Two Receive 40-Year Awards

Top:—President W. M. Goss presents 40-year diamond studded gold service pin and certificate to Vincent (Chick) Toletti as Calvin Teller, Electrical Superintendent, and Thomas W. Colina, Maintenance Director, look on.

Bottom:—Harry F. Hoethke receives the 40-year award from Mr. Goss. Mr. J. G. Wolff, Production Works Manager, Closure Division, and Henry T. Dodd, Foreman of Slide Fastener Tool, were on hand for the ceremonies.

Nineteen Retire On May 1st

Over 50 Years' Service

JOSEPH R. WOLFF—almost 53 years' continuous service.

Mr. Wolff first came to Scovill in September, 1905 as an apprentice toolmaker. He has served as toolmaker and, later, assistant to the department head in the Tool Division. In 1915 he transferred to the Fuse Dept. as assistant to the Dept. Head and, in 1919, moved to Planning on Time Study work. He has also served as foreman in the Sales Dept., in Planning and in Estimating. Since March 1, 1952, he has been Chief Estimator.

ROCCO LOBRAICO—almost 52 years' continuous service.

Mr. Lobraico was hired as a stringer in the Plating Room in June, 1906. A short time later he was transferred to Dip Room as stringer, errand boy and timekeeper. In 1916 he became a purveyor for the Classification Office. In

1921 he returned to the Dip Room as overseer, was made Assistant Foreman in January, 1923 and, since October, 1929 has been foreman of Dip.

Over 40 Years' Service

ROBERT E. JOHNSON—almost 49 years' continuous service.

Mr. Johnson was first hired in the Yard Dept. but was soon transferred to Research on chemistry work. In 1923 he was made an assistant in the Mfg. Supt. Office and also served as assistant in Finishing and Development & Experimental work. In 1934 he was named General Foreman and in 1941 Asst. Factory Supt. in charge of all Finishing Dept. activities. He was named Chief Finishing Process Engineer in March, 1955, and was transferred to the Works Manager's Office, Stampings Div., in that capacity in January, 1956.

JOHN HUBBARD—more than 43 years' continuous service.

Mr. Hubbard's career in Scovill started as an inspector in Dept. F in February, 1915. He has also served as checker of tools and clerk for Tool & Machine; clerk in Mechanical Engineering; purveyor in Production and Class 3. He was named personnel advisor in the Employee Information Office in 1942 and, when retiring, was serving in that capacity in the Employment Dept.

SAMUEL MCCLEARY, 2nd—over 43 years' continuous service.

(Continued on Page 2, Column 1)

Woodtick Area

Prices Cut, Passes Required

The admission fee for Scovill employees and members of their families to the Woodtick Swimming Area this summer will be reduced to the original prices of 15¢ and 25¢.

Passes will be issued soon to employees, in their departments, together with application blanks for Associate Passes for members of their families.

Due to the expected increase in attendance, passes will be checked very closely this year.

First Quarter Operations

The Board of Directors of Scovill at its meeting of April 24, announced the following figures for operations in the first quarter of 1958:

	1958 1st Quarter	1957 1st Quarter
Net Sales	\$28,290,791	\$35,193,214
Net Income (Loss)	(\$183,314)	\$1,441,347
Earnings per Common Share (after preferred dividends)	—	.86¢
Common Shares Outstanding	1,588,054	1,588,054

The above results reflect general business conditions and a continuing decline in our own operations. Total sales for the whole company in the first quarter of this year were about 10% less than in the preceding quarter and about 20% less than in the first quarter of 1957. This low volume, accompanied by intensified price competition from domestic and foreign sources, resulted in a loss of \$183,314 for the quarter.

Faced with this problem of reduced sales income and an operating loss, it is essential that all of us do what we can to reduce costs. I want to emphasize that the company is not curtailing the expanded Capital Improvement Program that will provide the new and improved facilities required to strengthen our competitive position. Almost eleven million dollars was spent on this program in 1957 and it is continuing in 1958. However, it will take time before these new facilities are completed and reflected in our sales and profit results.

I also want to point out the importance of foreign competition as a competitive threat to our business. Large quantities of brass mill products are being brought into this country from abroad and sold at prices considerably below prices for the same products produced in this country.

These foreign competitors are operating on full schedules and can produce quality products on modern equipment at very low wage rates. If our manufacturing divisions were to purchase their brass requirements from these foreign sources, as many competitors are doing, it would have a serious effect on the activity of our Mills Division. Company policy at this time does not permit the purchase of imported brass mill products by our manufacturing divisions.

