

SCOVILL BULLETIN

JUNE, 1963

Published by Scovill Manufacturing Company for its Employees

New Suggestion System Begins

Scovill has established a new Suggestion System to encourage employees to submit constructive ideas and suggestions. Under this system, which became effective June 3, all hourly and piecework employees and all "D" (non-exempt) payroll employees of the Waterbury divisions, including New Milford, are eligible to receive cash awards for suggestions that can be put into use.

There is no maximum limit on such cash awards. Where savings are measurable or tangible, the cash award will be 15% of the net material and direct labor savings for the year following the effective date of the improvement.

A booklet outlining details of this new system has been mailed to employees' homes. In his introductory letter on the inside cover of this booklet, President Malcolm Baldrige stated:

"This new and improved Suggestion System offers increased cash awards for eligible ideas that are adopted, and provides for the prompt review of all employee suggestions.

Employee-Family Open House

Scovill employees and their families will have the opportunity to tour the new Aluminum Sheet Mill and the Continuous Strip Mill in the Waterbury East Plant.

The Open House will be held on Wednesday and Thursday, June 12 and 13, between the hours of 1 and 6 in the afternoon. Children of high school age, accompanying their parents, will be welcomed on the tour.

Tickets for the Open House can be obtained from the Receptionist in the Employee Relations Building on East Main Street, or at the Silver Street

"Your help is needed to exist in today's competitive market. Scovill must draw upon all of the talents available to it, in the factory and in the office, to lower costs, improve our products, and provide the best in customer service. To be successful in these efforts is true job security.

"There is no limit to the opportunities for improvement that exist in the things that we do each day. I feel sure that the revised procedures outlined in this Booklet will make it easier and more rewarding for you to submit helpful suggestions."

Gate in the East Plant. The tour will begin at the Woodyard Gate on Hamilton Ave. and parking facilities will be provided.

Touring Scovillites will first visit the new Aluminum production line, recently installed in the Waterbury plant at an approximate cost of 4 million dollars. This line features a 2,500 horsepower "4-high" rolling mill with associated annealing and slitting equipment. Visitors will see this new equipment process 13,000-Lb. coils of aluminum from the new Alroll, Inc. plant in Oswego, New York, which Scovill owns jointly with three other companies.

Visitors will then view the giant Vertical Extrusion Press which produces tube shells for final drawing into finished tubing at the New Milford Tube Mill. The tour will then proceed to the Continuous Strip Mill to watch the processing of 3,300-lb brass bars into finished strip and sheet on highly specialized equipment which is as modern as any in the industry.

Scovill mill employees have every right to be proud of their excellent equipment. This Open House allows them to show it in action to other members of the Scovill family. You are cordially invited to attend.

THE PLANT . . . this new Aluminum Hot Mill in Oswego, New York, was built by Alroll, Inc., which is owned jointly by Scovill, Aluminium Limited, Cerro Corporation, and National Distillers and Chemical Corporation. The heavy gauge aluminum it produces is processed in our Waterbury plant and at the plants of the other partners before shipment to the customers.

THE PRODUCT . . . this 13,000 pound coil of aluminum being checked in by John Daniels of Aluminum Production, was hot rolled by Alroll, Inc. in Oswego, N. Y. It will be cold rolled in Waterbury on our new \$4,000,000 aluminum production equipment.

MEMO *from Management:*

A Good Idea — For You And For Scovill

Competition may not be as apparent in the office or in the factory as it is on the golf course or the baseball diamond. In our business, we do not see our competitors face to face. But each one of us at Scovill has a competitor, doing the same type of work at another company, in this country or abroad.

Even if we realize how personal this competition can be, we often wonder what to do about it. "What can *we* do to improve the Company's competitive position—to help safeguard our jobs?"

The new Employee Suggestion System outlined on the front page of this issue provides us with an opportunity to help the Company and to help ourselves. It recognizes that no company can do its best without the whole-hearted support of its employees, in all activities and in all departments.

Scovill is in business today because someone had a good idea in 1802, along with the courage and perseverance to transform this idea into a reality. Good ideas and suggestions are just as vital today. There is no limit to the opportunities for improvement that exist in our daily jobs. Your help is needed to discover them. No one knows your job better than you. Our new Suggestion System makes it easier and more profitable for you to submit your ideas — and, there is no limit to what you can receive for a good idea.

Woodtick Open For Season

Memorial Day, May 30, marked the official opening of Woodtick Recreation Area for its 18th season.

Employees of the Waterbury (including New Milford) and Oakville divisions — active and retired — and members of their families, will enjoy again the finest of recreation facilities available in the area at a nominal cost.

