Scovill Builds Indian Plant

Scovill's newest overseas plant is now under construction in Bombay, India. Started last April, it is expected that equipment installation can begin by the end of this month. The plant will be used initially for the production of tire valves and related items.

As indicated by its name, Schrader-Scovill Duncan, Ltd. is jointly owned by Scovill and Duncan Brothers, with Scovill having the majority interest. As an important producer of tea and jute, Duncan Brothers has had years of business experience in India which should prove of great value in this new joint operation. Just under 25% of the stock in the new company has been purchased by the Indian public and is traded on the Indian stock exchange.

Scovill's decision to manufacture tire valves in India is a natural development. We have been selling such valves in that country for many years through the English branch of our Schrader Division. Under its current five-year plan, the Indian government has been encouraging industrial expansion within its own borders by granting exclusive licenses for the production of certain products. In order to protect our sales of tire valves in India, Scovill applied for and was granted a license to produce them there and formed a

Scovill Drive For United Fund

The campaign to raise funds for 29 health and welfare agencies to carry on their work of serving people in the greater Waterbury area begins in Scovill this week—and will be conducted from October 9th to the 31st.

Scovill employees are being counted on to pledge \$99,500 of the city-wide quota of \$725,000 — the amount needed for these agencies to operate during the year 1963.

This year, the Scovill drive is being conducted on a divisional basis. A joint Management-Union effort, the drive is headed by "in-plant" co-chairmen Charles Rietdyke and Lawrence Bernier. Each division of the plant will have two members serving as "divi-

sional co-chairmen"—one each from Management and from Local 1604, UAW—as follows:

Closure Division — Robert Nisbet and Richard Brown

Cosmetic Division — Leo Belliveau and Anthony Diogostine

General Manufacturing Division:—

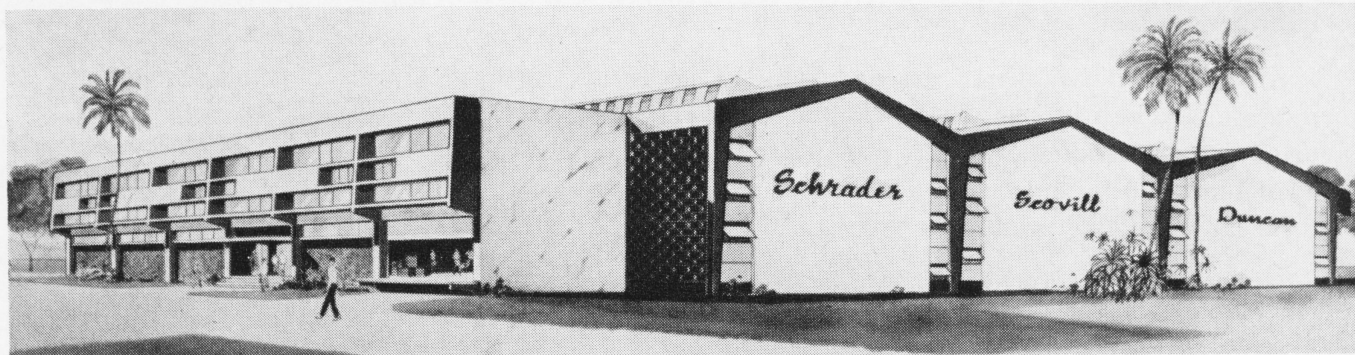

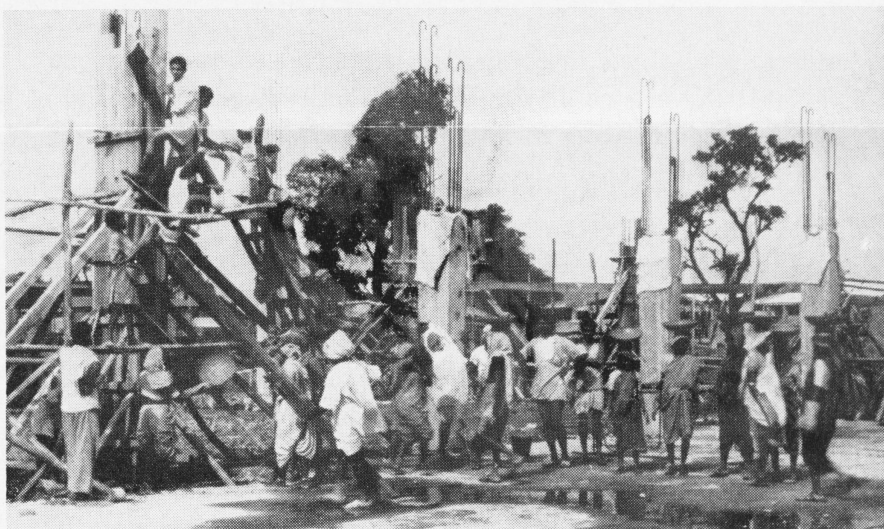

East Plant — Ray Murphy and Anthony Lacerenza

West Plant — John Cowperthwait and Helen Johnson

Mills Division — John Fogarty and Albert Lupica

Waterbury Services — Henry Hart and Richard Duffy

(Continued on Page 2, Col. 3)

HALFWAY 'ROUND THE WORLD. This is the site of Scovill's newest plant now under construction at Bombay, India. As shown in the upper photo, building appears to be a family affair in India—with women doing work normally

assigned to men in this country.

The new plant, as shown in the architect's sketch, will be used to produce tire valves and related items for the expanding Indian market.

MEMO *from Management:*

Making It Work

The Trade Expansion Act of 1962 has been approved by both Houses of Congress. When finally signed by the President, it will allow him to reduce any tariff up to 50% and, under certain conditions, to eliminate some tariffs entirely. Congress has given the President this unrestricted power over tariffs so that he can bargain for similar reductions in Common Market tariffs, thereby opening up this growing market to American-made products.

Selling more U.S. products in world markets is a worthwhile and necessary objective, and we're all for it. It will put excess capacity in this country back to work, and provide more jobs for those now idle. As a company, we opposed the Trade Expansion Act in the belief that it over-emphasized wholesale tariff reduction as a means of increasing U.S. exports. In our opinion, high costs in this country, and not high tariffs abroad, have been holding down the sale of American products in foreign markets. We know this from personal experience, having had to establish manufacturing plants abroad in order to sell our products there.

Now that the Trade Expansion Act has been passed, we've got to do what we can to make it work. It will be a rough road — for world trade is a two-way street filled with potholes for the high-cost producer. When we reduce our tariffs to get other countries to reduce theirs, low-cost foreign competitors will find it that much easier to sell their products in this country. Foreign consumers, however, will not buy our products unless it is to their advantage to do so — unless our price is lower, our quality or design is better, our delivery is quicker, or in some way we can offer something which is not now available in their own country.

American industry won't get anywhere in its efforts to increase sales abroad or at home without the full cooperation of government and labor. There must be more profit dollars available for new and better production equipment — and there must be more production from each payroll dollar.

Arthur J. Goldberg told the American people what must be done to reduce unemployment in his final remarks as Secretary of Labor . . . "We must work, not less, but more." It is the same formula we must follow if the Trade Expansion Act is to achieve its worthy objectives.

United Fund

(Continued from Page 1, Column 3)

These divisional co-chairmen will organize a task force in each department to conduct the drive within their particular work areas.

The \$99,500 quota has been broken down by divisions and a goal set for each, according to enumeration. The goals to be attained are:—

Closure Div.—\$11,860

Cosmetic Div.—\$7,342

General Manufacturing—\$35,386

Mills Div.—\$25,076

Waterbury Services—\$19,836

When asked to give, please remember that the people who are helped by these 29 agencies are our neighbors and, in some cases, our co-workers. Please give generously. The easy way is to sign up for Payroll Deductions.

To the employees who give their fair share—through Payroll Deductions or Pledges — the Committee expresses their deep-felt gratitude.

Indian Plant

(Continued from Page 1, Column 1)

joint company for this purpose with Duncan Brothers.

Scovill, along with many other U.S. manufacturers, has found that the products we make in this country are too expensive to sell abroad. The only way we can sell our products in foreign countries is to produce them abroad at the same low costs available to foreign competitors. With the completion of the plant in Bombay, Scovill will have expanded its world-wide operations to include Canada, Mexico, Brazil, France, England, Australia and India.

