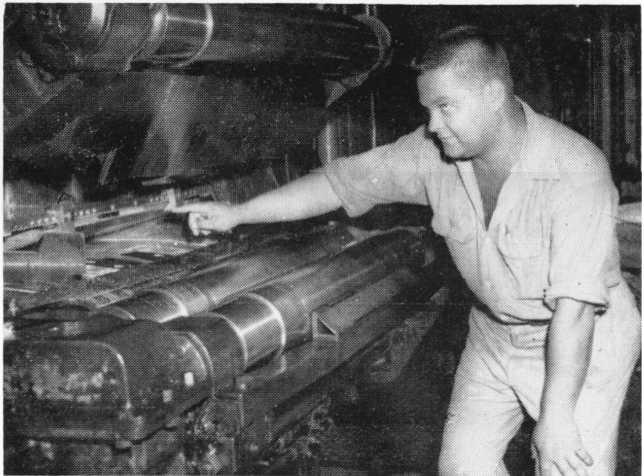

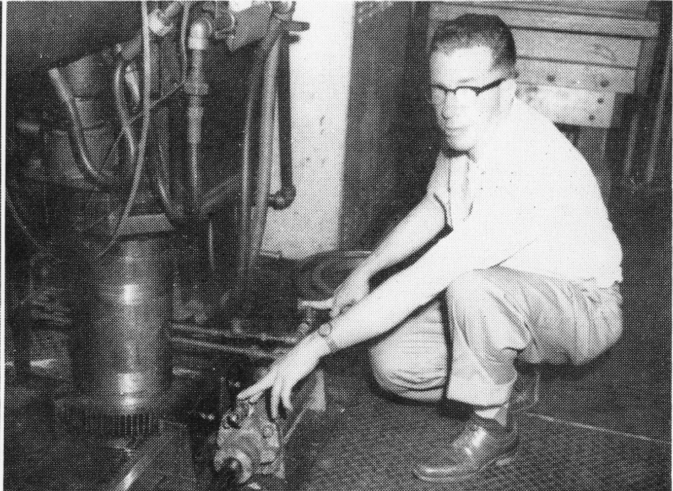

It's the little things that count. Progress comes from "little by little" improvements. Your ideas, no matter how simple, can help build a better product, improve job methods, save energy, time, money or materials.

Top left:—Domenico Ianniruberto discovered that merely changing the position of the feed and exhaust lines to the hydraulic aligning cylinder at the Sundstrand Machine would do away with piping damage, caused by cast bars passing into or out of the machine.

Top right:—Edward O'Brien points to valves he recommended be put on the hydraulic lines on the receiving mandrel of the light duty splitter to release air that accumulates in the lines. Formerly the unions had to be disconnected which was time consuming and costly. Ed's suggestion eliminates this problem.

Right:—Henry Karpovicius suggested a longer piece of metal be used on the top shoe of sticker and held by clamps, thus preventing it from being dislodged by the sticking end of the bar. On a few occasions, the plate had been dislodged and pulled into the work rolls, causing the rolls to be badly heat-checked.

Fishing Notes

Basil Bezubly, the present big bass champ of Woodtick Lake, became so imbued with his fishing success that he decided to add additional laurels to his feat. Basil decided to add some spice to his angling by arranging to spend his "two weeks away from it all" at St. Rock de Makinac in Canada, where the trout and pike are especially hospitable to the American tourists. With him are his wife Antoinette (Lipstick) and daughter, as well as Marion LaFreniere (also of Lipstick) and her husband. There will be some tall tales told when Basil returns!

Frank Williams (Chuckling) drove some 500 miles up into Northern Maine to keep a date with the salmon. The salmon weren't aware that Frank was coming, so the reception committee was most conspicuous by their absence. "Picked up a few stragglers and that's all," reports Frank. Mrs. Williams accompanied him on the long jaunt.

