

# SCOVILL BULLETIN

AUGUST, 1963

*Published by Scovill Manufacturing Company for its Employees*

## Suggestion System Attracts Ideas

Scovill's new suggestion system for Waterbury Divisions' employees is off to a flying start. Despite the summer shutdown and vacation interruptions, fifty-nine suggestions have been received up to press time.

Although these have not all been evaluated, cash awards have already been made to seven employees (see page 7). This is an encouraging beginning and shows what can be accomplished when employees put on their thinking caps.

Details of the new program were outlined in the Suggestion System booklet mailed to all eligible employees prior to its effective date of June 3. In his introductory letter, Scovill president Malcolm Baldrige stated that the new plan offers increased cash awards for eligible ideas that are adopted and provides for the prompt review of all suggestions sent in by employees.

Opportunities for improvement are all around us, whether we work in  
*(Continued on Page 7, Column 2)*

## Sales, Profits Decline In First Six Months

Despite a strong recovery in the second quarter, first half sales and profits did not quite measure up to those of the same period last year. The financial report released by Scovill's Board of Directors at their meeting last Monday is summarized below:

	<u>First Six Months</u>	
	<u>1962</u>	<u>1963</u>
Sales	\$87,094,599	\$85,185,618
Profit After Taxes	2,362,043	2,273,670
Profits as a % of Sales	2.7%	2.7%

In commenting on the recently released report, President Malcolm Baldrige stated that "our first half sales and earnings, while not as good as in the same period last year, represent a considerable improvement over those of the last six months of 1962. Sales declined in the third and fourth quarters of last year and unusually severe price competition reduced profit mar-

gins seriously. This deterioration in profits made it necessary to reduce costs sharply.

"Lower costs and increased sales in the second quarter have reversed this downward trend in profits. First half profits of \$2,273,670 represent a return of 2.7% on sales, compared with the 1.6% profit return on sales in the fourth quarter of 1962, and the 2.3% profit return on sales in the first quarter of this year.

"Competition is not letting up," continued Mr. Baldrige. "Those companies who compete with us are working as hard as we are to achieve lower costs. Many of them are doing better than we are. Scovill is one of the 500 largest companies in the United States. In 1962, these 500 companies had an average profit of 5.9% on sales. Scovill's was 1.9%. We are making sound progress in the right direction but we still have a long way to go. Sales volume is important but it's profits that pay for company growth and provide job opportunities."

HEADING SOUTH OF THE BORDER—down Mexico Way.  
Sixty employees and members of their families took advantage of the SERA-sponsored Vacation Tour to Mexico

during the plant 2-week holiday shutdown period. Twenty-five others chose the 5-day (July 4th) trip to Atlantic City, also sponsored by the SERA.

# MEMO *from Management:*

## How "Big" Is Scovill?

How do you measure the size of a company?

Do you measure it by its dollar sales — by the number of people it employs — by the number of stockholders who have invested their money in its buildings and equipment—by the profit return on its sales—by the size of its weekly payrolls—by the number of tax dollars it sends to Washington?

While each of these measures has some significance, annual sales is the usual yardstick for comparing the relative size of individual companies.

Each year, in its July issue, FORTUNE magazine publishes a list of the 500 largest industrial organizations in the U.S., ranked in order of their annual sales volume. Scovill ranks 293rd in the new list just published, covering the year 1962. In other words, there are 292 industrial companies in the U.S. whose 1962 sales were larger than Scovill's.

Scovill is far down on the list, however, when it comes to the profit return on sales. In this respect, we ranked 423rd—which means that there were 422 companies in this group whose profit return was higher than our 1.9% profit on sales in 1962. The average profit (after taxes) for the entire list of 500 companies for the year 1962 was 5.9% of sales.

We think of Scovill as a "big" company because it is big in Waterbury—the largest employer and the largest taxpayer. However, Scovill is more than just the Waterbury Divisions—our other divisions and subsidiaries throughout the country and abroad have helped to place us in FORTUNE's Directory of the 500 largest industrials.