SERA Golf Tourney

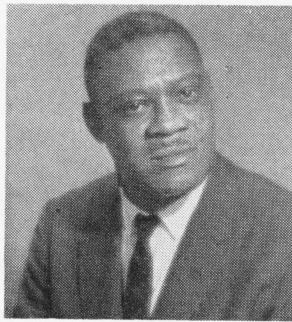

The annual SERA sponsored golf outing, held at the Southington Country Club on Sept. 29, attracted 48 players, with prizes awarded as follows:

Low Gross—Ralph Orsini, 78

Kickers' prizes to: Don Carnwright, John Kernan, Ted Mis, Phil Ercoli, Ralph Orsini, William McKenna, Frank Iorio, John Danaher, Alec Kalachuk, Joseph Dorso, Harold Desco-teaux, William Buinauskas, William Rotella.

Service Awards

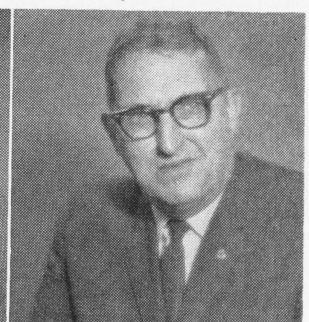

- Kathleen Collins, Mfg. Packing
25 years—Sept. 10, 1962
- Henry Hart, Maint. Engineering
10 years—Sept. 3, 1962
- Robert Weber, Maint. Engineering
10 years—Sept. 3, 1962
- Edith DiPietro, Cosmetic Div.
10 years—Sept. 6, 1962
- Nettie Murphy, Forge Shop
10 years—Sept. 9, 1962
- Caroline Cannata, Screw Mach. Pack
10 years—Sept. 19, 1962
- Marie Vaccaro, Lacquer Room
10 years—Sept. 29, 1962

Jerry Bland
Strip Mill
25 yrs—Sept. 2

Edmund Faeth
Casting
25 yrs—Sept. 8

Clifford Lytle
Purchasing
25 yrs—Sept. 7

SEPTEMBER SERVICE AWARDS. Five emblems and certificates in recognition of 25 years continuous service in Scovill were awarded at ceremonies held in the Display Room on Sept. 17.

Above: President Williams congratulates the recipients Mrs. Kathleen Collins, Edmund Faeth, Clifford Lytle, Jerry Bland, and Edward (Ned) Wolff.

Bob Fumire SERA President

Robert Fumire, of the Button & Fastener Finishing Lab, was elected President of the Scovill Employee Recreation Association, Inc. at a meeting of the newly-elected Board of Directors on September 12, 1962.

Vincent Manzolli, retiring President, was elected to serve as Vice President. Ruth Peterson was re-appointed Secretary-Treasurer.

Elected to the Board of Directors, at the annual membership meeting held at the Girls' Clubhouse on Sept. 12, were:—

- Betty Affeldt, Payroll
- Benjamin Bannick, Mfg. Work in Process Stores
- John Capone, Tin Shop
- Raymond Curtis, Mill & Grinding
- John Deegan, Gripper Eyelet
- Joyce Emmons, Mills Div. Operations Mgr's Office
- John T. Mitchell, Mfg. Packing
- Jean Ostroski, Group Insurance
- Margaret Snowden, Mill & Grinding
- Clo Read, Payroll
- Joseph Fabiano, Trucking

Elected to serve as alternates were:
Sue Guarrera, Cosmetic Sales
Clint Pelkey, Contract Prod.
Martin Hanson, Trucking

Fred Kirschbaum, Mfg. Eyelet

The newly elected Board set the first Tuesday of the month as their regular monthly meeting night. President Fumire will announce his committees at the October meeting.

Wolff Family Adds To Service Record

A Scovill service record that would be impossible to beat is that established by the Wolff family.

Two more members of the "clan" recently passed service anniversaries which brought the service record of the family up to 592 years.

Armand Wolff, of Planning, completed 40 years and nephew Edward of the Tool Supt. Office (known to all as "Ned"), completed 25 years in July.

The Wolff family service record started in 1868 with Adrian F. who retired with 65 years of service. Brothers Alfred J. served 55 years, and Lucian served 35 years—totalling 155 years for the first generation.

The second generation (to date) totals 349 years, and the third generation totals 88 years.

The Adrian F. branch included son Adrian L. who served 25 years—father and son totalling 90 years.

