New Milford Tube Mill Officially Opens

ARRIVING. Mayor R. E. Snyder, Waterbury, is among early arrivals for May 7th opening ceremonies.

ON TOUR. Plant Manager Patrick Moran serves as guide for President S. T. Williams and Lt. Gov. John Dempsey.

GETTING READY TO PUSH STARTING BUTTON. Mills Div. Vice President C. P. Goss introduces Exec. Vice Pres. M. L. Sperry, New Milford 1st Selectman E. P. Martin, Mayor Snyder (behind Mills Div. Works Manager J. J. Hoben), Lt. Gov. Dempsey and President Williams.

GIFT FOR GOVERNOR. President Williams presents a brass framed painting of the new mill to Lt. Gov. Dempsey for presentation to Governor Ribicoff. Looking on are Mr. Moran and Kenneth T. Howell who was in charge of arrangements for this special occasion.

HUNDREDS OF INTERESTED SPECTATORS. New Milford residents also came to see our new Tube Mill.

MEMO *from Management:*

A Matter of Pride

The Grand Opening of the New Milford Tube Mill was a great day for Scovill. From the first billet's red glow (right on cue) to the boxing of the finished products, the touring guests saw how tube is made with the most modern equipment. They watched the long drawbenches pulling tube to great lengths. They felt the heat of the annealing ovens. They looked up as the big cranes rumbled overhead, a railroad under the roof.

In the stream of visitors, which flowed nearly a mile in an hour and a half, the knowing could see something else beyond the powerful machines: the men of Scovill at work. Men who knew what they were doing — and did it well. People with pride in their skill and their product.

You could see it in the deft handling of a crane operator spotting his sling-load. In the exactitude of a metallurgist in the lab. In the smooth fingering of controls on many machines which made the precise dimensioning of metal look easy. In the smile of a pert nurse, the intent look of an inspector peering through condenser tube that might end up in an atomic submarine.

Scovill is justly proud of its new Tube Mill, with all its mechanical and electronic marvels. But Scovill is prouder still of its people — throughout the company; of their pride in their work which creates the real quality of all Scovill products.

Without this sense of pride and responsibility, even the most modern equipment is just so much dead iron on cold concrete. For all of us inside Scovill, New Milford is just the biggest and newest show window for an old and great tradition.

Credit Unions

Shutdown Schedule

CREDIT UNION #1—will be closed for two weeks starting Friday, July 10 and will reopen on Monday, July 27. Applications for loans must be in by July 7th. Withdrawals can be made no later than Friday noon, July 10th.

CREDIT UNION #2—schedule will be posted on boxes in areas concerned.

CREDIT UNION #3—will be closed for two weeks starting Friday, July 10, and will reopen on Monday, July 27. Applications for loans must be in by July 7th. Withdrawals can be made up to Friday noon, July 10th.

CREDIT UNION #4—will be closed for one week. No business will be conducted from Monday, July 13, through Friday, July 17.

CREDIT UNION #5, WATERTOWN DIV. — will be closed for two weeks starting Friday, July 10, and will reopen on Monday, July 27. Applications for loans must be in by July 7th. Withdrawals can be made no later than Friday noon, July 10th.

Scovill Buttons For Texas Navy

April 21 is a day of celebration in Texas. Known as San Jacinto Day, ceremonies are conducted on the deck of the Battleship Texas, berthed at the San Jacinto Battleground.