This is a serious situation, particularly when coupled with the uncertainties that exist as to when improvement can be expected. Although some economists believe that the recession has about run its course, we have seen no evidence of any upturn in our own business.

Although the prospects for the immediate future are not encouraging, it is hoped that our efforts to reduce costs and to provide new facilities will help to improve our overall position.

W. M. Goss
President

New Assignments

General Manufacturing Division

Announced by Mr. G. L. Chase, Factory Superintendent, Gen. Mfg. Div.:

Effective May 1, 1958, JOHN T. MITCHELL has been appointed Foreman of Dept. 46, Mfg. Packing, in addition to his duties as Foreman of Dept. 57, Work in Process Stores, Dept. 58, Mfg. Trucking, and Dept. 59, Mfg. Elevators. He will continue to report to General Foreman Leon H. Mayshaw.

Effective May 1, 1958, JOHN L. ROBINSON has been appointed Chief Estimator of the Estimating Dept. He will report to Chief Tool Engineer Leland W. Krake.

Effective May 1, 1958, JOHN J. MEEHAN has been appointed Foreman of Dept. 28, Dip Room, in addition to his

duties as Foreman of Dept. 26 Plating, and Dept. 30, Aluminum Finish. He will continue to report to General Foreman Leon H. Mayshaw.

Effective May 1, 1958, HAROLD L. MCCARROLL has been transferred to Dept. 28, Dip Room, as Assistant Foreman. He will report to Foreman John J. Meehan.

Effective May 1, 1958, JOHN D. FAIRBAIRN has been appointed Finishing Engineer for the General Manufacturing Division, reporting to Mr. G. L. Chase, Factory Superintendent. He will be responsible for the operation of the Finishing Laboratory as well as the developing and establishing of all finishing procedures.

Vol. XLII May 5, 1958 No. 9

Nineteen Retire On May 1st

(Continued from Page 1, Column 2)

Mr. McCleary has been a Mill man throughout his career in Scovill. He has served as a roller in the North Mill since 1918.

PIETRO COSTA — 42 years' continuous service.

Hired into the Waterbury Division in May, 1916, Mr. Costa served in the Sanitary Dept. as a utility man. In 1919 he became a dipper. He transferred to the Waterville Div. as a dipper in July, 1932 and since March 1, 1942, has been serving as acid dipper.

CHARLES A. PULFORD — over 42 years' continuous service.

Mr. Pulford first came to Scovill as an eyelet machine operator in June, 1908. He worked intermittently, as floorman, overseer, and Assistant Foreman in the Packing Room. He returned from military service in July, 1919 to the Packing Room. In April, 1926, he was named foreman in Burner 3 and, since August, 1929 he has been foreman in Packing A.

JOSEPH F. AYOTTE — almost 41 years' continuous service.

Mr. Ayotte first came to Scovill's Drawing Room as a distributor of work in September, 1907. During his years of service, he has served also as helper on machines in Drawing; tapping lathe operator in T & K; toolsetter in P.M. Dept.; toolsetter in Closing; toolsetter and instructor in Assembly; inspector and process engineer; and, since July, 1956, has been a process engineer in Merchandise Production.

MICHAEL BERNARDO — over 40 years' continuous service.

Mr. Bernardo has served continuously in the Packing Room since coming to Scovill in April, 1918. First hired as a utility hand, he has also served as packer and floorman and, since 1941, has been a packer and shipper in Packing A.

Over 30 Years' Service

A. B. PHILLIPS — over 33 years' continuous service.

Mr. Phillips first came to Scovill in February, 1925 as an estimator in the Planning Dept. During his years here, he has also served in other capacities—as a purveyor in Production, Asst. Classification Head in Button & Fastener; Supervisor in Packing B and in Lacquer; Foreman in the Coin Room; Rate Setter in Planning; Personnel Asst. in the General Manager's Office; and, since December, 1944, has been Prod. Supervisor in B & F Production.

NATHAN PIERPONT — 33½ years' continuous service.

Mr. Pierpont has always served in the Electrical Dept. Hired as an electrician in 1924, he was appointed Asst. Foreman of Construction in April,

1946, and was serving in that capacity when retiring on May 12, 1958.

NEWTON A. BARSTOW — over 32 years' continuous service.

