JUNE, 1965

*Published by Scovill Manufacturing Company for its Employees*

SUGGESTION WORTH \$262 TO BENJAMIN BANNICK. Foreman John Mitchell (left) listens attentively as Mr. Bannick explains his idea of utilizing cartons which had formerly been discarded. He's in Mfg. Work in Process Stores.

## Recreation Program Wins National Award

Scovill has been cited by the Helms Athletic Foundation as having the best employee recreation program in a firm with 1,000 to 5,000 employees during the past year.

The award, given yearly by the Helms Athletic Foundation, in association with the National Industrial Recreation Association, was presented to Fred A. Wilson, Manager of Employee Activities, at the 24th annual meeting of the NIRA in Milwaukee.

In making the award, Charles E. Bloedorn, newly elected president of NIRA, of the Goodyear Tire & Rubber Company, Akron, Ohio, cited Scovill for the variety of its employee recreation activities and for impressive participation increases among employees during the past year.

Fred Wilson was elected a director and a vice president of NIRA at the same meeting. Scovill has been a member of NIRA since 1944.

In receiving the award, Fred Wilson noted: "The winning of the coveted Helms Award is a tribute to the men and women who have served through the years on the Boards of Directors of

## Letter of Appreciation

Joseph Arnone, Millwrights; Ted Szczepanski, Hot Forge; Edward Fredericks, Addressograph; Frank Bisialski, Cosmetic Container Manufacturing; Blair Howell, Auditing; Thelma Grant, Julia Stack, Ruth Cavanaugh and Florence McEvoy, all of Central Accounting.

the various Scovill recreational organizations — the SERA, the Foremen's Club, the Girls' Club, and the Rod & Gun Club. It was their planning, hard work and time devoted to the promotion and growth of recreational facilities and programs for employees and their families which have made our program worthy of national recognition."

## PRD For Bond Buying Offered To Employees

Scovill employees will be offered the opportunity to increase their savings through the purchase of U.S. Savings Bonds by payroll deductions.

During the 2-week period, June 14 - 25, employees in the Waterbury Divisions and Services will be asked to join the payroll savings plan or to increase the participation of those already in the plan.

Organizational meetings to set up the program in the plant will be held on June 14, 15, 16, and 17. Department foremen and stewards will be briefed on the program and a U.S. Treasury Dept. representative will be on hand to help outline the plan and distribute material for employee solicitation.

Although the drive is being conducted this month, payroll deductions need not start until after Labor Day.

## Practical Patriotism

As part of a community effort from coast to coast, thousands of companies like ours will rally behind the Treasury's 1965 nationwide "Star-Spangled" campaign for U.S. Savings Bonds.

In a recent meeting with industrial and business leaders on plans for the campaign, President Johnson asked for the support of all Americans in this patriotic effort. He described Savings Bonds as "the safest, soundest and most successful investment in the world".

In his official statement, Governor Dempsey noted "the theme for the payroll savings plan is "Practical Patriotism! Purchase of Savings Bonds provides virtually all employed citizens an opportunity to share in reinforcing the economic strength of our nation. Aside from patriotic interests, Savings Bond payroll deductions represent an ideal means of practicing the virtue of thrift and providing funds for future needs."

## As Others See Us

Who said individuals, organizations, and towns can't work together cooperatively in attracting new industry into an area? The 13 towns in the Central Naugatuck Valley Region proved that it can be done — and it was a magnificent effort.

On May 19th and 20th, approximately 70 industrial brokers — the people who sell real estate to companies looking for new locations — toured the Central Naugatuck Valley region. The purpose was to convince these brokers to locate new companies here by showing them that we have one of the best regions in which to live and do business.

Naturally, the visitors were shown all of the good land available for new industry. And they also had the opportunity to see our schools, municipal buildings, new highways, redevelopment areas, shopping areas, hospitals — and, above all, our unsurpassed recreational areas. The tour was a great success — even the weatherman cooperated with sunny skies.

Scovill President Malcolm Baldrige was among those who talked to the group about our many advantages. He noted that the millions of dollars spent by Scovill on improvements was the best evidence of our faith in the future of this area. Mr. Baldrige also stated that he was most impressed by the growing accessibility of our region, its great wealth of skills and specialized services for industry, and the new spirit of aggressiveness and confidence of its people.

Our visitors were lavish in their praise of what they saw. "The roads in this region are out of this world," commented one broker. Another stated, "You are really blessed here. You have a particular type of skill. You don't sit back and rest on your laurels. You have aggressive leaders who have had the foresight to bring these people here on this tour."

Another tour visitor stated that an area may have natural resources and skills "but, even with these things, if the people in the area don't continue to upgrade themselves, they will lose out."

Good advice. Sometimes it takes outsiders to remind us of our many advantages. So, let's not sell our community short. We have individuals and organizations with the vision and the gumption necessary to get things done. Let's give them the support they need to achieve the growth that they can see in our future.

## Woodtick Area Open

The Woodtick recreation areas were officially opened for the 20th season with the Memorial Day weekend.

Employees of the Waterbury (including New Milford) and Oakville divisions — active and retired — and members of their families will find the Woodtick area a popular and convenient spot with the finest of recreation facilities available, at a nominal cost.

