Scovill Mexicana In Operation

The first Scovill broches (*GRIPPER* Fasteners) with a Spanish accent are just about ready to emerge from the production line of our new subsidiary, Scovill Mexicana, S.A. de C.V., recently established in Mexico City.

While small in size (10,000 sq. ft.), the new plant pictured below will play an important part in protecting existing markets for Closure Division products in Mexico. The sale of products made in the United States has been threatened to an increasing extent by products made in Mexico as well as those brought in from Italy, Germany and Japan. Such products are being sold at prices 20% to 30% lower than Scovill-made products.

We cannot stand by and lose any existing market for our products. The only answer to the increased competition in the growing Mexican market was to establish our own manufacturing operation in that country. If this was not done, our markets in Mexico would soon be lost.

Scovill Mexicana is a joint operation with Mexican associates. It is managed by Mr. Hayden Hotchkiss, formerly a Special Assistant to Mr. Paul E. Fenton, Vice President and General Manager of the Closure Division. Mr. Fenton has been responsible for the establishment of this new operation and

functions as its President. Mr. Hotchkiss is being assisted by Mr. Richard Wright, formerly Assistant Foreman of the Gripper Eyelet Dept.

Modern production equipment has been transferred from Waterbury to get the new plant into operation as soon as possible.

Scovill Mexicana is an example of what the Company must do if it is to participate successfully in markets outside of the United States. It was quite apparent that the Mexican market could not be served by products made in this country. However, the growth and prosperity of Scovill is dependent upon the sales of all divisions, whether in this country or abroad. For it is through such sales that the Company will earn the profits necessary for long-term growth.

Got A Question?

A "Question Box" will start in our next issue. It is being created to give employees an opportunity to ask questions about our company, its products and policies. All questions of general interest will be answered by qualified personnel. Personal questions will be answered also — direct — if you include your name.

Send your questions to "Question Box" c/o The BULLETIN.

Screw Products Expands Operations

Willis Machin, Vice President and General Manager of the Screw Products and Forging Division, has announced an expansion of this Division's screw machine operations on the West Coast. It was originally started as a pilot operation in our Los Angeles office in July, 1957.

Previous to the establishment of this operation, the Division was not too successful in serving the customers it had in the West Coast area. Because of distance from the market, our prices were not competitive with those of products made on the coast.

As a result of experience, it was decided to expand the pilot operation. Since sufficient space was not available in the Los Angeles warehouse, a 7,800 sq. ft. annex was added to the rear of the warehouse building. The new building has been completed and additional machines have been installed and are now in operation.

Mr. Machin emphasized that while the operation is small compared to our screw machine facilities in Waterbury, it will allow us to compete on a more equal basis on the West Coast and to offer improved service to present and potential customers in that area.

SCOVILL MEXICANA. Our newest subsidiary for Closure Division products is located in Mexico City.

MEMO *from Management:*

An Eye Opener

Complacency can be pleasant, if we have something to be complacent about. It is much more comforting to take our country's economic dominance for granted than it is to take a long, hard look at what the rest of the world has been accomplishing. After all, we still have the highest standard of living in the world and it was our industrial might that helped to win World War II.

Sure, we may say that we are experiencing a little trouble now in competing with foreign-made products but that it will soon blow over. We may also try to kid ourselves that other countries do not have the equipment and know-how that we have developed over the years and cannot match us in quantity or quality.

That is what we may think! But, what are the facts? Is this import problem just a flash in the pan or are other countries really getting the jump on us, economically speaking?

We got a good look at what one country has accomplished when we recently saw a movie made in Japan. In sparkling color, this movie showed the production equipment used by the Toshiba Electric Company in Japan to manufacture a wide variety of electrical products, from refrigerators to transistors, to atomic power plants. In what appear to be brand new, spic and span plants, with the latest in automated production lines, this company is turning out quality products in quantity. As we well know, these products are appearing in great numbers on the shelves of our retail stores, in competition with well known American brands.

While it is true that this movie shows the operations of just one company in one foreign country, it would be wise for our own best interests to assume that it typifies progress made by other competitors in such countries as Japan, Germany and Italy. It has been remarkable progress. About one-third of Japan's wealth was destroyed by World War II and its outlook fifteen years ago was far from bright. It has come a long way in that time. In the first ten months of 1959, its sales to us exceeded its purchases from us by about \$100 million—a historic record.