The Alfred J. branch includes: four sons—Alfred E., 25 years; Edward L., 53 years; Joseph R., 52 years; Armand

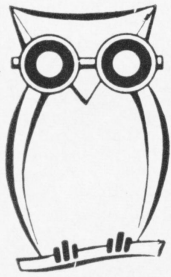

T., 40 years—five grandchildren: Edward A., 25 years; Joseph R., Jr. (of Aluminum Mill Office), 21 years; Celestine (Kearney), 7 years; Adrienne (Pyatt), 9 years; Alice (Aragon, of Cosmetic Container Div.), 3 years—a total of 290 years.

The Lucian F. branch includes: nine sons—Francis, 10 years; Lucian J., 15 years; Clarence, 15 years; Harold, 32 years; Alfred R., 26 years; Adrian P., 10 years; Jerome G., 39 years; Edmond, 2 years; Adolph, 5 years—grandson, Lucian, F. (of Cosmetic Industrial Engineering), 23 years—a total of 212 years.

Standard Time

Eastern Standard Time will go into effect officially at 2:01 a.m. on Sunday, October 28, in Connecticut.

At about that time, all clocks in the Waterbury Divisions will be set back one hour.

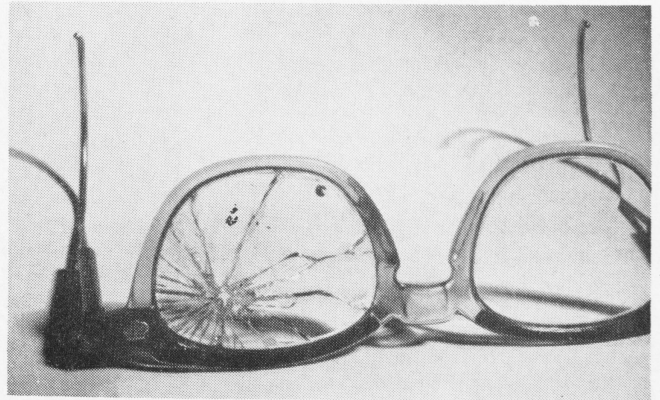

WISE OWL CLUB

Two More Wise Owls

Herve Michaud, Foundry, qualified for membership in the Wise Owl Club through the accident described under the above picture.

John Zacchera became a member of the Club when, in the Casting Shop, a splash of molten metal flew and splattered his safety glasses. Again—no eye damage.

Two more Wise Owls—employees who had their safety glasses on and whose eyesight was saved by the glasses.

LENS SHATTERED—EYES SAFE! *This is the condition of the safety glasses worn by Herve Michaud at the Foundry when a grinder point flew out of a tool chuck unexpectedly and made a bulls eye hit on the glasses.*

New Assignments

Closure Division

CHARLES C. PERRIELLO — District Sales Manager, Button & Fastener section and Slide Fastener section, Chicago Office.

Thomas Rush—Foreman of Dept. 27, Barrel Plating; Dept. 29, Wet Rolling; Dept. 67, Plastic Molding; Dept. 77, Japan-Dry Rolling.

Mills Division

H. U. Edelman — District Sales Manager of the Detroit Office.

H. J. COLLIER—District Sales Manager, Cleveland Office.

G. A. HOFFMAN — District Sales Manager, New York Office.

W. F. ANDREWS, JR.—District Sales Manager of the Southeast Territory, including Chamblee and Greensboro.

SERA To Hold Open House on Oct. 15

The SERA Board of Directors cordially invites all employees, members of their families, and the general public, to drop in and inspect the new "SERA" Building on Monday, Oct. 15.

The doors will be opened at 11:00 a.m. and visitors will be welcome throughout the day and evening, until 9:00 p.m.

Ceremonies for the official opening of the building will be held at 3:30 p.m. with President S. T. Williams, other company officials and Scovill recreation groups' officers in attendance. Light refreshments will be served.

Members of the SERA Board will be on hand to answer questions. The ladies of the Board, together with members of the Girls' Club Council will serve as hostesses for the day.

Fire Prevention Week—Oct. 7-13

Don't Burn Up Your Pay Check

By Cliff Aspinall, Chief Fire Inspector

During 1961 there were 39,660 fires on industrial property, adding up to a loss of \$210,258,200—and certainly many pay checks as well.

Here at Scovill through the cooperation of management, employees and the Fire Inspection Department, we have enjoyed a fine record in past years, considering the size of our plant.

However, as time goes along, we have the so-called law of averages building up against us so we are in no position to drop our guard against fire prevention.