Lee Reid, in search of the elusive stripers, roamed the Cape Cod shores from Provincetown to Plymouth, but no track or trace of the fish could he find until he came to the canal where he met a way-faring man of whom he inquired if he had seen any stripers pass that way. The man replied he had seen but three the day before, which from their appearance seemed to be thin, weak and undersize. That's as close as Lee came to catching stripers.

Ted Sandulli (Hot Forge) has returned from Nova Scotia where he tilled the family farm with much gusto. If Ted has a far away look in his eye these days you can bet your bottom dollar that his thoughts are up North. Says Ted, "As long as they move the Tube Mill to New Milford, maybe they might move the Hot Forge to Nova Scotia. I'd like that."

Bob Anderson borrowed Ted Sandulli's salt water trolling gear. When Bob returned it, it didn't even "smell" of fish. And there were no notches on the handle either. One more disappointment for Ted who had expected at least one striper!

Ray Ladden, SERA Fishing Committee Chairman has announced the closing of Woodtick Lake for fishing due to prolonged

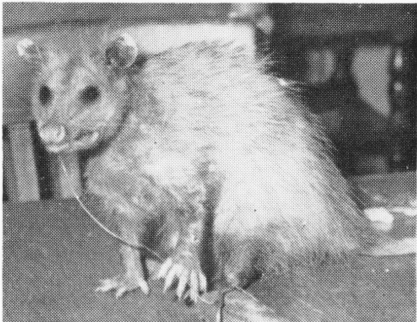

drought. As soon as sufficient rain falls, the Lake will be opened again.

We regret that this means the postponement or cancellation of the Rod & Gun Club Fishing Competition. However, many of our farmers and others have their very livelihood at stake with their crops burning up in the hot sun and dying for lack of rain. So if you feel bad about the competition, remember the other fellow. He's got real trouble!

Attention: Scovill Sportsmen!

Annual Rod & Gun Club Outing for members and male friends, Saturday, August 10, at Woodtick. Catering service—12 noon, till 5 p.m. Tickets at \$3.00 each from Committee members or Officers.

"Slinky"

Introducing "Slinky" that whatisit — a recent visitor to 112 Bldg. What with skunks in Salvage and unmentionables in Shell Dept.; 112 Bldg. takes the honors this week with their capture of Slinky.

It looks like an air conditioned Texas pack rat, but you name it! It is believed that Slinky came down the river to get a good look at big city life and heard the siren song of Scovill Slide-ettes. That was the end of Slinky.

Picnics at Woodtick

The picnic area at Woodtick is ideally located for group or department outings. Reservations for its use are made through the Emp. Act. Office.

If your group is tentatively planning one, better get your reservation in soon. Outings scheduled for August include: Oakville Division, Aug. 7; Rod & Gun, Aug. 10; Oakville Division, Aug. 17; Strip Mill, Aug. 24.

SERA Meeting

(Continued from Page 1, Column 4) contributed substantially to the maintenance and development of the various pieces of equipment and facilities.

It has been felt for some time that representatives from both the Oakville and the Waterville Divisions would add greatly in the planning and direction of SERA activities.

Israeli CAP Cadets Recent Visitors

A tour of our mills division was made recently by five Israeli Air Cadets and their accompanying officer, together with representatives of the Conn. Civil Air Patrol. They were guided through the Casting Shop, Rod, Tube Extrusion and Continuous Strip mills by John Fogarty and John Danaher.

Five young Israelis, members of the Gadna Avir (Israel Air Cadets) were guests recently of the Connecticut CAP Wing. They are in the United States under the International Air Cadet Exchange Scheme; inaugurated ten years ago by Civil Air Patrol, Auxiliary of the United States Air Force.

The youths are participating in the Israeli Youth Air Training Program. All have received their glider wings and are being trained in light aircraft to prepare for a tour of duty in the Israeli Air Force.

Their visit to our city was part of their 10-day tour of Connecticut.

Thirteen Retire as of August 1

(Continued from Page 1, Column 3)

MARGHARITA DESIDERIO first came to Scovill in October, 1933, but has a continuous record since October, 1934. She served in Burner II, Assembly Room and, since 1941, has been in Cutting as Machine Operator.