It's a startling thought, but the world has been moving fast while we paused to count our automobiles, dishwashers and television sets. An eye opener such as the Toshiba movie is an effective reminder of how little time we have to catch up to where we used to be.

Sunshine Fund — 1959

During 1959, approximately 350 employees, members of their families and retired persons were given a helping hand by the Scovill Sunshine Fund.

\$6,798.18 was used to help cover expenses, as listed below, in cases of serious illness or some similar difficulty which created a hardship.

Food	\$4,293.75
Insurance	966.25
Rent	438.50
Medicine, Drugs	251.84
Miscellaneous	211.00
Fuel	149.97
Medical Bills	125.27
Nursing Care	121.00
Clothing	102.47
Hospital	80.50
Utilities	57.63

The Sunshine Fund is supported by commissions from vending machines located throughout the plant. The Committee which handles the administration of the Fund's activities consists of: Chairman J. M. Burrall, Dr. R. W. Butler, Wayne Johnson, Ray Kasidas, Leon Mayshaw, and Mrs. Marie Hayes.

Scovillites In The News

Lamson M. Scovill

Mr. Scovill, Eastern District Sales Manager of the Cosmetic Container Div., was recently installed as President of the Cosmetic Industry Buyers & Suppliers Association.

The association is made up of executives, sales representatives, purchasing and promotional personnel connected with the industry as well as companies supplying raw materials to the cosmetic industry. Covering the Eastern area, the association has a limited membership of 250. Monthly meetings are held at the Savoy Hotel, New York, with outstanding speakers.

Dr. Herman C. Nolan, president of McKesson & Robbins, speaker at the installation dinner, spoke on "Business Outlook, Pro and Con, for the 1960's".

George H. Wadsworth

Mr. Wadsworth, Controller, has been elected to membership in the Controllers Institute of America.

Established in 1931, the institute is a non-profit management organization of controllers and finance officers from all lines of business—banking, manufacturing, distribution, utilities, transportation, etc.

Total membership in the organization exceeds 5,000.

New Assignments

Employee Relations Dept.

MICHAEL RYAN — Sergeant, Guard Dept., in charge of the 2nd shift

JOHN PIVIROTTTO—Sergeant, Guard Dept., in charge of the 3rd shift

General

ARTHUR M. ROGERS has been assigned the responsibility for the administration of the New York Office.

General Mfg. Div.

DONALD L. BARTLETT, JR.—Sales Manager Electrical Sales

Plumbers Brass & Foundry

JOHN DEXHEIMER—Superintendent of the Foundry, Dept. #34

PATRICK E. MALLOY — Foundry Technician

Screw Prod. & Forging

JOSEPH S. STEVENS—Sales Manager of the Division (includes Screw Machine, Forged and Headed products)

Training Course

TOOLMAKER. Richard J. Eykelhoff was graduated as of January 17, 1960 and has been assigned to the Automatic Press Tool Room, Oakville Div.

TOOLMAKER. Stanley Masayda was graduated as of January 10, 1960 and has been assigned to the Hook & Eye Tool Room, Oakville Div.

Here's How!

By Robert W. Butler, M.D.

Unless you're lucky, the common cold costs you personally \$30.00 a year or more — plus the discomfort that goes with it. It keeps an average of about 250,000 people away from work every day; so it's worth thinking about. The thousand dollars or more that it costs you during your working lifetime doesn't include, of course, the cost of pneumonia or other complications which may arise if you don't get the right attention for your cold soon enough.

We're constantly preaching prevention, and expect to continue. Nobody will offer any convincing argument against the old ounce-of-prevention being worth a pound-of-cure philosophy, so we'll discuss prevention first, and cure later. Not that we can tell you anything you don't already know; just a few reminders:

1. Keep away from people who have colds, especially if they're coughing and sneezing all over the place and not covering up with a handkerchief. They shoot thousands of bugs in a fine spray over an area 3 feet or more every time they do it. At least don't kiss 'em! (If you do get one yourself, cover your own cough or sneeze. Tissues are cheap!)

2. Avoid drafts as much as possible, avoid sudden temperature changes which may chill the body. Don't go running outside even for a few minutes in cold weather without putting on extra clothing. The fact that it isn't cold as it was yesterday or that you're only going to be out a minute or two won't necessarily save you — your body can be chilled in less than a minute! Put on your rubbers if there's snow or slush out there — wet feet will help you get a cold.