At the Swimming Area, in beautiful surroundings, the lake, the bathhouse, the sandy and the grassy areas have all been cleaned up and readied for use. Qualified lifeguards are on hand to keep a watchful eye on the bathers.

The family picnic area, under the shade trees, is equipped with tables and fireplaces, as well as slides, seesaws, merry-go-round, and swings for the youngsters. Ample free parking space is provided in the lot across from the swimming area.

The Group Outing Area is well equipped with a shaded pavilion, ta-

bles, fireplaces and games equipment. Group outings are scheduled by the Employee Activities Office. Be sure to call them early for your reservation.

Because of the expected increase in attendance this summer, passes will be checked, so it is cautioned that passes be carried whenever one may be going to the area.

Employees have received their own regular pass at their work places. They have received application blanks also with which they may request Associate Passes for their immediate families.

The SERA Children's Day Camp opens on Monday, July 1st, and will be operated through August, 1963. It will be open during the two-week vacation shutdown period. All employees' children and grandchildren — boys from 6 to 12 years, and girls from 6 to 10 years old — may attend. Further information and application blanks are available at the Employee Act. Ofc.

Employee "B" Day Set For June 19

Summer is almost upon us—we're all looking forward to vacations and many other pleasing events. But, let's take a moment to realize that there is also the possibility of unpleasant happenings, even tragedies, which could mar these happy occasions.

Accidents and sicknesses do not take vacations and, so, we must be prepared for sudden emergencies. Our Blood Program must be kept operating in the event of such emergencies where blood is needed immediately to save a life. It could happen to you—or to one of your loved ones. Let's be sure we have done our part to keep the supply of blood available.

The Blood Mobile Unit will be set up in the SERA Building on Wednesday, June 19, from 1 to 5 p.m. It's pleasant and cool in the building, and the efficient staff of registered nurses and trained aides will process you as quickly as possible.

While the visitation is set primarily for employees in the General Manufacturing Division, because of the importance of having enough blood available during the summer months, other employees in the plant are invited to participate. If pledge cards are not available in your department, a call to the Employee Activities Office will bring one to you.

Credit Unions Vacation Schedules

Credit Union #1—not operating during shutdown. Dividend will be declared as of June 30. All books will be collected from boxes by 9 a.m. on Friday, June 28. Loan applications must be in by noon on Wednesday, June 26. Please plan deposits and withdrawals before June 28.

Credit Union #2—not operating during shutdown. Loan applications and withdrawals to be in by noon on Wednesday, June 26. Last day of business—Friday, June 28.

Credit Union #3—not operating during shutdown. Loan applications to be in by noon on Wednesday, June 26. Last day of business—Friday, June 28.

Credit Union #4—no business will be conducted during the first week of the shutdown. Treasurer John Carolan will be available on Monday, July 8, and Friday, July 13. Dividend will be declared as of June 30.

BULLETIN Schedule

The *BULLETIN* will not be published during the month of July.

The next issue will be mailed on August 5th.

SCOVILL DRIVERS RECEIVE SAFETY AWARDS. *Front center: Director of Traffic Arthur M. Rogers presents 15-year safe driver awards to Leonard Campoli and John Valaitis. Left of Mr. Rogers is Hervey Chevrette, Scovill insurance administrator who handles the fleet safety program. At Mr. Valaitis' right is Fred Haesche, the insurance company's safety engineer. Others in the picture also received safe-driving awards for varying periods.*

Safe Driving Records Recognized

Nineteen members of the Traffic Dept., whose duties require the full time operation of a motor vehicle, were awarded safe driver lapel pins and certificates recently. The awards are made by Liberty Mutual Insurance Co.

Many of the men have longer safe driving records, but as available statistics date back only to January 1, 1948, the awards are made as of that date. One year is deducted from the driver's record for each avoidable accident involvement.

The awards to Leonard Campoli and John Valaitis represented perfect driving records for 15 years.

Other drivers who have been driving for lesser periods have also maintained perfect records, as follows:—Robert Blackburn, 8 years; Truman Wagner, 7 years; Lawrence Wright, 3 years; Edward Byron, 1 year.

Other award recipients were:—14 years—George Bouffard, Gabriel Ciasullo, Real Gravel, John Orsini, Michael Christiano, Michael Testa, Elwood Whiting, Jr.

13 years—Antonio Ranaudo, Edward Walsh, Milton Wyrick, Anthony DiMartino; 12 years—Antonio Familietti; 4 years—August Fabiani; 3 years—Frank Fino.