Mr. Barstow first came to Scovill in December, 1917. He served in several departments in various capacities—as a helper in Electrical; bench worker in Assembly #2 and Packing A; lab worker in Finishing; storeman in General Stores; packer in Packing A; tracer in Mechanical Engineering; toolcrib man in Automatic Screw and Chucking Tool. He has been serving in Screw Machine Tool as an oiler, beltman and toolcrib attendant since March, 1955.

Over 20 Years' Service

GIUSEPPE DELLA PIETRA — 22.4 years' continuous service.

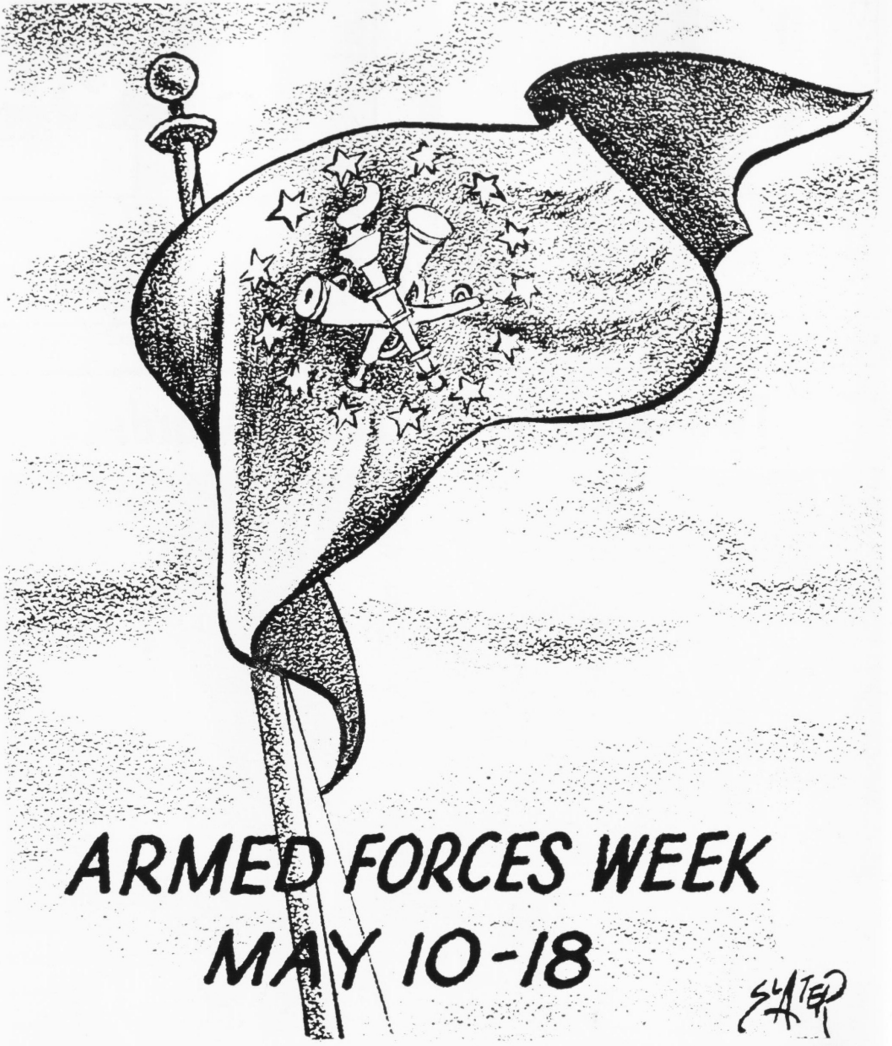

Mr. Della Pietra began his Scovill career in the Waterbury Division as a Screw Dept. trucker. He had also served as a floorman. He transferred to Waterville's Cleaning Dept. in 1942 and was serving there as a hand trucker when retiring.

PETER GYBA — 22½ years' continuous service.

Mr. Gyba, since coming to Scovill in October, 1935, has served continuously as a toolsetter in Assembly.

WILLIAM S. LAIRD — 21.9 years' continuous service.

Mr. Laird first came to Scovill in April, 1917, but had several periods out of the plant. While he has served in the Drafting Room and as a vaultman, inspector and eyelet machine operator, most of his career has been as a

machinist — in West Machine, Eyelet, Button Eyelet and in Mfg. Eyelet where he was serving when retiring.