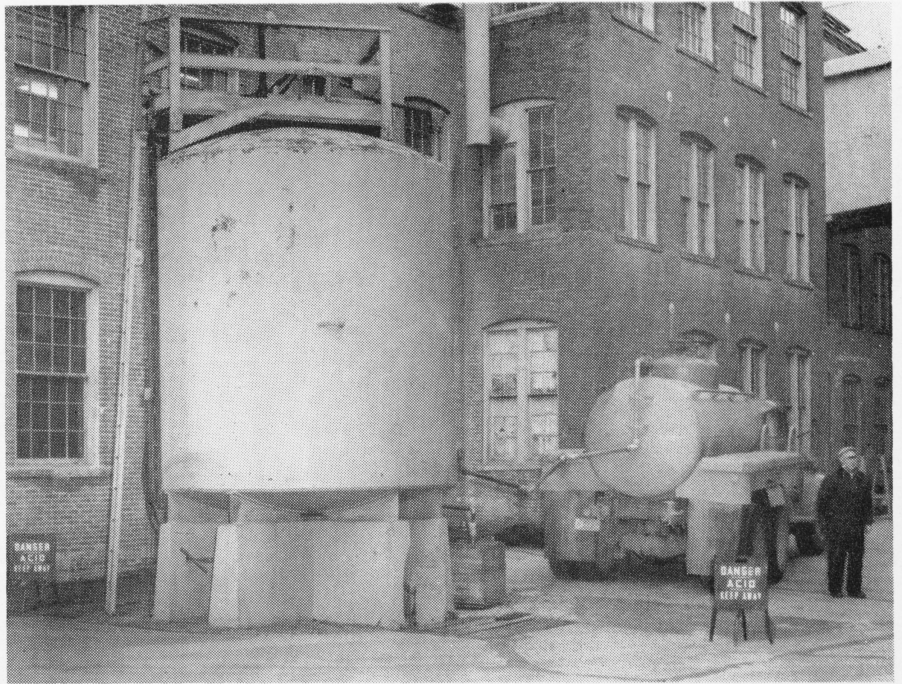

3. Don't let rooms at home get too hot or dry (this goes for bedrooms, too). If the air is dry put basins of water on the stove or radiator.

4. Keep out of all public eating or drinking places where they don't do a thorough job of cleaning dishes, silver and glasses. They must be well washed and scalded to be safe.

5. Keep your resistance up. Most of the colds you get result from the combination of infection by the germ and lowered resistance on your part.

SO—get plenty of sleep (not less than 8 hours every night);

Eat an adequate, well-balanced diet;

ACID TRANSFER IMPROVED. Joseph Trangle, of the Naugatuck Chemical Co., stands by as sulphuric acid is pumped from his truck into one of our storage tanks. Through cooperation of the Chemical Company, the acid now is pumped entirely through metal piping, eliminating the risk of hose lines bursting. Another precaution is placement of signs explaining the hazard.

It is important for employees to cooperate with our supplier by keeping clear of the transfer work and by not parking near acid tanks (they're labeled).

Your Social Security

Do you know:—

That, if you die — monthly cash benefits may be payable to the following survivors:—

- 1—Widow, age 62
- 2—Children under age 18 (includes stepchild and legally adopted child)
- 3—Disabled adult child (who became disabled before age 18)
- 4—Widow under 62 (if she has a child in her care entitled to child's benefit)
- 5—Dependent parent or parents (mother 62, father 65)

In addition, a lump-sum payment is payable when the *insured worker* dies.

Social Security pays — but not automatically. If an eligible person *does not file* application for benefits, none will be paid.

Drink plenty of water (more than you want).

Do these things consistently and you probably will make the winter without a cold. Unfortunately, we only have to make one mistake to be a candidate for a few days in bed, so don't make it!

Merry Christmas!

(A Belated Yuletide Tale)

John is an alcoholic. His foreman knows it. So do his fellow workers. John knows it too. He tries hard to break away from drinking. For him it means the difference between despair and happiness — sickness and health — a job and a layoff.

His foreman tries to help, too. He encourages John to go for counsel and treatment and, with the help of the clinic Alcoholics Anonymous and many others, John begins his climb back up the ladder to sobriety.