This listing places our company in the proper perspective. It allows us to see ourselves as others see us. It reveals that while Scovill is grouped with the larger companies in the U.S., we have fallen behind our companions in the profitability of our sales.

Sales dollars are important—they indicate the rate at which customers are buying our products. But it's the profit dollars that determine future growth, and future job opportunities.

Profit improvement demands, and is receiving, top priority. With a 1.9% profit on sales in 1962, compared to the 5.9% average for the 500 largest companies, it is quite evident that we have much to accomplish to achieve vitally needed profit margins. How well we do will show up in our own financial reports—and in next year's list of the 500 largest industrials.

## Woodtick Area To Close Labor Day

Another season of sun, fun and relaxation at the Woodtick Recreation Area will be brought to a close officially with the Labor Day weekend.

The extra warm days this summer have brought capacity crowds to the swimming area. The lifeguards will be there until Labor Day.

The Group Picnic Area is booked almost completely for the remainder of August and September already appears to be as busy.

The Children's Day Camp will close on Friday, August 30th.

## Employees Earn College Degrees

Interest in their present job responsibilities, and the desire for more learning and advancement of their business careers, has prompted many employees to continue their education. This calls for night-time study and many hours of traveling to and from school classrooms (usually two nights a week during the school term).

To date, we have heard of eight Scovillites who have attended such courses and, upon completion of the course this last June, were awarded associate degrees. There may be others; if so, we'd like to hear about them.

### New Haven College

#### 6-year Courses

*Andrew Lynch*, Planning Office.  
Assoc. Degree in Indus. Engineering

*Conrad Sansoucie*, Planning Office.  
Assoc. Degree in Indus. Engineering

*Stephen Sharka*, Blacksmith Shop.  
Assoc. Degree in Management

### Waterbury Evening Institute Kaynor Regional Tech. Inst.

#### 5-year Courses

*Leslie Coley, Jr.*, Plant Engineering.  
Assoc. Degree in Mechanical Technology

*Jerry DiPietro*, West Machine.  
Assoc. Degree in Electrical Technology

*Adrian Heche*, Planning Office.  
Assoc. Degree in Tool Technology

*Philip Rasmussen*, Closure Design.  
Assoc. Degree in Tool Technology

*Francis Urniezus*, West Machine.  
Assoc. Degree in Mechanical Technology

**Christopher Pedersen**  
Gen. Mfg. Div.  
Oper. Mgr. Office  
40 yrs—July 20

**Raymond Biron**  
Gripper Eyelet Tool  
25 yrs—June 23

**Melvin Nute**  
Electrical  
25 yrs—June 24

**M. L. Sperry, 2nd**  
Executive Ofc.  
25 yrs—July 17

**Alfred Swircenski**  
Chuckling  
25 yrs—July 16

## Service Anniversaries

**Kenneth Flisher**, Clos. Tool & Mach.  
25 years—June 20, 1963

**Edward J. O'Brien**, Steam Dept.  
25 years—June 21, 1963

**Victor Palladino**, New Milford  
25 years—July 1, 1963

**Ernest Lamontagne**, Trucking  
25 years—July 15, 1963

**Joseph Capaldo, Jr.**, Trucking  
25 years—July 25, 1963

**Paul Laliberte**, Mills Div.  
Norwood, Mass. Office  
10 years—June 8, 1963

**Sonia Rein**, Metals Research  
10 years—June 12, 1963

**Ibrahim Shehu**, Steam Dept.  
10 years—June 16, 1963

**Frances LeVasseur**, Chuckling  
10 years—June 22, 1963

**Thomas Fitzgerald**, Mfg. Eyelet

10 years—July 20, 1963

**Anthony Bruno, Jr.**, Trucking  
10 years—July 20, 1963

**James Cummings**, Relay  
10 years—July 20, 1963

**Charles Deluca**, Transportation  
10 years—July 29, 1963

## Pre-Vacation "B" Day Nets 156 Units

Employees of the General Manufacturing Division turned out in fine number on June 19th to donate a pint of blood in the second visitation of the Mobile Unit to Scovill this year.