Training Course

MACHINIST. *Patrick Brick was graduated as of May 24, 1963, and has been assigned to Multiple Spindles, Davenport section.*

10 Stay-Cool Tips To Help Your Heart

By Robert W. Butler, M.D.

Summertime is vacation time and, as this is the last issue before the vacation shutdown, now is a good time to pass along to you some excellent suggestions of the American Heart Association to keep you healthy this summer.

Whether you're planning to catch up on gardening and home repairs or sight-see your way cross-country, a few precautions will help assure that your vacation is both happy and healthy. If you're of an age when a nap in the shade seems more inviting than a fast triple-play, it's particularly important to heed heart-saving tips.

1. Start slowly on vacation work or play if, like most Americans, you spend most days at a machine or sitting behind a desk and evenings in front of TV. Give yourself time to adjust to new activity.

2. Stay aware of the weather. Don't try to work or play as much when it's hot and humid. When temperatures soar, your heart automatically works harder to cool and hold an even body temperature.

3. Use your head to save your heart. Plan the easiest way to do a job. Prepare to outthink your son on the tennis court rather than outrun him.

4. Work or play at a steady unhurried pace that suits you.

5. Take plenty of short rests rather than fewer long ones.

6. Don't strain yourself and your heart by underestimating the effects of age or overestimating your own strength. Get help for big jobs if you're spending your vacation on do-it-yourself projects. Remember, it's better to lose a few points on a game score than spend several sick weeks in bed.

7. Dress for summer work or play. Wear clothing that is absorbent, loose-fitting, light in color.

8. Pay attention to warning signals like shortness of breath, tired muscles, dizziness or fatigue. They are the body's way of telling you to slow down.

9. Watch what you eat. When it's hot, eat lighter meals with fewer spicy, heavy or fat foods. Go easy on iced drinks; often they just make you feel hotter.

AUTOMATIC COVERS STOP FIRES. A fusible link (circle insert), held together with solder-like metal, melts quickly in a fire, breaks the chain holding the cover open and lets the cover fall shut, cutting off oxygen, thereby smothering and putting out the fire.

Automatic Fire Safety Covers

Metal containers are used throughout the plant to store flammable liquids or oily rags. Automatic fire covers have been provided for added safety. A small link is the key to stopping fires quickly. It is a fusible link, part of the chain which holds the cover open. However, to have it work properly, it is necessary to be sure it is properly hooked up and unobstructed.

Automatic covers will stop fires, IF:—

10. For most people, salt lost in summer perspiration is quickly restored by an extra sprinkle of the salt shaker at mealtime. Salt pills should be taken only at your doctor's suggestion. If you're on a salt-restricted diet, call your doctor before adding or subtracting.

While you're on vacation, remember that your heart doesn't get time off with pay. It makes sense to help your heart the year around. The basic rules are simple and easy to follow:

Keep physically fit with moderate daily exercise.

Get your weight down to normal if passing years have added extra pounds.

Learn to handle emotional stresses. Minor irritations are best overlooked. Big problems can be made smaller by talking them out with the right person.

1. The link in the chain is where the fire can heat it—that is, on the fire side of the cover.

2. The cover is at an angle to fall, and held open only by the link and the chain.

3. There is no obstruction to the cover, such as a stick or drain board.

Your Social Security

Don't wait until you retire to find out about your social security; do it now. Security consists not only of receiving benefits when due, but also being certain in advance that the necessary credits are there to make future payments possible.

Records of the Social Security Administration are confidential but upon request, a social security account number holder will be given a statement of the earnings credited to his social security account. A postcard form for this purpose is available in the Bulletin Office.

Also available is a new booklet, no. 93, "Your Social Security Earnings Record," which contains up-to-date information about benefits and eligibility requirements.

By checking up on your account you can make certain that you have all the work credit due you. If an error has been made, the social security office will help to correct it.

Fishing Notes

By Mike Cicchetti

The fishing contest, for members only, held on May 4th and 5th saw some nice catches measured in, with Lee Graham capturing 1st prize in four categories:—14¾" bass, 20" pickarel, 11½" perch, 12½" bullhead.

Other prize winners were:—Vinnie LoCurto, 12½" trout; Harold Henriksen, 12" trout for 2nd prize; Bob Fumire, 10½" perch; Stanley Jacovich, 12¼" calico bass.

Stocking and fertilizing are being continued at the area. On May 9th, 200 brown trout, ranging from 12 to 14 inches, were put into the swimming area.

As this is our last issue before vacation, be sure to jot down these important dates — full information will be distributed prior to each event:

Tues., June 18—regular monthly meeting of the club will be held at Les Hart's place.