He's doing well, too. His foreman is pleased — his workmates are happy about it, too.

A story with a happy ending? It might have been, except for the fact that the room gave John a Christmas present—TWO BOTTLES OF CANADIAN CLUB!

John has started once more on his long journey back. This time he might make it IF his friends will realize that to an alcoholic alcohol is poison!

Please, fellows — won't you play ball, huh?

NOTE:—Any resemblance to Scovill-ites — living or dead — is purely deliberate!

Retirements

Effective January 11, 1960

ELIO ERMO, trucker in the Repair Room—36.9 years of service.

LLOYD E. PERRY, Foreman of Casting Scrap Room—43 yrs., 10 mos.

Effective February 1, 1960

ARTHUR D. COWPERTHWAIT, Divisional Sales Manager, Electrical Div.—41 yrs., 6 mos.

HERMILIE L. JACOB, Reheader tool-setter in Head, Rehead & Clip Dept.—45.2 years.

BENNY MARINELLI, maintenance man in Sanitary Dept.—20.4 yrs.

DAVID O'NEIL, Boiler room engineer in Steam Dept.—34 yrs.

FRED W. TRAVER, courier-confidential driver, Transportation—43 yrs. 8 mos.

RICHARD W. TROSKE, Toolmaker in Mfg. Eyelet Tool Room—37.9 yrs.

LEOKADIJA WASILAUSKAS, miscellaneous machines operator and bench worker in Dept. 12—34.9 years.

With Our Retired Folks

As so many people throughout the plant participated in a "warm send-off" to Fred Traver, popular Company driver, and as it was impossible for him to thank each one personally, we are happy to carry this note:—

To My Friends at Scovill,

I wish to express my deep appreciation and sincere gratitude to my many friends throughout the plant for their well wishes and the generous remembrance given me on my retirement.

Fred Traver

ARMAND AND CLARA BRECHBUHLER celebrated their 60th wedding anniversary on December 28, 1959. Mr. Brechbuhler retired in January, 1955, with a service record of 36 years. He was in the Repair Room when retired.

The Brechbuhlers are the parents of four children, five grandchildren and fourteen great grandchildren.

50-YEAR ANNIVERSARY. Frank and Mary Manzella celebrated their 50th wedding anniversary on January 10, 1960. Mr. Manzella retired in December, 1954, after 11 years of service. He was in the Box Shop when retired. Mrs. Manzella had a service record of 23 years when she retired in July, 1956. She had been in the Closing Room.

The Manzellas also proudly claim four children. Their grandchildren—ten; great grandchildren—seven.

JANUARY RETIREES FETED. Parties and presents are the order of the day when employees extend congratulations and best wishes to retiring co-workers. While unable to get to all the parties held last month, our photographer did get to four where the following people were being honored:

Top to bottom are:—(1) Henry Kamens in the General Manufacturing Tool Room; (2) Claude Link in the Electrical Dept.; (3) Mrs. Zenaide Morini in the Screw Machine Packing Room; and (4) Lloyd E. Perry in the Casting Shop.

FOREMEN'S CLUB ELECTS NEW SLATE. *Top photo—Officers, Trustees and Committee Members who will be holding the reins for 1960.*

Lower photo:—The annual banquet of the Club was held at Waverly Inn on January 16. In the left photo, Scovill President S. T. Williams greets Arthur E. Blewitt, retired, oldest Club member, as Club President Andrew M. Raeburn looks on. Upper insert is Mr. Williams, key speaker on the program; lower insert, Vice President Ivan L. Coulter who served as M.C. for the affair.

Foremen's Club Officers

President—Andrew M. Raeburn,
Casting Shop

Vice President—Henry J. Carisio,
Electrical Dept.

Treasurer—W. Harry Shewbridge,
Planning

Secretary—Leo R. Belliveau,
Planning

Asst. Treasurer—Anthony J. Laudate,
Packing B

Trustees:—Div. 1 — Raymond E. Murphy, Screw Products & Forging;
Div. 2—Anthony J. Laudate, Packing B;
Div. 3—Alfred J. Smith, North Mill;
Div. 4 — Leonard R. Corrado, Strip Mill;
Div. 5—Anthony Sebastian, Payroll Dept.;
Div. 6—Henry J. Carisio, Electrical Dept.