Employees from other sections of the plant also participated — and a total of 156 pints of blood was collected in the SERA Building on that day.

Special donor pins were awarded as follows:—

4-gal.—Richard B. Harris

3-gal.—Raymond Ruby

2-gal.—John Mongillo

1-gal.—Raymond Steinnagle, Warren Baker, John Barth, Eileen Murphy

## Retirements

### Effective July 1, 1963

**GEORGE H. ASHMAN**. General Foreman, Closure Division — almost 22 years' service.

**MARK BACOTE**. Supply man in North Mill Finish — almost 39 years.

**JAMES BUXTON**. Pickle and water roll operator in Headed Prod., Gen. Mfg. Div.—13 years.

**EGIDE DUMONT**. Toolsetter in Rod Mill—almost 38 years.

**FREDERICK GAUDINEER**. Salesman, Cosmetic Container Div., located in New York Office—19 years.

**THOMAS J. GRADY**. Machine operator in Foundry—29.8 years.

**RAMADAN ISMAIL**. Productive helper in Rod Mill—almost 40 years.

**CARMINE LAMBERTI**. Repairman in the Box Shop—20.7 years.

**DOMENICANGELO MOBILIA**. Helper on slitters, Aluminum Mill — 28.1 years' service.

**JOHN J. MOORE**. Foreman in the Casting Shop—almost 45 years.

**JOSEPH SANTOPIETRO**. Hand dipper in Dip Room—26.9 years.

**THOMAS E. TAYLOR**. Jitney driver in the North Mill—over 31 years.

**JOHN J. THOMPSON**. Toolmaker in Blank & Draw Toolroom — almost 51 years' service.

### Effective Aug. 1, 1963

**MARIE ELWARD**, paint battery operator in Cosmetic—over 44 years.

**ROBERT MCHUGH**, Asst. Foreman in Casting—over 43 years.

**JOSEPH MORRONE**, toolsetter in Blanking—28.5 years.

**ROBERT NICOL**, crane operator in Casting—almost 41 years; retirement effective Aug. 5, 1963.

## New Assignments

### Closure Div.

**EDWARD F. DILLON**—District Sales Manager of the division's Dallas, Texas office. He replaces Mr. E. G. Overton who has retired.

### Cosmetic Container Div.

**FRANK W. NOACK** — Foreman of Dept. 61, Cosmetic Container Div. Manufacturing, in addition to his previous responsibilities as foreman of Depts. 346 and 347, Tool Rooms.

**EDWARD WILLHAUS**, formerly foreman of Dept. 61, is now connected with the Purchasing Department.

## Scovill Holds Open House

Approximately 2,000 employees and members of their families had a first-hand look at the equipment and skills necessary to produce brass and aluminum sheet when they toured our mill operations in the East Plant on June 12th and 13th. A group of Waterbury area clergymen made the same tour on June 18th.

Some of the highlights of these tours are pictured below:—Visiting clergymen are shown in the three top photos, while some of the employee-family groups are shown viewing mill equipment in operation in the center and bottom photos.

Our new aluminum production line was the first stop for the mill visitors. Recently installed at an approximate cost of four million dollars, this line fea-

tures a 2,500 horsepower "4-high" rolling mill. This mill is now rolling 13,000 lb. coils of aluminum from the new Alroll, Inc. plant in Oswego, New York, which Scovill owns jointly with three other companies.

Visitors then had the opportunity to view the Vertical Extrusion press which extrudes tube shells for final drawing into finished tubing at the New Milford Tube Mill. The tour then proceeded to the Continuous Strip Mill area to watch the processing of continuously cast 3,300 lb. brass bars into finished strip and sheet.