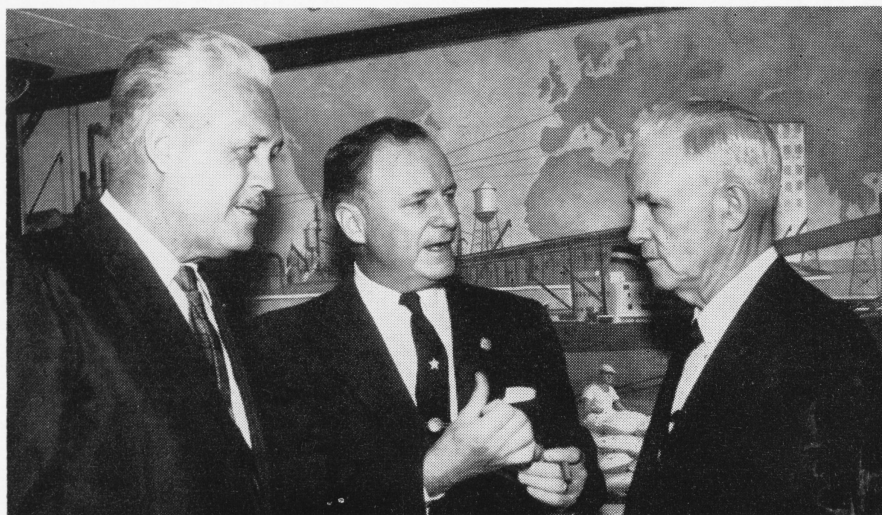

At this year's celebration, souvenir gold Texas Navy lapel buttons were presented to all who attended the ceremonies on the deck of the flagship as well as each admiral or captain on the motor flotilla which included 300 or more small craft that passed in review with the governor seated in the reviewing stand on the USS Texas' stern.

The buttons are replicas of those worn by officers in the original Republic of Texas Navy and were made by Scovill from the original dies used for Texas Navy uniform buttons in 1836 and preserved by Scovill since then.

Gov. Daniel reactivated the Texas Navy as a patriotic organization and an arm of the civil defense of the State on San Jacinto Day, April 21, 1958.

Representing Scovill at the special event were Mr. E. G. Overton, District Sales Manager for the Closure Div. in Dallas, Texas; and Mr. L. Keith Baldwin, president of the Baldwin Co. and sales agent for our Mills Division in Houston, Texas.

SUGGESTIONS EARN CASH AWARDS. \$100.00 was awarded to Fred Teach, Jr., (left photo) of the Wire Mill Finishing Division. A \$25.00 award went to John Piscitelli of the Mold Casting Div. of the Casting Shop.

\$15.00 Awards

Arcas Aybar, Slide Fast.

Vincent C. Balchunas, Cont. Strip Mill, was granted two awards of \$15.00 each for two suggestions submitted.

Harold Barnum, Cont. Strip Mill

William Knightly, Pipe Shop

Letters of Appreciation

Harold Barnum, John Briotti, Raymond Ruby and Gary Sodaro of the Continuous Strip Mill; Alexander Adomaitis of the Wire Mill, John Civinskis of the Rod Mill; Edward Crelan, Clifford Adams and Anthony Mastrofrancesco of the Casting Shop; Arcas Aybar of Slide Fastener; Robert Szantys of Cutting.

FORTY YEARS OF CONTINUOUS SERVICE. Joseph M. Galvin (upper photo) receives his certificate of recognition and diamond studded gold pin from Waterville Division's General Manager G. A. Goss. Also attending the ceremony were Plant Manager L. G. Robinson and Tool Room Foreman W. J. Gleason.

THREE COMPLETE 25 YEARS OF SERVICE. President S. T. Williams (lower photo) congratulates Mrs Dorothy Kinkel, Mrs. Margaret Massicotte and Peter Tartaglia on their completion of a quarter-century of continuous service.

Salt Tablet Time

By *Walter J. Racicot*

Yep! Hot weather with humid summer days and nights means sweating while at work and your body salt balance will be affected.

Medical Science suggests taking salt tablets *before* starting work in hot places. They say this will be more beneficial than if taking them during or after such work, to resist the effects the extra load places on the heart by extra exertion.

Drink plenty of water with each tablet.

Caution:—People under doctor's care for heart or kidney diseases, or who are on a salt-free diet, should take salt tablets only upon advice of their physician.

It is also advisable to increase your intake of fruit or tomato juices, too—because you lose your Vitamin "C" when you sweat.

Free Advice From Those Who've Had It

By *Robert W. Butler, M.D.*

And probably had it all wrong! If you have ever been feeling below par, you have discovered that the fellows who sit across from you at the poker table, who ride with you on the bus, who meet you on the steps after church, or sit next to you at the fight or the ball game have had the very same thing and know just what to do for it—or—if they haven't had it, they know someone else who has.

The fact that they all suggest something different shouldn't bother you—it only broadens the field and gives you more chances to make mistakes.

Now, after you've tried all these suggestions and you're no better, or if you are one of those people who never discuss their illnesses with any of the self-appointed experts, you have another glorious opportunity in the

stuff you hear about on the television or on radio!

In any one day's programs you will hear about something to make you fat, to make you lean, to make you clever, to make you clean, to pep you up, to slow you down, to take away that worried frown. No aches too large, no ache too small; they have the stuff that cures them all!