Over 10 Years' Service

TIMOTHY LAWLOR — 18½ years' continuous service.

Mr. Lawlor came to Scovill as a millwright in April, 1923 and, with brief periods out of the plant, served in the Millwright Dept. until September, 1939 when he transferred to Plant Protection. Here he has served as a watchman and elevator operator, acting sergeant and, when retiring, was serving as a guard.

GRACE SCOTT — over 15 years' continuous service.

Mrs. Scott, throughout her years of Scovill service, has been a blueprint machine operator. She has served in that capacity in Tool Design, Drafting and Engineering. She was forced to leave her work in September, 1957 because of illness.

GEORGE A. ARMOUR — 15.1 years' continuous service.

Mr. Armour was hired in March, 1943 and throughout his years of service in Scovill, has served continuously as a painter in the Paint Shop.

NICHOLAS DENICOLA — 14 years' continuous service.

Mr. DeNicola's service has been varied since first coming into the plant in May, 1944. He has served as repairman in Box Shop; floorman in Fuse Assembly, Press 1, Assembly, and Packing B; sealer, fuse containers in Fuse Assembly and, since January, 1952, has been in the Dip Room as a washer of metal tote pans, containers and work boxes.

STEPHANO BIANCHI — 8.8 years' continuous service.

Mr. Bianchi has been connected with the Sanitation Dept. throughout his years of service. Hired as a scarifying machine operator, he served in this capacity until September, 1957 when he became a maintenance man.

Aisles Are For Traffic — Keep Them Open

Damage to pipes, doors, containers, vehicles, walls, columns, etc. caused by aisle blocking costs thousands of dollars a year—and it is all preventable.

Above are two examples of main aisles plugged by objects which should not have been left where they are.

Left:—How an intersection can be made hazardous.

In the photo at the right, Joseph Daddona (Truckers) poses with a barrel truck at one of these tight spots to show how aisle congestion causes delay and property damage. Arrow points to the fire door guide which had been broken sometime before the picture was taken.

Insert shows closeup of broken guide.

Your Social Security

Do you know—

What your social security account is worth to you right now?

Do you know that a widow with two children under 18 would receive \$200 a month for herself and her children if her husband had averaged \$72 or more a week in earnings covered by social security?

The booklet, "How Earnings Affect Social Security Benefit Payments" is available in the Bulletin Office. This particular booklet does not include information regarding disability insurance benefits.

Girls' Club News

By Vera Scott

Well, folks, with the coming of a new term, my stint at reporting is over. I have enjoyed reporting all our activities and do hope you will give the new reporter all the news and cooperation to keep our club in the limelight.

The annual meeting was held at the Clubhouse on April 21st, with the following officers elected:—President—*Cloe Read* (her third term); Vice President—*Teresa Ryan*; Treasurer—*Marion Thompson* (her second term); Secretary—*Laura Denton*.

Our Chairman of Entertainment is *Evelyn Smoil*; other committee chairmen will be announced as appointed.

Council members elected by membership are:—*Marion Bosso*, Planning; *Elizabeth Colbassani*, Lipstick; *Violet Dander*, Cutting Room; *Barbara Gedraitis*, Press 1; *Marie Martineau*, Connector; *Antoinette Nigro*, Gripper Eyelet; *Ann Romano*, Slide Fastener; *Adele Sharka*, Slide Fastener; *Evelyn Smoil*, Closing; *Elizabeth Windischman*, Employee Activities. Waterville representatives are: *Lillian Gaudino* and *Della Riccio*.

Annual Banquet—Just a reminder that the annual banquet will be held this Saturday, May 10, at Waverly Inn at 5 p.m. If you haven't already picked up your tickets (\$1.75 per member, \$3.50 non-members) better contact a Council member pretty quick. See you there.

Notes on Our Members

Our sincere sympathy to *Mary Ann Racki* (Payroll) on the death of her mother, and to *Martha O'Brien* (Payroll) on the loss of her father-in-law.

Congratulations to *Margaret Fenske*, newly elected president of the Quota Club of Waterbury. Had to ask *Margaret* what the Club was. It is a service club made up of executive and professional women — one from each business or professional activity in the city. It is one of 334 such clubs in the U.S., Alaska, Canada, Australia, South America and Mexico, which make up the Quota International, organized to advance the interests of women and to serve country and community.