The following sketch, if heeded, would be a great help in what every employee should know about—How not to burn up his pay check.

Here are 11 WAYS to make our jobs and plant **FIRESAFE --**

- NO SMOKING** — Smoke only in permitted areas
- Allow ample room for sprinklers to do their work
- Never clean with gasoline or similar flammable liquids
- Never block or jam a fire door
- Watch for and report defective electrical equipment and wiring
- Keep flammable liquids in safety cans - away from fire sources
- Take special fire safety precautions when cutting or welding
- Get rid of trash, so fire has no place to start
- Keep extinguishers and fire hose easy to get at
- Always refuel industrial trucks out-doors or in special service areas
- Know how to sound a fire alarm
- Know where extinguishing apparatus is -- and how to use it.
- Know where fire exits are.
- Know any special fire safeguards for your own job.
- Look around -- report obvious fire hazards

Retirements

As of Oct. 1, 1962

JOHN T. FLEMING, production supervisor in Closure Production—over 45 years' service.

VICTOR GOULD, construction electrician in the Electrical Dept.—22.3 years' service.

LUDGER GRANDMAISON, process repairman in the Foundry—18.3 years.

LOUIS LAUDATI, hand screw machine operator in Press & Machine—over 33 years' service.

HANS MAIER, carpenter in the Carpenter Shop—25.5 years.

GIUSEPPE ROMEO, production helper in the Casting Shop—19.4 years.

MARY SCHOONMAKER, industrial nurse in the Medical Dept.—over 26 years' service.

THOMAS F. SLATER, designer in the Art Dept.—42 years.

EDMUND D. WILLIAMS, supervisor in the Millwright Dept.—almost 21 years' service.

Our Retired Folks

The first regular meeting of our Retired Folks' Club will be held on Tuesday, October 23rd, in the new SERA Building. Cards with details will be sent out in the usual manner.

Our retired employees are also invited to participate in the Open House to be held in the new building on Monday, October 15.

Congratulations to *Domenic* and *Mrs. Lavorgna* who celebrated their 50th wedding anniversary last month. The happy occasion was marked with a special dinner at Waverly Inn as guests of their nine children and fifteen grandchildren. *Domenic* retired in April, 1955, after 36 years' service. He had been in the Chucking Dept.

- #7. Clemente Saturno, Cosmetic

Girls' Club News

By Margaret Gorman

After a fine summer of relaxation, members of the Council met on Monday, Sept. 17, for their first meeting of the "active" season. And active it will be—plans were discussed for various events for the coming months.

Our annual card party and fashion show will be a month late this year—it's to be held in November and—in the new SERA building. Slated to be our first big activity in the glamorous new building, we're expecting a large attendance. Notices will be sent out as soon as plans are complete, says Chairman *Virginia Doolin*.

As you remember, the card party is not only a social gathering for our members and friends, it is also one of our means of raising money to provide cheer for some of our less fortunate families at Christmas time. If you cannot attend the card party, we hope all members will buy at least one ticket toward this worthy cause.

The Council picked out the Christmas cards and candy which will be sold within the plant this year. Orders have been placed and it won't be long before they're available. We believe you'll agree the selections this year are better than ever.

Dorothy Chambers, Chairman of this activity, would remind you that the profits of these sales are our main means of raising money for our Christmas Work. And that it is with the cooperation of all employees throughout the plant that we are able to carry on with the Christmas party for the children and the clothing and food baskets provided at this time.

ONE MILLION HOURS—ACCIDENT FREE. *Liberty Mutual's "Award of Merit" plaque is accepted by Cosmetic Div. General Manager William Harris. Representatives of the division's Safety Committee were on hand for the presentation.*

Pictured:—Lucien Wolff, Industrial Engineer; Fred Haesche, Liberty Mutual's Safety Engineer; Connie Chiero and Mary Perugini, Safety Committee; Superintendent Leo Belliveau; Mr. Harris; William Cordelli, Safety Committee.