If you listen at all, you'll hear the answer to your problem whatever it may be, and the word of the announcer that you should "go now to the nearest drugstore and purchase the handy-sized package of 10 tablets for 25 cents." So, in short order, you are ready to "jump up with Jumpits", to "get regular with Ralugers", or to "get rid of that Morning-after Feeling with N.G.'s".

Who pays for all this fancy advertising? You do—with each "handy-sized package for only 25 cents"!

The ingredients of these wonder doers are no longer secret—look at the labels! If they have any merit, your doctor knows all about it.

Did you ever notice lawsuit-saving punch lines of these airborne peddlers when they say that "Sootho" is good for "coughs resulting from colds", that "N.G.'s" will cure the headache which is "not of organic origin" or that "Relievo" will immediately "counteract the effects of Acid Indigestion"? You're not particularly likely to hear them because they normally appear at the end of the announcer's script, and come out as a honeyed half-whisper. They can, however, always prove that they said it.

But who is to make the diagnosis? Who is to decide that acid indigestion is not an ulcer—possible malignant—that the headache is not due to organic disease—that the backache needs only a drugstore backflush?

The net result is much suffering at great expense. No one can more than estimate the number of deaths which occur every year because of temporary relief produced by self medication in conditions which should have had early and expert medical attention.

There's an old saying that "the doctor who treats himself has a fool for a patient", and if you don't happen to be a doctor, how foolish can you get?

See your doctor first—and, remember that the prescription he wrote for your great aunt Harriet is not safe for you, even though you think you have the same pains and aches!

Fire Doors Prevent Fire Spread

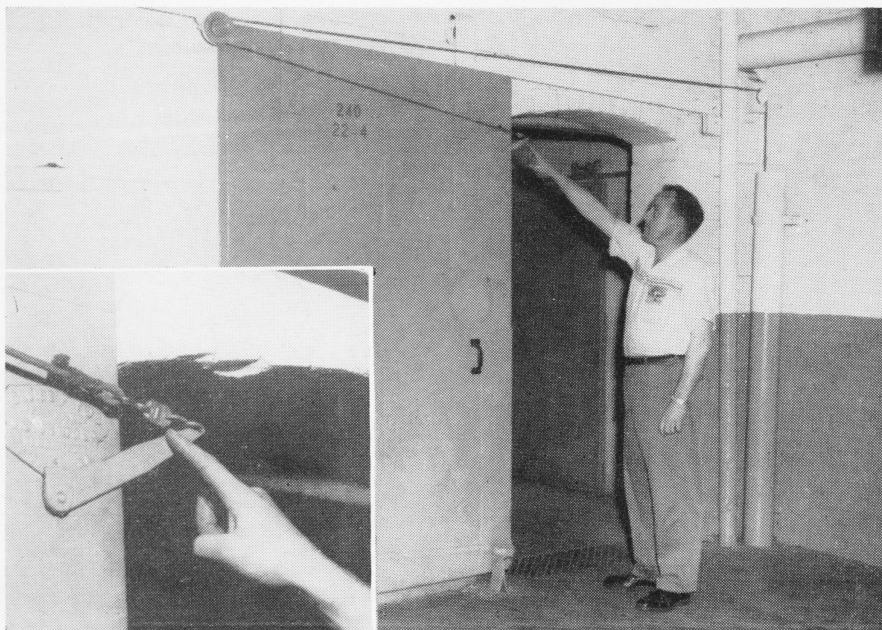

There are about 400 fire doors protecting the plant and our jobs. In the event of fire, use of these automatic fire doors will prevent its spreading to other areas.

The metal-clad door shown in the photo slides back and forth on tracks. If a fire occurs, a fusible link, made of soft lead, will melt causing a metal weight (fastened to the door with a cable) to drop and automatically close

the door. Note how the fusible link is attached to the top of the door where heat would collect first.

Some doors are made to close by gravity after the link melts.

Blocking these doors with wood boxes, work in process, wooden wedges, or metal hooks makes these doors inoperable. Help keep the fire doors in your area in operating condition and ready to operate in event of emergency.