Sat., June 22—the Children's Fishing Contest

Sat., Aug. 17—the annual summer outing of the club

A note of caution for all fishermen—if you hook an undersized fish, please "wet your hands" before handling and release the fish gently. Give it time to grow to a worthwhile size. Happy vacation, and a tight line to all you fishermen and women.

TROPHIES FOR BIG-PIN LEAGUE WINNERS

Top photo:—Champion Team of the Season (Mill Sales) accepts trophy from League President Andrew Raeburn. Team members include Captain Grayson Wood, Wayne Johnson, John Danaher, John McGovern, and Joseph Burke.

Bottom:—1st annual sweepstakes of the league—winners Peter Petruskas (holding high single trophy) and Bernard Commerford, accepting high handicap trophy from Maintenance Captain Team Robert Piersall. William Lanzoni, 2nd place winner, stands at right. Trophies were donated by Lakewood Lanes.

Big-Pin League Season Wind-Up

The Scovill Big-pin bowling league completed a very successful second season recently. In a closely contested roll-off, the Mill Sales Team (winners of the 2nd round) defeated the Main-

tenance Team (1st round winners) to capture the season's title.

Teams in this first big-pin league to be organized in Scovill were:—

Maintenance—R. Piersall, Capt.
Casting Shop—A. Raeburn, Capt.
Mill Sales—G. Wood, Capt.
ASM Tool—B. Commerford, Capt.
Rod Mill—A. Tracy, Capt.
Red Devils—F. Carangelo, Capt.
Scrap Room—D. Scopino, Capt.
Mill Prod.—R. Cullen, Capt.
Metals Res.—W. Bradford, Capt.
Gripper Eyelet—A. Lynch, Capt.

Sweepstakes Tournament

In the first annual sweepstakes of this league, 48 entries rolled 4 games, with winners listed as:—

High Handicap—Bernard Commerford, 876; William Lanzoni, 847; Dave Scopino, 837; George Petrobavage, 821; William Baker, 803.

High Scratch—M. Zingarelli, 727.

Doubles Surprise—Dave Scopino with 837, and Henry Mastrianno with 798, for a total of 1635.

High Single—P. Petruskas, 222.

All league and sweepstakes prizes will be awarded at the clambake scheduled for Sunday, June 23, at Woodtick.

THANKS FOR YOUR HELP. Summer camps, such as Nathan Hale Camp sponsored by the Salvation Army, provide a happy, healthful summer for many of our children. There are camps also, with necessary therapy, for the handicapped.

Swimming is such fun, and healthy too—and youngsters learn to do it safely through the Red Cross Water Safety Program.

Of course, the summer camping programs are just one of the wonderful services provided by these agencies to people of all ages in our community. And—your United Community Fund pledge makes it all possible.

MAY RETIREES FETED BY CO-WORKERS

(1) *The Closure Tool Room marked the closing of 101 years of service with the retirements of: Francis Maher (24 years' service), Floyd Holden (41 years), and Thomas Shea (36 years).*

(2) *The Closing Room's two retirees' combined service totalled over 67 years — Angeline Pesce, 40 years; and James Wallace, over 27 years.*

(3) *In the Blank and Draw Tool Room, Bruno Grocholl recorded 32 years.*

(4) *In Press 2, Vito Nardoza's record was tops—almost 45 years.*

Retired Folks' Summer Picnic

The annual summer picnic of the Retired Folks' Club is scheduled for Tuesday, June 11th, at Woodtick.

Members are asked to meet in the new SERA Building at 1:30 p.m. Those who will be driving and have room for additional passengers are asked to

stop at the building to take along some of the other members. Transportation will be provided for the others.

In case of inclement weather, the meeting will be held in SERA Building. This is official notice of the meeting, no cards will be sent out.

Retirements

Effective June 1, 1963

HUBERT CONNELLY, japanner's helper in the Japan Room—over 43 years' service.

LOUIS HYCHKO, maintenance man in Sanitation—over 34 years' service.

JOSEPH KERRIGAN, caster's helper in the Cast. Shop—26.4 years' service.

NETTIE MURPHY, assembler in Tank Fitting—10.9 years' service.

EVERETT G. OVERTON, District Sales Manager Closure Division, located in Dallas, Texas — almost 43 years' service.

JAMES F. SHANAHAN, Superintendent of the Rod and Wire Mills—38 years' service.

Fourth of July Weekend Trip

The SERA is working on arrangements with a local travel association to set up a long week-end trip for employees who won't be travelling too far away during the vacation shut-down.