Their motto is "We Share" and they constantly promote projects to aid the handicapped. From what *Margaret* has told me the local group has certainly done much in this line for the handicapped in Waterbury and we're real proud that one of our members has been selected to head such a fine organization.

Shore Fishing Banned

The SERA Fishing Committee has been deeply concerned with the problem of controlled shore fishing at Woodtick.

Scores of unauthorized anglers (some coming from as far away as beyond Hartford) trespass on Scovill property and take fish for which the Scovill group has paid good money.

In order to eliminate this poacher problem, the Fishing Committee has:

1. Banned all shore fishing from Nichols Road, Wolf Hill Road, Munson Road, Woodtick Road — leaving for our own fishermen who prefer shore fishing the entire shore line adjoining the caretaker's house.

2. Will ask the Wolcott Police to enforce this ban so that anyone found fishing the shorelines of these roads will be ordered to leave.

NOTE:—YOUR SCOVILL FISHING PERMIT WILL ALLOW SHORE FISHING ONLY FROM SHORE LINE ADJOINING CARETAKER'S HOUSE.

The SERA Fishing Committee depends on your full cooperation to comply with these regulations.

Tribute Paid To Seven At Plant-Wide Party

April 25, 1958

An Open Letter to our Fellow Workers:

Due to the great number of our fellow workers involved, we the undersigned members of the "319 Club" wish to take this means to express to each and every one our deep appreciation and heartfelt thanks for your very kind wishes and wonderful party at Doolittle Hall on April 24, 1958.

This event will linger long in our memories and will constantly remind us of our happy association with you all.

It is with mixed feelings of joy and sorrow that we terminate our active employment with the Scovill company. With joy, in anticipation of doing things we have long wanted to do and going places we have wanted to see, and sorrow in the knowledge that we are leaving the daily contact of as fine a group of people as one could wish for.

The fact that as a group we have contributed 319 years of service to the Scovill company, we hope, means that the Company was pleased with our efforts and that we were pleased with the Scovill Company.

And, when your turn to part comes—may you also receive the same benediction given to us—"Well Done".

<i>Joseph F. Ayotte</i>	<i>John Hubbard</i>
<i>Robert E. Johnson</i>	<i>Rocco Lobraico</i>
<i>A. B. Phillips</i>	<i>Charles A. Pulford</i>
	<i>Joseph R. Wolff</i>

Almost 300 co-workers and friends were on hand, April 24, to extend warm wishes for a happy retirement to seven men who are well-known throughout the plant.

The guests of honor (top photo) included:—Robert Johnson (Chief Finishing Engineer), Charles A. Pulford (Foreman, Packing A), John Hubbard (Personnel Advisor), Joseph R. Wolff (Chief Estimator), Rocco Lobraico (Foreman, Dip Room), A. B. Phillips (B & F Production Supervisor), and Joseph F. Ayotte (Process Engineer).

The continuous service records of these men total over 319 years — or an average of more than 45 years each.

Vice President H. W. Wild served as toastmaster. He presented gifts to each honored guest and, as he stated, "it is impossible for one guy to do justice to all seven and their services" he introduced "sponsors" for each of the retiring men.

These sponsors included: Vice President W. H. Machin; General Foreman (Mfg. Div.) L. H. Mayshaw; Employee Relations Manager J. M. Burrall; Cosmetic Cont. Div. General Manager C. A. Burnett; Gen. Mfg. Div. Factory Superintendent G. L. Chase; Closure Div. Works Manager J. G. Wolff; and Forging & Screw Mach. Div. Works Manager Norman Schaffer.

Salt Tablet Time Near

By Walter J. Racicot

Yep! Hot weather with humid summer days and nights means sweating while at work and your body salt balance will be affected.

Medical Science suggests taking salt tablets before starting work in hot places. They say this will be more beneficial than if taking them during or after such work, to resist the effects the extra load places on the heart by extra exertion.

Drink plenty of water with each tablet.

Caution:—People under doctor's care for heart or kidney diseases or who are on a salt free diet should take salt tablets only upon advice of their physician.

Fishing Notes

Never have we had such enthusiasm and great crowds of fishermen on opening day as this year!

Cars began to cue up at Woodtick Lake as early as one o'clock in the morning. When the season was opened officially at 5 a.m., by caretaker *Les Hart*, every boat was taken. Dozens of fishermen hugged the banks and, of necessity, fished from shore. All day Saturday and Sunday this frenzied activity continued with the weather cooperating beautifully.