The tours were a great success, allowing mill employees to show their modern equipment in action and enabling our visitors to gain a better perception of what it takes to produce our quality mill products.

TRAFFIC ALERTNESS PREVENTS ACCIDENTS. *Whether walking or driving, employees know that traffic safety depends on keeping eyes and ears open in the plant (especially in narrow, crowded areas as above) and on the roadways.*

### In-Plant Traffic Safety

All day long plant vehicles and pedestrians pass close to each other, both in the plant and on the roadways. Within a year there are millions of such passings, many of them very close in the narrow, crowded areas.

These challenging problems have not prevented the plant from maintaining an excellent traffic safety record. There are two good reasons for the record:

1. The vehicle drivers know their jobs and what their vehicles can do—and they exercise constant thoughtful care and consideration of others.

2. Pedestrians are aware of the need to "Keep 'em rolling" and they, too, are considerate of the drivers.

Vehicles and loads are growing larger; pedestrian traffic is increasing.

## Scovill Bowlers

To the captains and secretaries of the various Scovill bowling leagues—it may be a bit warm to think of bowling at this point, but it is time to get notices out to your members, to organize your teams, and to line up schedules for the coming season.

Other Scovill employees, not now in organized leagues, but interested in bowling — either as a regular or as a sub — are invited to contact the Employee Activities Office. There may be openings in leagues in which you could participate. Call Ext. 834.

Now is the time to be sure to maintain the program of vehicle safety, being especially alert at the blind corner, narrow aisle, platform edge, squeeze point and vehicle which might back up.

### CENTURY OLD PRODUCT RETURNED TO SCOVILL

*Ernest Bryant, Casting, recently presented this old-time paper collar box to the Company. Made sometime in the 1850-1860's, it had been in his family for years.*

An interesting item and an example of the wide variety of products that Scovill has produced—records show that over 300,000 different items have been produced in its 161-year history — is this box, which was used to hold men's stiff stand-up collars.

These wooden boxes, originally manufactured by the S. Peck & Co. in New Haven, attracted the attention of Scovill because of the composition covers. Experimenting with plastics even at that early date (plastics were then made of varnish and wood powder, whereas today's plastics are synthetic), the Company felt these covers could be made by their "hot mould" process whereby the designs were stamped from dies under pressure in a steam heated press. They purchased S. Peck & Co. in the 1850's and moved the manufacturing equipment to Waterbury.

## Scovill Foremen's Club

### "—Out To The Ball Park"

Saturday, July 27th, will long be remembered by 41 youngsters, offspring of Club members, who accompanied their Dads to Yankee Stadium on that day for the season's top attraction—Old Timer's Day, with former baseball greats in a pre-game exhibition prior to the Yankees-Minnesota Twins game.

From the time they left at 9:00 a.m. until their return at 8:00 p.m., the day was filled with surprises for the youngsters. Travelling in an air-conditioned motor coach, they enjoyed box lunches, other refreshments en-route, and a snack-stop on the return trip.

### A Day At The Races

It's the wives who'll be treated on Saturday, August 24th. The Club has arranged for an air-conditioned Motor Coach to drive members and their wives to Lincoln Downs for a day at the races. Planned on a per-couple basis, the day will include stops for a snack on the way and for dinner on the return trip. Bus will leave from SERA at 9:00 a.m. Further details, and reservations, are available at the Employee Activities Office, Ext. 834.

The finished goods were sent to the Company's New York "store" which handled all sales. This particular box was sold to Samuel Scott & Co. of Tarrytown, New York. It was apparently designed to appeal to card players as the cover depicts the four suits of playing cards.

The manufacturing equipment was eventually turned over to the Waterbury Button Company and, today, the hand stamp press is an interesting display in the Industrial Museum of the Mattatuck Historical Society on West Main St.