AUTOMATIC PROTECTION AGAINST FIRE SPREAD. *Clif Aspinall, Supervisor of Fire Inspection, points to the vital link (see insert) in a fire door. In case of fire, the link will melt, let a weight drop and automatically close the door.*

GREEN SPOT Line For 1959

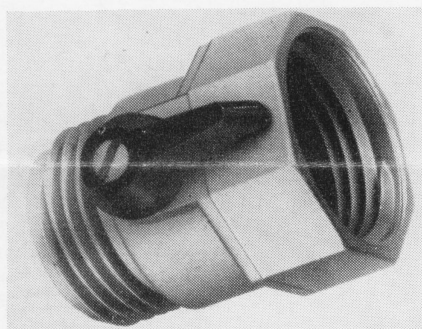

The Merchandise Division announces that several new items have been added to our *GREEN SPOT* line this spring. Among the new and redesigned products is an unusual rotating sprinkler that waters a square area (right).

Called the H-735 *GREEN SPOT* Square Sprinkler, this item was designed and perfected by Henry Kacher-gis of our Products Development Dept. So unique is its design that a patent on it has been applied for.

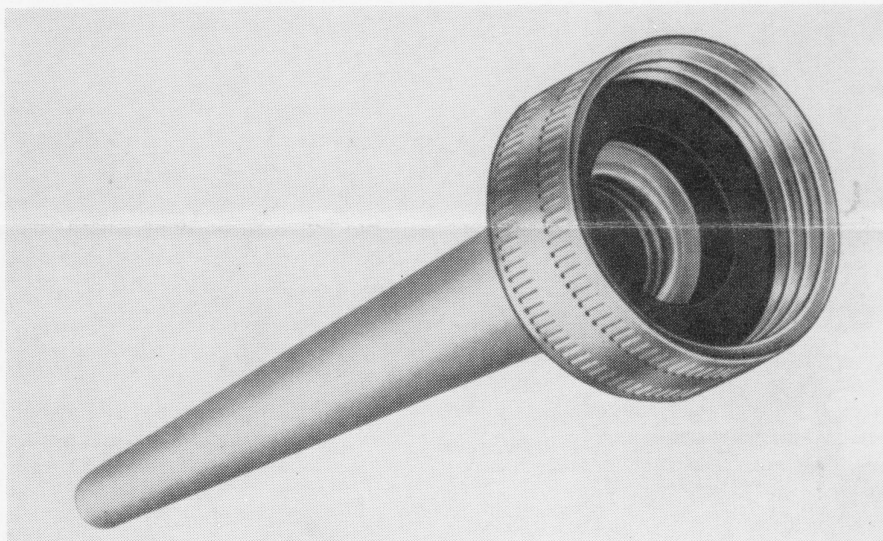

The square Sprinkler will water areas from 2' x 2' up to 35' to 35', depending upon the amount the faucet is opened. Made with anodized aluminum fins and a brass spread head, it will be sold in hardware, garden supply and department stores for \$2.95. It has been featured in a number of trade shows in the past several months and our *GREEN SPOT* salesmen report that it is getting tremendous acceptance.

GREEN SPOT'S NEW ROTATING SPRINKLER THAT WATERS A SQUARE.

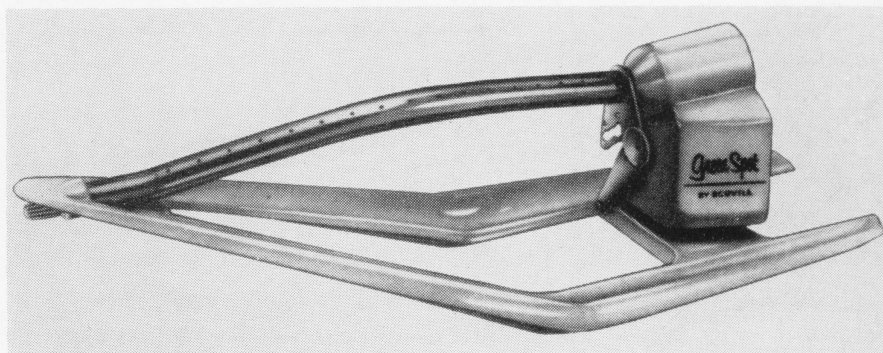

SHUT-OFF VALVE. *This new item is used at the faucet, between lengths of hose, or with hand sprays that don't have flow controls of their own.*

FLUSHING NOZZLE. *The second new item added to the line this spring, this nozzle is non-adjustable and produces a hard, straight stream. It can be used for washing off sidewalks, patios, muddy car wheels, etc.*

THE PISTOL-GRIP NOZZLE. *This popular item in the line has also been redesigned this year, making it more compact and better looking.*

PUSH BUTTON CONTROL DEVICE. *This new device has been added to the handsome H-788 Oscillating Sprinkler that was introduced last year and makes it easier to adjust the size of the area the sprinkler is to water.*

Retirements

Retiring as of June 1, 1959

BERNARD DOUGHERTY, machinist in West Machine—43.8 years of continuous service.