Cosmetic Division Sets Safety Record

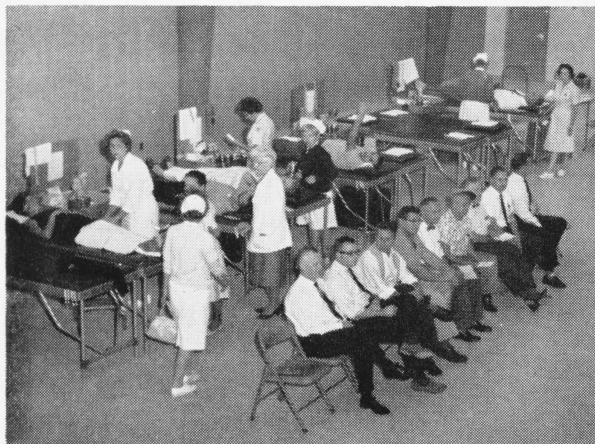

One million manhours worked without a single lost time accident. This record, established between September, 1960 and June, 1962, won recognition for the Cosmetic Division from the Liberty Mutual Insurance Company. The "Award of Merit", highest award to be given by the company, was presented recently to the division.

In accepting the award on behalf of the division, Mr. Harris paid tribute to the efforts of the departmental safety committee whose interest and sugges-

tions in the promotion of accident prevention help to make such records.

This outstanding record of achievement continues unbroken.

If you're smoking more now
and enjoying it less —
Then, why not
just quit smoking?

BLOOD DONOR DAY AT SERA BUILDING

A total of 110 pints of blood was donated by Scovill employees at the Sept. 18th Blood Donor Day which was held in the new SERA building.

A 4-gallon pin was awarded to Frederick Dietz.

2-gallon pins went to Benjamin Blake, Steven Knott, Helen Carew, William R. Frink, Paul Belval, Henry W. Hart, Hyland C. Febrs and John T. Mitchell.

1-gallon pins were awarded to John Berube, Christian Bator, Eileen Foley and Honourous Chabot.

Obituaries

THOMAS J. McCORMACK died on Sept. 4, 1962. An annealer's helper in the Wire Mill—over 28 years.

JOHN SUART died on Sept. 9, 1962. Milling machine operator in Closure Tool & Machine when retired in June, 1962—over 27 years.

MARIO BARBOZA died on Sept. 11, 1962. A bichromate dipper in North Mill Finishing when retired in April, 1962—over 26 years.

ELLEN MURNANE died on August 19, 1962. An inspector in Packing B when retired in June, 1960—26 years.

ANTONAS PETRULIS died on Sept. 25, 1962. A band maker in North Mill Finish when retired in January, 1953—22 years.

Fishing Notes

By Mike Cicchetti

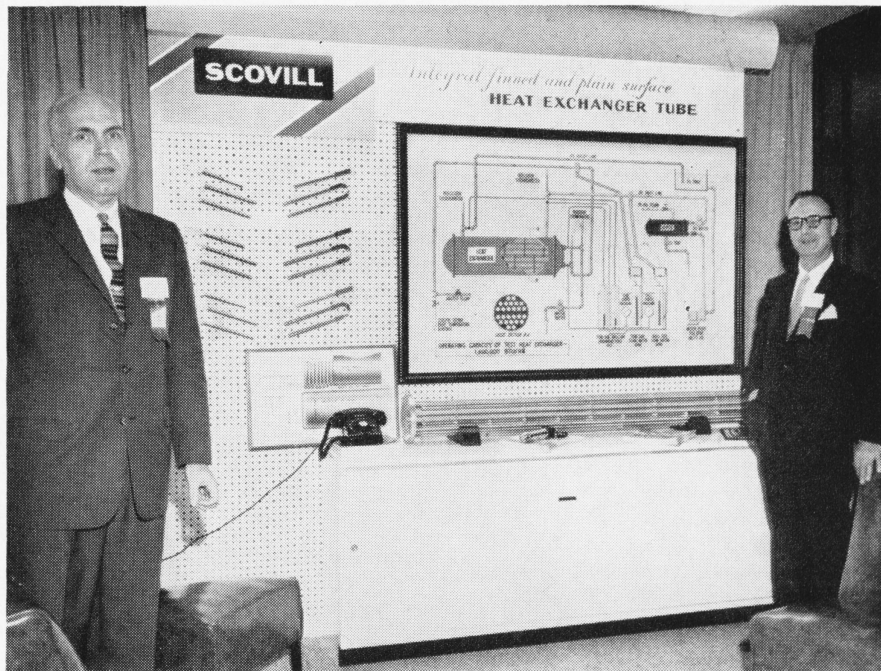

Two contests of the 1962 Reeves Fishing Competitions were held during the month of September, the third was held this past weekend; and the 4th and final one is scheduled for Saturday and Sunday, Oct. 20-21.