PARTIES FOR JULY RETIREES. *Top photo:—Thomas Grady's co-workers in the Foundry gave him a warm send-off as he retired with almost 30 years' service.*

*Lower photo:—More than a half-century of service was brought to a close by John Thompson. His associates and co-workers in Blank & Draw Tool Room paid tribute to him prior to his retirement on July 1st.*

### Retired Folks' Picnic

The regular monthly meetings of the Scovill Retired Folks' Club will start again with the annual fall picnic to be held on Tuesday, Septem-

ber 10. It is slated for the Woodtick Picnic Area, weather permitting. Otherwise, the meeting will be held in the SERA Building.

Members are asked to meet at the SERA Building at 1:15 p.m.

### Your Social Security

Many people who have become unable to work because of illness or injury are running the risk of losing cash disability benefits because they do not apply for them promptly.

Even though disability insurance benefits have been payable under the Social Security Act for six years now, many people do not know that they must file an application to become entitled to benefits.

Disability benefits can be paid under the following conditions:

1. The worker must be unable to perform any kind of work because of an illness or injury.
2. The condition must have existed six months and be expected to continue indefinitely.
3. The worker must have been either employed or self-employed in work covered by the Social Security Act for 5 years out of the 10 years before the disability began.

In order to eliminate the risk of loss of benefits, the application should be filed promptly.

THANKS FOR YOUR HELP. *Local social service agencies, such as the Diocesan Bureau, Family Service, and the Jewish Federation, provide much needed family counseling services. Alone, or in cooperation with other agencies, they provide a wide variety of professional services which help strengthen family life and community well-being.*

*And, your United Community Fund pledge makes it all possible.*

### Girls' Club News

By Margaret Gorman

Vacation Notes:—Mexico was simply fabulous to *Henrietta Carisio*; *Rose Lacerenza* says California is just about "it" but *Betty Serendi* will settle for Florida. My own cruise to Bermuda and Nassau was just perfect. Others who remained in the Northeast included: *Marion Bernier* and *Ida Tibbets* in Maine; *Doris Burritt* in Rochester, New York; *Edith Carolan*, 1000 Acres, New York; *Rita Chevette*, New Hampshire and *Caroline Cannata*, Cape Cod.

FLASH! A picnic is being planned for Club members. The date—Wednesday, Sept. 11, at the Woodtick picnic area. Flyers will be sent out with all details but, meantime, be sure to save that date. There will be good food, games and swimming from 4:00 p.m. until dark.

It may be a bit warm still but our Bowling League Secretary *Elizabeth Buczak* is looking ahead to bowling days. She announces that the Club League resumes its annual bowling season on Thursday, Sept. 5th. For regular bowlers she says no notification is necessary to be registered again. However, if you are not planning to bowl this year, please call her by August 23rd. Others interested in joining the league, even just to sub, are asked to call *Eliz* at Ext. 833.

## Fishing Notes

By Mike Cicchetti

Another exciting day for all participating was the annual Children's Fishing Contest held on Saturday, June 22nd. Prizes awarded went to:

3-6 age group:—1st prize—Joan Aleksinas, 5 sunfish.

7-9 years:—1st prize — Michael Aleksinas, 11 sunfish, largest 7½"; 2nd prize—Charles Sauer, 11 sunfish, largest 7"; 3rd prize—Paul Weber, 1 sunfish.

10-12 years:—1st prize—Jim Heronovich, 2 bullheads; 2nd prize—Ed Mastrianno, 5 perch, 1 sunfish.

13-15 years:—1st prize—Kim Nisbet, 8⅞" perch, 8 sunfish; 2nd prize—Eleanor Aleksinas, 5 sunfish, largest 7⅝"; 3rd prize—Bill Tooker, 19 sunfish.

Among the grown-ups, Les Hart reports "large" catches during July:—Joe Shatinsky, 20½" bass; Neil Gran-oth, 19⅞" pickerel; Mike Cicchetti, 13⅞" perch.