MICHAEL C. ERRICO, machinist—working supervisor in Button & Fastener Tool Room—14 years, 4 months.

MARY FRONCZAK, power press, foot press, miscellaneous machine operator, bench worker, Dept. 12—22.8 years.

MORTIMER HILL, tool grinder in Milling & Grinding—18.9 years.

EDWARD MATIN, brick layer and mason in the Yard Dept.—16.1 years.

TIMOTHY MCKENNA, pickler and dipper, Wire Mill—32.3 years.

CARMINE MENDILLO, jitney operator, Rod Mill—15.3 years.

FRANK PORTO, japanner's helper, Japan Room—37.3 years.

JENNIE S. ROY, bench inspector, Packing B—24.6 years.

JOSEPH TAUTKAS, automatic knurling machine operator, Closing Room—34.4 years.

Retired Folks' Club

A picnic at the Woodtick Picnic Grounds is scheduled for the June 9th meeting of our Retired Folks' Club. The group will meet at the Girls' Club at 1:00 p.m. In case of inclement weather, the meeting will be held at the Club.

All who will be driving and can take passengers are asked to stop by at the Clubhouse to take some others out. Transportation will be provided for those not driving.

Fishing Notes

The Rod and Gun Club, at its well attended May meeting, decided on the following summer activities:—

1. The annual Rod & Gun Club Fishing Competition will be held at Woodtick Lake on Saturday, June 27. Entry blanks and final information will be mailed to the entire membership.

2. The annual Rod & Gun Club outing will be held at Woodtick on Saturday, August 29. Watch the *BULLETIN* for further details.

3. The Club recommended that the 1959 Reeves Competitions be held on the following Saturdays:—Sept. 12, 26; October 10, 24. This too will be posted in the *BULLETIN* in due time.

Several applications for membership were received and approved.

The Club accepted, with regret, the resignation of Secretary *Bob Anderson* who has left the employ of Scovill. *Bob*, over the years, has been a mainstay of the organization, has effectively helped its growth and will be sadly missed. The Club extends to him every success in his ambitious new venture.

President *Jim Coffey* appointed *Mike Cicchetti*, of Hot Forge, to the post of Secretary to fill out *Bob's* unexpired term. Best of luck, *Mike!*

Excellent refreshments served by the SERA staff, were enjoyed by all.

It was voted to omit the monthly meetings of June, July and August, and reopen in September.

Two new fibre glass boats have arrived at Woodtick. As soon as *Les Hart* has changed the oar locks to a more effective position, they will be added to the Scovill fleet.

The rush at Woodtick Lake has slowed down some now. Some very fine fish have been caught and measured in. Plenty more are left, however, so come and try your luck!

Minneapolis Office Moves

As of May 18, the Minneapolis office of our Closure Division is located in new quarters at 3954 Woodale Ave., Minneapolis 16, Minnesota, according to Vice-President P. E. Fenton.

SERA Rifle Team

The SERA Rifle team started the season off in high style by winning their first match on May 20 at Wepe-waug. Nine members were on hand for this opening night of the Moon-light League.

Scheduled matches for June:—
Tues., June 2—Silver City
Tues., June 16—American Brass
Mon., June 29—Middletown

Needless to say interest is high over the match with the American Brass team. Interested Scovillites may still join the team by contacting Allan Steele, Ext. 2340. Equipment is available for team members to use.

Your Social Security

Did you know—

That the Scovill company pays the same amount of social security tax on your earnings as you do?

In 1959, both you and Scovill will pay 2½ percent on your salary up to the first \$4,800. This is more than either of you paid in 1958, but you can expect more when benefits come due.

The higher tax and benefit base reflects the general increase in earnings level in the past few years and the principle of keeping benefits related to earnings. It will result in greater over-all old-age, death, and disability protection for most people under social security.

PACKING B FETES PETER GIESEN. Foreman Anthony Laudate presents a gift to Peter Giesen on behalf of his

co-workers in Packing B together with the group's warm wishes for many happy years of retirement.

Girls' Club News

By Laura Denton

Our annual banquet was a huge success. We were honored with the presence of Mr. and Mrs. S. T. Williams. Mr. Williams' modesty to the contrary, we are sure he let a really "big one" get away in order to join us at this happy occasion and it was greatly appreciated by all the girls.