How did the boys do? Well, there were some mighty fine catches measured in.

Top man in trout was *Henry Harbert* (Strip Mill) with a beautiful 20-incher, while *Joe Olson* (Tin Shop) surprised even himself with a 20½" pickerel.

Woodtick Lake, because of its accessibility and the continuous stocking program has become the favorite fishing spot of many Scovill anglers. If you haven't been out to the Lake recently, come on and try your luck. You won't be disappointed.

NOTE:—Rod & Gun Club meeting will be held on Tuesday, May 20, at 6:30 p.m. at the Girls' Club. Special refreshments will be served. Make your reservations with Ray Ladden now.

By the time you read these notes, the president of Rod & Gun, popular *John Hubbard* will have joined the swelling ranks of the retired.

It seems strange to think of *John* as "retired" but then he carries his age like many other things — quite well. We wish *John* Godspeed and a very happy "away from it all".

His active and ingenious mind no doubt has already cooked up any number of activity schemes with which to occupy his time. Many of us remember his famous "square golf ball" creation that rocked the sporting world some years ago. "The ball that won't roll" brought *John* temporary fame. No doubt he will be working on that development.

One other idea, we understand, is an illuminated float for night fishing, especially for use in the Arctic where the nights are long and dark. *John* expects to market this float as the "Let Your Light Shine" float, but he is not ready as yet to take orders.

All kidding aside, we wish him the very best of happiness and contentment. See you in the competitions, *John*, and—keep an eye on *Jimmy Littlejohn*.

Also our congratulations to Mr. and Mrs. *Russell Hickman* on their golden wedding anniversary. *Russ*, who retired in 1947, is well known throughout Scovill for his activities in promoting employee recreation and as one of the founders of the Scovill Sunshine Fund.

Girls' Club Elects New Officers

Officers chosen by the newly-elected Council for the coming year include (left to right):—Secretary Laura Denton, President Cloe Read (serving her third term), Treasurer Marion Thompson (re-elected for a second term), and Vice President Teresa Ryan. The officers and council members will be introduced at the Girls' Annual Banquet at Waverly Inn on Saturday.

Five Succumb

ERMETE CASTONI, retired, died on April 17, 1958.

Mr. Castoni was first hired in October, 1916 and worked intermittently until starting his continuous record in February, 1920. During his years here he had served in the Trucking, Rivet and Coin departments. When retired in October, 1949, he was serving as a trucker and elevator operator.

JOSE B. TINTONE, Lipstick Dept., died on April 17, 1958.

Mr. Tintone first came to Scovill in February, 1925 as a car unloader in the Casting Shop. After several periods away from the plant, Mr. Tintone's continuous service record started in December, 1949. He had served in North Mill Finishing as a production helper; in Packing B as a floorman; and from October 1951 until ill health forced him to leave in October, 1957, he worked as a floorman in Lipstick.

JAMES J. SULLIVAN, retired, died on April 21, 1958.

Mr. Sullivan joined the Company in February, 1890, in the Dip Room. He worked there for thirty-three years and then went to the Drawing Room as a vaultman and toolkeeper. He served as a die stoner in the Blank & Draw Tool Room from September, 1924 until retiring in April, 1949.

Service Awards

Ten-Year Awards

Apr. 26—*Anna Y. Dammann*, Baltimore (Closure); *Carmine A. Garofalo*, Screw Machine Production; *Henry A. Lamy*, Casting; Apr. 29—*Ralph E. Swift, Jr.* New York (Closure).

May 2—*King D. Holmes*, North Mill Rolls; May 3—*Edward Ashwell*, Slide Fastener Sales; *Anthony Brooks*, Steam Dept.; *John H. Powell*, General Mfg. Tool; *Norman H. Schlink*, Executives; *Michael S. Buono*, Waterville Div.; May 4—*Fiorre Santora*, Waterville.

HELEN A. THOMPSON, Metals Research Dept., died on April 23, 1958.

Miss Thompson, known as "Nellie" to all her friends in the plant, had been employed by Scovill in June, 1915 in the Fuse 23 Dept. With several periods out of the plant, her continuous service record started in March 1922. She had worked in Metals Research from April, 1918 until illness forced her to leave in November, 1957. She last served as a sample weigher.

ELLA M. PATCHEN, retired, died on April 28, 1958.