**LOST AT WOODTICK.** John Kolesnik suffered the loss of a valued item. He landed a beautiful 7½ lb. bass, hooked it onto his string, landed another bass—a 5-pounder, drew up the string to add it to the first fish—but, no first fish! 'nuff said.

Got your ticket to the annual outing set for Saturday, August 17? Better hurry. A day with lots of activity and plenty of good food are being provided by the committee.

## Obituaries

**EILEEN NEWELL** died on May 30, 1963. Nurse in Scovill hospital, 2nd shift—almost 20 years' service.

**GEORGE LEGGETT** died on June 4, 1963. Mechanical Superintendent when retired in October, 1946—46 years' service.

**EDWARD PAIGE** died on June 13, 1963. Asst. Foreman in New Milford Tube Mill—over 32 years.

**CARL WITZMAN** died on June 16, 1963. An oiler-beltman in Milling & Grinding—over 18 years.

**EUGENE DONOVAN** died on June 19, 1963. Foreman in Buff 3 when retired in August, 1953—32 years.

**JOSEPH BIRON** died on June 24, 1963. A toolmaker in Gen. Mfg. Tool when retired in June, 1958—almost 35 years' service.

Warren Tice  
Screw Mach. Tool  
\$221.00

George Nix, Jr.  
Cosmetic  
\$135.00

Joseph Lombardo  
Welders  
\$60.00

## Suggestion Awards

(Continued from Page 1, Column 1)

the factory or in the office. The new Suggestion System, with its higher cash awards, makes the submission of good ideas more profitable for individual employees as well as the company.

Don't delay—write down your ideas and suggestions and send them in today. Your name may be included in the list of next month's winners of cash awards.

**THOMAS KEARNEY** died on June 26, 1963. A conveyor operator in the Strip Mill when retired in January, 1956—over 33 years.

**RAYMOND MALIA** died on July 13, 1963. A grinder in Closure Tool Machine Room—22 years' service.

**ALBIN STREED** died on July 14, 1963. A milling machine operator in Milling & Grinding when retired in September, 1952—over 40 years.

**GIUSEPPE SANTORO** died on July 18, 1963. A solution maintenance man in the Tube Mill (Waterbury) when retired in November, 1954—34 years.

**THOMAS MCKENNA** died on July 23, 1963. A die-maker, leadman in the Wire Mill—31 years' service.

**WILLIAM PALMER** died on July 26, 1963. A toolmaker in the Waterville Div. Tool Room when retired in May, 1947—26 years' service.

**BENNY MARINELLI** died on July 30, 1963. A boiler room helper in the Steam Dept. when retired in February, 1960—over 20 years.

**RAFFAELE PAGLIARI** died on August 3, 1963. A rolls pickler in the North Mill when retired in May, 1954—over 20 years' service.

Warren Tice received \$221.00 in June as final payment on a suggestion accepted a year ago. The initial award was \$100., making a total award of \$321.00 for his suggestion.

George Nix received a partial payment of \$135. The total award, based on savings on a one-year basis, is estimated at \$306.00.

Joseph Lombardo also received an initial award. His \$60.00 was based on a total award estimated at \$240.00 on a one-year basis.

### \$62.00 Award

Kasimer Pernerewski, ASMD Tool

### \$25.00 Award

Robert Pomeroy, Hot Forge  
Kathleen J. Sileo, Tabulating

### \$20.00 Award

Anthony Butnor, Strip Mill

## Letter of Appreciation

Francis Minnehan, Gripper Eyelet Tool; Henry Lefevre (3 suggestions), George Bezuhly (3 suggestions), Continuous Strip Mill; Arnold Shiller, Tool Engineering; Simone Messino, Single Spindle Screw Machine; Joseph Polakowski, Gripper Eyelet; Robert Vander Eyk, Manufacturing Eyelet.