Peter J. Dowling was named Chairman of the Program Committee, with Raymond J. Caffrey as Co-chairman. Committee members:—Herbert M. Colby, Andrew A. Minicucci, Thomas P. Ryeal, Hector E. LaRiviere.

Membership Committee:—James F. Coffey, John J. Meehan, W. H. Shewbridge.

Sick Committee:—Richard G. Lawson, John T. Michell.

Obituaries

WILLIAM ABLAZEY died on January 18, 1960 after a brief illness.

Mr. Ablazey retired in November, 1959 after more than 40 years of service. He was serving as a jitney operator in the North Mill when retired.

WILLIAM FALLON died on January 21, 1960 after a short illness.

Mr. Fallon had completed almost 33 years of service when he was forced to leave his work due to illness last November. He was a crane operator in the Casting Shop.

ANTONINA RUNIVIDGE died on January 22, 1960 after a brief illness.

Mrs. Runividge, who had almost 23 years of service, was an automatic dial press operator in the Closing Room when retiring in January, 1945.

ROGER LAVIGNE died on January 27, 1960.

Mr. LaVigne, Supervisor of the Receiving Dept. of the Traffic Division at time of death, had almost 25 years of Scovill service.

Girls' Club News

By Juanita Addressio

With all reports in, we can now give you the details of our Christmas activities, as follows:—

45 Christmas dinners, with clothing and toys to needy families—\$1,014.30; 74 gifts to retired club members—\$153.40; two kiddies' parties (1200 children)—\$622.84 — for a total of \$1,790.54 spent.

The money for these activities came from sales of candy and cards; dances and card parties; donations from the Foremen's Club, SERA, and Closure Div. Tool Design employees.

Violet Dander, who was in charge of 'Needy Families' until her automobile accident put a halt to her activities, wishes to thank Evelyn Smoil, her assistant, and the girls on the Council who helped by taking over while she was convalescing; and those who helped make deliveries to needy families.

The Club is planning a Card Party and Chinese Auction for Tuesday, February 23rd. Many times, when a notice of this sort is published, girls will "make a point of making a date for the party" but just seem to never get there. This time — "DON'T JUST TALK ABOUT IT—GO!"

This may seem a little far-fetched, but it is only a couple of months before our annual meeting in April and we must think of new Council members. If you'd like to be on the Council, why not contact one of the Council members or send me a note.

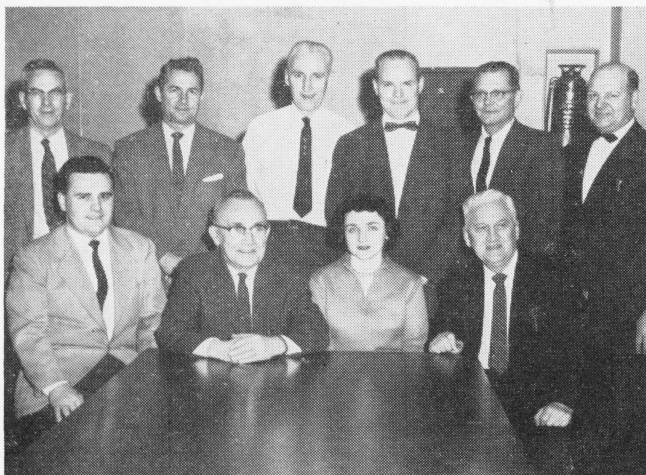

Remember—every organization needs new blood and new ideas. Also, if there are some activities which you would like to see the Club sponsor, let us know. We have tried to conduct activities which we felt would be of interest to all but, as some of you haven't responded, perhaps we haven't been promoting activities you would participate in. If so, won't you tell us?

Scovill Top Bowlers In "Dimes" Tourney

Two teams of top average Scovill bowlers were set up to participate in the March of Dimes bowling tournament which was scheduled to be held at Sena's 20th Century Bowling Alleys on Saturday, January 30.

Team #1 consisted of Capt. Benjamin Bannick, John Blake, Rocco Dadona, Leonard Synkowicz and Arthur Taylor.

Team #2:—Capt. Ralph Orsini, Chester Bandurski, Raymond Beauty, Albert Pertone and Carl Pickett.

CREDIT UNION #1 OFFICERS, DIRECTORS. Seated:—Carlton Pickett, President John L. Robinson, Asst. Treas. Marion Orsini, Treasurer George Garrity. Standing:—John Bresnahan, John Mitchell, John Butkus, Vice Pres. James Moore, Harold Rogers, Fred Kirschbaum.