Other honored guests in attendance were: Mr. and Mrs. George Goss, Mr. and Mrs. J. Milton Burrall, Mr. and Mrs. George Chase, Mrs. Betty Affeldt, Mr. and Mrs. John Carey, Father Hanley of St. Bridget's Church, Cheshire, and Rev. Dodds, Pastor of the Second Congregational Church.

A total of 308 people were in attendance at the dinner.

In listing the names of the newly elected Council members in the last issue of the *BULLETIN*, we gave the names of members representing Waterbury Division only. Our two Waterville representatives were not given and we apologize to these gals as they are two of the hardest working members the club has had the good fortune of having for some time. They are *Della Riccio* of the Plumbers Brass Div. and *Lillian Gaudino*, Waterville.

President *Marion Thompson* has announced her committee chairmen as follows: *Clo Read*, entertainment; *Violet Dander* (Ext. 728) and *Della Riccio* (Ext. 2346) sick committee. As the card party was held on the night of the meeting, the other committees were not set up. They will be announced later as will be your reporter for the coming year. It's been fun doing this column and I do want to thank all of you gals who kept me informed of newsworthy items.

Woodtick Opens

Saturday, May 30, marked the official opening of Woodtick Recreation Area for its 14th season. Employees of Waterbury, Waterville and Oakville divisions again will enjoy the finest of recreation facilities available in the area at a nominal cost.

At the Swimming Area, the pond has been drained, thoroughly cleaned and raked; new sand has been added to the beach. Life guards are on hand to keep a watchful eye on bathers.

The Group Outing Area has been improved upon also and has taken on a "new look". New tables, fireplaces and play equipment have been added here as well as at the Swimming Area. Group outings are scheduled by the Employee Activities Office. Be sure to call them (Ext. 834) for your reservation. Many reservations have been made already for summer outings.

Because of the expected increase in attendance this summer, passes will be checked, so it is cautioned that passes be carried whenever one may be going to the area.

Employees have received their own regular pass at their work places. They have received application blanks also with which they may request Associate Passes for members of their immediate families.

Children's Day Camp

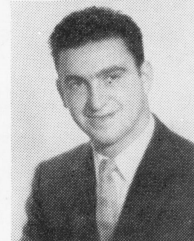

The SERA Children's Day Camp opens on Monday, July 6th, and will be operated during the two - weeks vacation shutdown. All employees' children and grandchildren, between ages 6 and 12, may attend. Further information and application blanks may be obtained at the Employee Activ. Ofc.

Training Course

Mario Cannucciari was graduated as a Plumber and Steamfitter and has been assigned to the Pipe Shop.

Angelo Fusco, graduated as a Toolmaker, has been assigned to the Oakville Division.

SERA Softball

Standings at the half-way mark in the first round are as follows:

Closure Div.	3 - 0
East Plant & Service	2 - 1
Oakville Div.	1 - 2
West Mfg.	0 - 3

Obituaries

RUDOLPH RINGENBERG died on April 26, 1958 after a long illness.

Mr. Ringenberg retired in August, 1952, with 46 years of continuous service. When retiring, he was a toolmaker in the Model Room.

JOHN P. MAKASKAS died suddenly on May 5, 1959.

Mr. Makaskas retired from the Waterville Div. in January, 1955, after almost 30 years of service. He was a dial press operator when retiring.

MURIEL HAM SMITH died on May 5, 1959 after a brief illness.

Mrs. Smith was a file clerk in Mailing when ill health caused her to leave in February. Her last period of employment started in November, 1958.

TERRENCE MACKIN died on May 10, 1959 after a long illness.

Mr. Mackin, well known Scovill guard and attendant at Woodtick and at Doolittle Hall, came to Scovill in December, 1941. Although in failing health for some time, he remained on the job until April 9 of this year.

MICHAEL WALSH died on May 11, 1959 after a brief illness.

Mr. Walsh retired in June, 1931, after more than 45 years of continuous service. He was a toolsetter in the Drawing Room when retiring.

WANTED BLOOD DONORS

No Previous Experience Necessary

Section #4 of the West Plant is scheduled to give at this time, but employees throughout the rest of the plant are invited to donate. If your department is not involved, a call to the Employee Activities Office (Ext. 834) will give you the details and make an appointment for you to give a pint of blood.

Blood Bank Day Wednesday, June 24