Hazel Hickson, Lacquer; John Trainor, Pipe Shop; Mary Winslow and George Nix, Cosmetic; Theodore Zotto, John DeBlasio, Jr., and Joseph Drost, Hot Forge; Alice Rompre, Planning; Josephine Byrolly, Executive Ofc., Richard McCarroll, Tabulating; Michael Farrar (3 suggestions), Auditing Dept.

## For Sale

Dutch Maid white enamel stove, gas/oil, 2 ovens, \$100; 2 lamps, \$5 each; round oak dining table, 5 chairs, \$10; walnut dresser, \$20. 753-2542.

New Dormeyer mixer with juicer and meat grinder attachments, never used, \$25. 753-1443.

Portable 10' x 16' heavy marine plywood cabin, double bunk iron beds, new tarpaulin roof, 2-plate gas stove. 758-9048.

Furnished cottage, with 3 lots, near beach. Ideal spot for children. \$4,800. 754-1708.

5-room split level house, 51 Ann Ave., 75' x 150' lot. Built-in oven, aluminum storm windows and screens, triple insulated attic, \$13,500. 274-3329.

White cast-iron Magee stove, gas-oil, excellent condition; may be converted to coal, equipment for change available. 755-6424 or 754-9182.

1960 Triumph motorcycle, 500 c.c. twin, \$475. 756-8224.

Go-cart with 4 hp engine: new clutch, brakes, 4 new racing slicks; \$175. 755-7187 after 3 p.m.

12' aluminum boat and trailer; 5hp outboard motor; Crosley Shelvador refrigerator; 24" Magic Chef gas range; cement flower pots and bird bowls; 3-pc. parlor set; dining table and china closet, bedroom furniture. 274-2942.

15 cu. ft. Amana upright freezer, like new; 11 cu. ft. Crosley Shelvador refrigerator, good condition; odds and ends, HO train equipment. 879-0104.

1959 Dodge panel truck, like new. 274-3329.

Westinghouse 40" electric range with warming oven. Week days, ext. 601; other times, 729-2624.

1954 Ford-6, automatic 4-door, good condition; 6 new tires and seat covers; \$150. 879-1760.

9'4" x 9'4" tent, can be attached to station wagon; screens on doors and windows; has floor; large canopy or dining area, 12' x 16' with telescoping poles all through; dining area comes with sides. Excellent condition and clean. 753-5620.

Books for Sacred Heart High School, 2nd year. 879-2387.

12' x 30' portable cabin, fully equipped. Can be seen at Hammon-asset State Park, Dowd's Lot #57. 754-6863.

4-room house; 5 years old. Closed-in porch, hardwood floors, large kitchen, tiled bath and kitchen, oil furnace heat, artesian well. Very good condition. 753-5620.

Refrigerator, with small freezer unit, \$45; walnut china closet, \$20; side arm gas heater, \$10. 753-8122 after 2 p.m.

18" gas reel power mower; 24" jig saw. 755-3772.

1962 Chevrolet Impala. 754-9650.

Shetland sheep dog (toy collie) puppy, 8 weeks old, AKC registered with papers, male, tri-color; 4 bird cages and stand. 272-4506.

1959 Chevrolet, 6-cylinder, automatic transmission, radio, heater, excellent condition, \$900. 753-0666.

Family jewels: 18-k pocket watch, 14-k pocket watch, antique chain, strap watches, other items. 755-6284 after 4 p.m.

Frigidaire washing machine, all-porcelain inside and outside, good condition, \$75. 755-9337.

High chair, playpen, baby carriage, stroller, bathinette, crib, bird cage with stand, student desk. 756-0682.

Gas conversion heater for furnace (Bryant) 500 to 600 feet of radiation, used 6 months, \$35. 754-4913 after 5:30 p.m.

Beautiful building lots at Mountain View Club now being developed at Lake Dunmore in Vermont; either with or without a cottage of your choice. G. T. Underhill, Westwood Road, Woodbridge, or 352-4234.

Forced warm air furnace with oil burner and controls; 90,000 btu, package unit 4 years old, \$125. 755-7567.