Credit Unions Hold Annual Meetings

(Members of all Scovill Credit Unions are asked to send in their pass-books for auditing and entering of dividends declared.)

Credit Union No. 1

Dividend declared—4%

Officers:—President—John L. Robinson; Vice President—James J. Moore; Secretary-Treasurer—George Garrity; Asst. Treas.—Mrs. Marion Orsini (This is the 16th consecutive year that Mr. Robinson has been elected President of Credit Union No. 1.)

Board of Directors:—The officers, Fred Kirschbaum, John Mitchell, John Bresnahan, John Butkus, Carlton Pickett, Harold Rogers

Credit Committee:—Henry Nault, Edward Berube, Joseph Sullivan

Supervisory Committee:—Martin Hollywood, Thomas Rush, Edward O'Donnell

All former Waterville Division employees now located in the West Plant are invited to join Credit Union #1. Applications are available in their respective departments; collection boxes are set up in Bldg. 49-4 and 40-3. (For further information, call the office, Ext. 2150)

Credit Union No. 3

Dividend declared—3¾%

Officers:—President—Joseph Kerowski; Vice President—John F. McCarthy; Secretary-Treasurer, Edward Sabis

Board of Directors:—The officers, F. Norman Curtis, Edward Mitchell

Credit Committee:—Edward Mitchell, Arthur Tracy, William Nagle

Supervisory Committee:—Rocco Rinaldi, William Zenick, Harry Chabot

Credit Union No. 2

Dividend declared—4%

Officers:—President—Peter Moneta; Vice President—Salvatore DeNuovo; Secretary-Treasurer, James Ryan

Board of Directors:—The officers, Carl Longo, Vincent Iacovino, Patrick Fitzpatrick, James Smith

Credit Committee:—Carl Longo, Vincent Iacovino, Joseph Favale

Supervisory Committee:—Henry Friez, James Smith, John McGovern

Credit Union No. 4

Dividend declared — 4.2%. From now on, dividends will be declared on a semi-annual basis—Jan. 1 and July 1.

Officers:—President—Emil Brodeur; Vice President—Henry Carisio; Secretary and Loan Officer—Margaret Sheehan; Treasurer—John Carolan; Asst. Treasurer—John Carey

Board of Directors:—The officers, George Block, Edward Willhaus

Credit Committee:—Anthony Lacerenza, James Burkle, Joseph Kenney, Raymond LeBrecque, Margaret Sheehan

Supervisory Committee:—Thomas Gifford, George Tuttle, Julia McManus

Pinochle Tourney

Scores for January 28, with standings to date:—

Matulunas	34,205	106,600
Mancini	34,550	105,610
Laudate	34,760	105,430

Individual high scorers for January 28—Arots, 4265; Granoth, 4105.

CREDIT UNION #4 OFFICERS. Seated:—Treasurer John Carolan, President Emil Brodeur, Secretary Margaret Sheehan. Standing:—Supervisory Committee Chairman Thomas Gifford, Vice Pres. Henry Carisio, Asst. Treas. John Carey, Credit Committee Chairman Anthony Lacerenza.

Fishing Notes

A most enthusiastic attendance of Scovill fishermen cheered the proceedings of the annual meeting held at the Girls' Club recently, and reelected unanimously the incumbent officers.

Under the dynamic leadership of President Jim Coffey, effectively seconded by his able and experienced vice president, Harold Rogers, and with the secretarial and financial business in the capable hands of stable Mike Cicchetti, the Rod & Gun Club made giant strides in the past year.

Membership has increased, activities well attended and interest aroused to a high level. Relationship with the SERA is of the best resulting in many additional needed improvements at Woodtick. In his acceptance remarks, President Coffey paid special tribute to the support received in these matters from SERA president John Capone and Executive Secretary Fred Wilson.

The President of Rod & Gun is now also Chairman of the SERA Fishing Committee, an appointment previously held by the writer.

Writing "Fishing Notes" for these many years has been fun and we thank all those who have helped. We ask that that same kind of support be given to the new chairman. Please send your news items to Jim Coffey at the Planning Office from now on.

We urge your full support for the officers and the Club and you can do this by paying your dues, attending monthly meetings and participating in the club's activities. How about it?