The contests have drawn quite a few fishermen and *Les Hart* reports some nice catches checked in. Prizes, and the Champion of 1962, will be announced at the annual banquet.

Plans for the banquet are in the very capable hands of *Fred Kirschbaum* and his assistants, *John Capone* and *James Quirke*. It is scheduled for Thursday, November 8, and will be our first activity to be held in the new SERA building. Notices will be out shortly.

Interesting things have been happening at Woodtick this past season. Stocking the pond, fertilizing it, setting brush piles, and, the latest, sending a skin diver into the waters to check into the situation (this was scheduled for Sept. 30th)—all for the benefit of our Scovill fishermen.

The official closing of the fishing season (November 1st) reminds us that the closing of another business year is also close by. President *Harold Rogers* has appointed a Nominating Committee to prepare a slate of candidates for the 1963 officers to be presented at the annual meeting in January. *Vincent LoCurto* heads the committee with *Ray Curtis* and *Louis Quattrocchi* as co-members.

DISPLAY AT HEAT TRANSFER CONFERENCE AND EXHIBIT. *Corrosion Chemist Ed Duffy* and *Metallurgical Engineer John Hill*, of our Metals Research Dept., man the booth which displayed our Heat Exchanger Tube exhibit in the National Heat Transfer Show in Houston, Texas recently.

Mill Div. Display a "Worthwhile" Venture

For the first time since 1954, our Mills Division recently exhibited one of their product lines—heat transfer tubing—at a national conference. From the reception at the booth, and requests for further information since the conference, it was deemed to be a very successful venture.

Over 600 selected engineering people attended the conferences, sponsored by the American Institute of Chemical Engineers and the American Society of Mechanical Engineers, held at the Shamrock Hilton in Houston, Texas.

The theme of the Scovill exhibit was our method for evaluating integrally finned tube. Samples of our integrally finned and plain surface heat exchanger

tubes were on display. Of special interest to visitors to our booth was the schematic diagram which explains the experimental unit set up in our own Power Plant. This equipment was set up in our Power House in order to evaluate the advantages of Scovill finned tube over plain surface tubing.

William G. Morris, product manager of Heat Exchanger Tubes, located in our New York office, and Frank C. Eller, our southwest representative for Heat Exchanger Tubes, located in Houston, were also on hand to describe our products to these engineers who are most vitally concerned with providing more effective and economic means for solving heat transfer problems.

Coming Events at SERA

The official opening of the new SERA Building will be held on October 15. A look at the list of events already scheduled shows that the building will be the scene of many varied activities—in addition to group and departmental events, some "open" affairs are scheduled for the near future, such as:

Hallowe'en Party

The annual Hallowe'en party for children and grandchildren of Scovill

employees will be held on Friday, October 26, from 7 to 9 p.m. The children (up to 12 years of age) will participate in a grand march, with the awarding of prizes, and enjoy movies and refreshments. No tickets needed.

Cabaret Dance

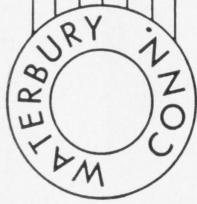

The first cabaret dance of the season, to be sponsored by SERA, is set for November 3rd. Notices will be issued as soon as plans are complete.

For Sale

1958 Pontiac Chieftain convertible, red/white, power steering and brakes, 2 new snow tires, perfect condition, reasonable. 755-2681.

3 wine barrels; 50 gal. hot water heater/oil, \$20. 755-4128 after 4 p.m.

Golf clubs and bag, small tricycle, large chain drive tricycle, high chair, folding type playpen, 2 automobile wheels for snowtires 15", \$1 each; 2" steel pipes, some elbows attached; steel mortar box, 1 bag capacity; ice skates: 1 pair each—man's, woman's, child's; Japanese army rifle; 22 rifle; shotgun. 756-1828.

Frigidaire refrigerator, \$50; gray studio couch with 2 pillows, \$50. 754-3918 after 3:30 p.m.

Steel ironing board, \$3; wine barrels: 3 old, 5 new; baby's spring wagon, hobby horse; hand lawn mower, good condition, \$4. 755-9337.