Tentative plans are for a trip to Atlantic City, leaving Waterbury on Wednesday, July 3rd, with four nights at the resort city, and returning on Sunday, July 7th. As soon as details are worked out, flyers will be distributed.

Credit Union No. 4 Silver Anniversary

Scovill Manufacturing Company Unit #4, Federal Credit Union #2790 is celebrating its 25th year of activity and, in celebration of the anniversary, its officers are planning a gala event.

They have arranged to offer to Credit Union #4 members only, a complete \$3.50 smorgasbord dinner for the price of 90¢ per ticket at the Golden Crown Restaurant, 1040 South Main St., adjacent to the All-Star Lanes of Waterbury bowling center.

The date—Sunday, July 21, 1963. The time—4:00 to 8:30 p.m.

Tickets are available now. Contact any of the following officers:—Harold Stieler, Millwrights; Henry Carisio, Elec. Dept.; John Carolan, Bldg. 112; Margaret Sheehan, Bldg. 71-4; Edward Willhaus, Bldg. 112; Thomas O'Dea, Robert Weber and James Burkle of Engineering; John Carey, Fuze A; Fred Angelone, East Machine; Francis Steponaitis, Millwrights; John Capone, Tin Shop.

Girls' Club News

By Margaret Gorman

President Violet Dander announces her committees for the year:—

Entertainment—*Edith Carolan*, chair-lady; *Caroline Cannata*, co-chairlady

Membership—*Della Riccio*

Retired Members — *Della Riccio*, *Clo Read*

Christmas Activities—*Evelyn Smoil*, chairlady; *Betty Colbassani*, co-chair-lady

Sick Committee—*Virginia Doolin*, *Betty Colbassani*

BULLETIN Reporter — *Margaret Gorman* (incidentally, my extension is 2111—if you have any news of interest about yourself or any other Club member, please don't hesitate to call me.)

A hearty welcome to new members:—*Gloria Andreano* of our Oakville Division; *Emma Doffin* and *Theresa Saturno* of Cosmetic Assembly; *Ruth Cavanaugh*, General Acct.; *Elaine Daniele*, Chucking; *Margaret Shea*, Packing B; *Virginia Fountain*, *Mary Mastrianni* and *Pauline Holland*, Fuze.

Our annual banquet was again a tremendous success. The sun shone brightly on this gala event, over 300 of our active members and 60 retired honorary members looked extremely glamorous in their best and colorful finery. Head table guests included Mr. and Mrs. S. T. Williams, Mr. and Mrs. J. Milton Burrall, Mr. and Mrs. Anthony Sebastian, Mr. and Mrs. Robert Fumire, Mr. Hemingway Merriman, Rev. Dr. M. Long of St. John's Episcopal Church who gave the invocation and benediction; and Rev. Robert Keating of St. Jude's Church, Derby, who was his usual wonderful self as an entertaining speaker as well as delivering an inspiring message.

Very much missed was Mrs. George Goss, Sr., one of our most staunchest supporters and an attendant at our banquet for many years. We sincerely hope that she has fully recovered from the illness which kept her away.

This being the last issue before vacation shutdown — the Council wishes for all of you a happy and safe vacation. If you're interested in a Club picnic or outing during the summer months, contact the Entertainment Committee, or your nearest Council member.

Again this year—thanks to your dues and the purchases by all employees of our Christmas items—several of our less fortunate youngsters will be able to attend the SERA Day Camp.

RECENT VISITORS TO MILLS. A tour of our Mills division was the highlight of the "Connecticut Day" program of the American Metal Stamping Association held recently. Approximately 100 members of the New England District of the association were greeted in the Display Room by Board Chairman S. T. Williams and President Malcolm Baldrige, prior to their guided tour of our Casting Shop, Continuous Strip Mill (brass) and the new Aluminum Rolling Mill.

Obituaries

MILDRED E. ROCKWELL died on April 29, 1963. Secretary in our Providence Office when retired in May, 1956—29 years' service.

JOHN KENNEDY died on May 8, 1963. A machinist in West Machine when retired in October, 1961—over 25 years' service.

GERALD RICCIARDI died on May 11, 1963. A maintenance repairman in Millwrights—over 24 years.

JOHN F. MCCARTHY died on May 12, 1963. A billets classifier in the Rod Mill—47 years' service.

JOSEPH PERSIO died on May 17, 1963. A maintenance repair man in Casting when retired in May, 1954—almost 39 years' service.

LOUIS HEUSER died on May 18, 1963. A metallurgical technician in the New Milford Tube Mill—one year.

MARY MULHOLLAND died on May 23, 1963. An assembler in the Waterville Assembling Dept. when retired in January, 1955—over 50 years.