NUNZIO DiLEO started in Scovill in June, 1915, but due to a period out of the plant his continuous service begins in August, 1918. He had served in various departments until 1948 when he went to Closing as a Floorman.

MICHELE GALLUCCI was first hired in August, 1915 but his continuous service record begins in November, 1929. He served in various departments prior to going to the Lacquer Room as Floorman and Acid Trucker.

JOHN GIANNINI came to Scovill in September, 1943, and has a continuous service record since December of that year. Except for a short time in the Loading Room, he always served in Elec. Construction as Helper, 1st Class.

ROBERT MANKA came to Scovill in August, 1920, and has a continuous service record since August, 1921 — almost 36 years. Always in the North Mill, Mr. Manka was serving as Shipping Room Helper at his retirement.

INNOCENZIO MARINARO has accumulated over 47 years of continuous service beginning in June, 1910. He served in the Yard Department and Trucking prior to 1918 when he went to Sanitation. He was serving as Janitor at the time of his retirement.

JOHN LEO PHELAN has accumulated over 32 years of service since July, 1925. He first came to Scovill in August, 1919 to serve in the Steam Dept. but has been serving in the Electrical Dept. as Technical Electrician, Clock and Signal Systems since 1925.

ADAM WAITKUS was hired in Scovill in February, 1918, but due to periods out of the plant his continuous service record begins in January, 1937. He served in various departments and was serving in the Waterville Buff Room as Buffer when retired.

ANNA ZABARA started in Scovill in June, 1919, but her continuous service begins in February, 1936. She served in various departments prior to going to Press I as Power Press Operator.

ALEXI ZWANCH has more than 37 years of continuous service beginning in July, 1920. He was first hired in May, 1917. Always in the Wire Mill, Mr. Zwanch was serving as Shaped Wire Straightener when retired.

Girls' Club News

By Teresa and Juanita

Approximately forty Girls' Club members and their families spent an enjoyable day at the Woodtick picnic grounds, Sunday, July 21, at the annual picnic. Games were played and plenty of food was had.

Louise (Longo) Delage (formerly of Accts. Receivable) gave birth to a son on July 25.

Teresa Ryan (our reporter) is a proud grandmother. Her daughter gave birth to a boy, Thomas Andrew.

We want to wish a happy birthday to Irene Mulligan and Connie Ciampi.

Vacations

When you are reading this, think of me (Juanita) with southern folks sippin' "mint juleps". "Yep, I'll be in that blue grass state—Kentucky."

Ruth Hutt, celebrating her first wedding anniversary, will be in Canada on a second honeymoon.

Ann Brennan returned from a wonderful two-week trip to Canada and Niagara Falls.

Jo Bombaci (Fact. Acct.) spent her two weeks vacation just relaxin' and visitin'.

Nellie LoRusso (Payroll) returned from a week of illness and also spent a few days of her vacation time in New York.

Barbara Gilroy is back from a wonderful week at Chatham, Cape Cod, Mass. Also at the Cape for a week was Margaret Connelly (B&F Prod.). Jo Barbieri spent a long weekend at the Cape also.

Jessie Ciarleglio returned from a week at Point Beach.

Bee Biondi is spending her vacation in Mexico. Boy, what a trip that is!

Anna Augelli (Slide Fastener) and Laura Denton (Payroll) have both returned from their vacations looking very fit and rested. They enjoyed daily trips or just relaxing.

Stella Romanaukas (Slide Fastener) is back from Florida with a beautiful tan.

Marion Thompson visited her folks in upper New York State on her vacation.

Among all this happiness there is a little sadness. Our deepest sympathy and love to Hazel Didsbury (Waterville) on the recent loss of her sister.

N. DiLeo Feted on Retirement

Nunzio DiLeo (center) Closing, was feted at lunch time recently by his co-workers and friends. Leo, who retired on August 1, received a purse and best wishes for a long and happy retirement. A special cake was enjoyed by all.