2 pc. blue Samsonite luggage: weekend case, train case; 2 snow tires, 6.70 x 15. 753-2389 after 5 p.m.

Living room couch, 2 mahogany end tables, mahogany china closet, breakfast set, two 15" rims, tubes and 7.10 x 15 tires. 756-3486.

Wine press, \$5; Baby chick heater, \$3; both in excellent condition. 754-5324 after 5 p.m.

28" English girl's bike; Queen Anne chair (gold); 2 pr. gold drapes, one picture window size, one regular; TV set, good condition; 150 cinder blocks, 1/2 price; complete wine press. 755-2390 or 755-3525.

House—4 small rooms with full attic, basement garage, on corner lot 80 x 212' deep, on Christian Road, Middlebury, a few feet from main highway. Asking \$7500. Must sell. 879-0627 after 4:30 p.m. weekdays or all day Saturday and Sunday.

Mahogany upright piano, modern design, excellent tone quality, very good condition. 758-5239 after 5:30 p.m.

White Glendale stove with 4 gas burners; 3 oil drums with faucets, \$25. 756-6580.

6-room Cape Cod in Blessed Sacrament parish. Large kitchen, combination laundry and storage room; 3 bedrooms, 1 1/2 baths, fireplace, full basement, 1-car garage. Near church, public and parochial schools. 754-4282.

1961 Mercury Monterey. Standard shift, radio, heater, white wall tires, excellent condition. 755-2582 after 5 p.m.

5 1/2 room rancher with 3 bedrooms, recently painted and landscaped. City gas, water and sewers. New 12' x 22' combination porch and carport; aluminum combination windows; full basement. FHA mortgage. Near school, church, recreational park and golf course; 20 min. from main plant. Southington 628-7504.

Cotton skirts, size 12, \$1 each; maternity and baby clothes; kitchen set, \$20; drapes for large windows; power lawn mower, \$25. 755-9608.

Girl's 24" bicycle, very good condition, \$20; GE 17" table model TV set in mahogany cabinet, needs repairs, will sacrifice for \$70. 756-9045.

8 window screens, 24" x 55" x 1 1/8"; Craftsman's metal cutting lathe, 6" spindle; brand new football helmet; brand new baseball spike shoes, size 9; 16 mm movie camera. 756-7177.

1962 Ducati Monza motorcycle, 250 cc; 4 months old, A-1 condition, reasonable. 755-7394 after 5:30 p.m.

1959 Ford Galaxie, 2-door, low mileage. Inquire at 170 Scott St., Naug.

Clarinet, practically new, excellent condition. Cost \$125, will sell reasonably. 274-3168 evenings.

"Weatherbee" alpaca-lined storm coat, size 5-7, excellent condition; living and dining room sets; 5' wide Venetian blind. 753-6885 after 6 p.m.

Upright piano in very good condition. Cut down top and mirror set in. Asking \$125, best offer takes it. 756-1148.

Parlor oil burner heater with baffle plate, tubing valve, stand, 2 bottles, new wicks and lighters, tin base; cleaned, ready for use, \$15. 756-1319.

Gas heating unit for kitchen stove, complete with thermostat and piping, used one season; Florence parlor heater with flue, perfect condition. 755-8384.

3-pc. solid maple parlor set; 1 maple coffee table; 2 maple end tables; all in good condition, reasonable. 274-8494 mornings until 11:00 o'clock.

Duo-Therm oil stove, with pipe, \$15, will heat 3 rooms; side arm hot water gas heater, with pipe, \$8. 879-1729.

Wanted To Buy

Wooden storm windows: one, 28 1/4 x 55 1/2"; one, 30 x 48". 757-0783.

16 mm. sound movie projector. Must be in good operating condition. Ext. 2269, between 8 a.m. and 5 p.m.

Tenants Wanted

3 1/2 room unfurnished apartment with hot water; ideal for middle-aged couple or woman. Full use of garden and fruit trees. Sacred Heart Parish. 753-2250 after 3 p.m.

4 rooms, 1st floor, 228 Riley Place. Inquire 2nd floor.

4-room apartment with storm windows, enclosed rear porch, 3rd floor. Available October 15. Call at 111 Orange St.

Rent Wanted

Unfurnished rent in residential neighborhood by young couple (teachers). 753-6411 after 5 p.m.

Other

FOUND. A sum of money in East Plant; a sum of money in West Plant. Ext. 345.