Miss Patchen was hired as a stenographer in 1901. She soon moved into the executive offices and had served as secretary to three Scovill presidents when she retired in March, 1950 with almost 50 years of continuous service.

Scovill Golf Leagues

Tues. Inter-Dept. League

Co-chairmen John McGovern and Jack Danaher announce that there are sixteen two-man teams entered in the league for the 1958 season.

Games will be played on Tuesdays at the East Mountain Golf Course. The schedule was started on April 29 and will continue as a round robin type of play-off until one complete round has been played.

Hackers & Moaners

Ten two-man teams are entered in the Hackers & Moaners Golf League. The first match was scheduled for May 1st and will continue as a round robin type of play-off until two complete rounds have been played. All matches will be played at the East Mountain Golf Course.

Thurs. Inter-Dept. League

Chairman Bert Dillon announces that there are fourteen two-man teams in this year's league. The first match was scheduled for May 1st, with games continuing as a round robin type of play-off until one complete round has been played off. Matches are played at East Mountain.

Brown porcelain-top maple table with four chairs, \$25; aluminum coil spring for single bed, \$5. Call 5-5303.

1950 Packard sedan, tires in good condition. Call 3-6236.

Kidney-shaped vanity table and bench, never used, \$6; G.E. vacuum cleaner, apartment size, \$12; electric hair clippers, \$7.25; tenor banjo, \$11. Call 3-3670.

White New England Maid gas and oil stove, chrome pipe, \$25. Call 5-8790.

Royal Portable Deluxe typewriter, seldom used, in excellent condition. Call 5-1630 after 6 p.m.

Bath tub, lavatory and toilet bowl, \$10. Call 4-2515.

1954 Sky Chief Pontiac convertible, white walls, radio, heater, power brakes. Call 3-9101 after 5 p.m.

Kenmore wringer-type washer, in very good condition, \$20. Call 5-7103 before 10:30 a.m. or after 6:30 p.m.

Scovill Drivers Can Check Driver Reaction

Many a driver believes he can stop his car "on a dime" if an emergency should arise. Drivers in our Traffic Dept. will have the opportunity to learn this is not so — and, if interested, can learn what their own abilities are to stop safely in an emergency.

During the week of May 12, a Reaction Meter (loaned by the American Automobile Association) will be set up in the garage for Scovill drivers to test their own skill — if interested. The program is entirely voluntary but is set up to emphasize the importance of following at safe distances to avoid rear end collisions and driving at safe speeds to allow adequate stopping distances for all situations.

Road conditions, the condition of the vehicle and the driver's reaction time are factors that determine a driver's ability to stop safely in an emergency situation.

Reaction distance is the distance that a car travels between the time the driver sees danger and starts to apply the brakes.

For the average driver, this reaction time is about three-quarters of a second — time enough for a car driven at 30 miles per hour to travel 66 feet or more than 3 car lengths!

Retired Folks' Club

The Scovill Retired Folks' Club will meet on Wednesday, May 14, at Doolittle Hall at 1:30 p.m.

Guest speaker will be Mr. Philip Scholten who will show slides of Holland and compare conditions in Holland and the United States.

Mr. Scholten, a native of Holland, has travelled extensively throughout Europe. He is currently undersecretary at the local Y.M.C.A.

Classified Ads

Two spring coats, one winter coat, six silk dresses, all are used but in good condition —also, new, never worn:—two summer dresses, one silk black dress—all size 44-46 large. Call 3-7472.

Three-family brick house, with extra lot; all apartments newly renovated, hot water, heat—oil furnace; near schools, churches and bus lines. Yearly income \$2080. Call 3-8634.

Glenwood Deluxe white combination stove, gas and oil, two ovens, chrome pipe. Universal Marine inboard engine, 25 h.p., excellent condition. Call 3-7472.

35mm projector, 300 watt, with custom made case. Call Ext. 779.

Kitchen table (formica top) with four chairs, chrome legs, plastic seat covers. Call Park 9-4545.

Rubber rug cushion, enough for two large rooms. Also, pair of boy's Chicago roller skates, complete with case, size 8½. Call 3-5907.

24" power mower, reel type with four-cylinder engine, \$20. Call Ext. 588.

Baby's crib, rocker, cricket chair, picture-window bookcase; all in excellent condition. Call 5-3803.

Thayer collapsible baby carriage; bath-inette; both in very good condition, \$25. Call 4-2315 before 11:30 a.m.