Passes have been distributed to employees. "Associate" passes may be obtained for members of your family. It is recommended you secure these passes as, when the area is crowded, only those with passes will be admitted.

### Children's Day Camp

Applications are coming in for enrollment in the SERA sponsored Day Camp for children and grandchildren of Scovill employees. Age limits for the campers are: girls 6 thru 10 years of age, and boys 6 thru 12 years.

The 18th season of the Day Camp will start Monday, July 5, and will continue through August. Qualified and experienced counselors will meet the children at the SERA and will guide and supervise their activities until 5 p.m. when they will return to the SERA to be picked up by parents.

Brochures and application blanks are available at the Employee Activities Office, Ext. 834.

## Retired Folks' Picnic

All retired employees of the Waterbury and Oakville Company divisions, as members of the Scovill Retired Folks' Club are invited to attend the annual picnic scheduled to be held at Woodtick on Tuesday, June 15.

Members are asked to meet in the SERA Building, corner of East Main and Mill Streets, at 1:30 p.m. Those who may be driving and are closer to Woodtick will go directly to the group picnic area; others who will be coming through town and can take passengers, are asked to stop at the SERA to take others along. Transportation will be provided for all.

Husbands and wives of retired members are invited to attend.

In case of inclement weather, the meeting will be held at the SERA.

## Credit Unions

Scovill Employee Credit Unions #1, #2, #3, and #4 will not operate during the vacation shutdown.

Loan applications must be in by noon on Wednesday, June 30. Please plan deposits and withdrawals by Friday, July 2nd.

10 years—May 31, 1965

## Vacation Shutdown

The Waterbury Divisions and Services will be shut down for vacations during the two-week period starting Monday, July 5 and ending Sunday, July 18.

The *BULLETIN* will not be published in July. The next issue will be mailed on August 9th. Deadline for classified advertising will be Monday, July 26.

## Retirements

Effective June 1, 1965

**EDWARD H. BENGTON**, Assistant Secretary and Assistant Treasurer—35 years' service.

**OVIDE DORAIS**, crane operator in New Milford Tube Mill — 39 years' service.

**MARY GAZDIK**, power press operator in Press 1 — 21.2 years.

**ALEXANDER GRAVES**, annealer's helper in the Aluminum Mill — 36 years' service.

**ABRAM HORNBEIN**, sheet metal worker in the Tin Shop—24.2 years.

**BARBARA KIUDULAS**, miscellaneous machines operator in Press 2 — 18.2 years' service.

**LAURENCE PELLETIER**, toolmaker in Blank & Draw Tool — 29.8 years.

**JOSEPH REISENAUER**, toolmaker in Blank & Draw Tool — 40 years.

## Pre-Vacation Blood Donor Day

The second Employee Blood Donor Day for the year is scheduled for Thursday, June 24th from 12:15 to 5:15 p.m. in the air-conditioned SERA.

While employees from the General Manufacturing Divisions are assigned to this visitation of the Blood Mobile Unit to the plant, it is hoped that all eligible employees will volunteer.

With vacations coming up, and families on the highways more than ever as they take vacation trips, the danger of accidents is also ever greater. We must be sure our Blood Program is kept operating in the event of such emergencies where blood is needed immediately to save a life.

Scovill employees set a city-wide record of 239 pints of blood at the March 16th Blood Donor Day and it is hoped that the second Donor Day will also set a record — more so because the blood is badly needed.

**RECENT VISITORS TO SCOVILL.** Members of the Connecticut Sessions of the American Society of Mechanical Engineers were guided through the Scovill mills by Safety & Labor Relations Coordinator John Fogarty.

The tour of our mills was one of four plant visitations held in conjunction with the annual state meeting of the Society held in Waterbury on May 14th.

**SCOVILL ON WHEELS.** *This white, sleek racer bearing the Scovill trademark, will be driven in the Soap Box Derby to be held on Lakewood Road on Sunday, June 20th, by 12-year old David Henion, builder of the car.*

## Scovill Sponsors Entry in Soap Box Derby

Among the 184 entries in the Soap Box Derby to be held on June 20th will be a sleek white racer bearing the Scovill trademark. Each racer in the Derby has a sponsor who supplies the regulation type wheels and steering mechanism and offers whatever encouragement he can to the young builder.

The Scovill entry will be driven by its builder, 12-year old David Henion, son of Mr. and Mrs. Harley W. Henion of Coniston Avenue, Waterbury. David is a 7th grade student at the Bunker Hill School, he is on the YM-CA swim team, and is a Junior Leader at the Y where he assists instructors in various programs. In addition, he is vice president and treasurer of the Young People's Group at the First Baptist Church.

An added thrill for the contestants this year is the fact that a movie will be made of the entire event here. This movie will be distributed throughout the world. This is a signal honor for Waterbury as it was chosen out of 250 communities in the country which have scheduled Soap Box Derbies in their areas. The camera crew will be on hand to film areas of interest in Waterbury as well as all Derby activities which include a public showing of the racers in the State Armory on June 17, a parade on June 19, the race on June 20, and an outing for the boys and their parents at Holiday Hill on June 21.

The winner will be declared area champion and will participate in the national finals in Akron, Ohio, with

a chance to win a college scholarship and other important prizes.

The local phase of this national event is co-sponsored by the Loehmann-Chevrolet Company and the Exchange Club, and is receiving full support of many area businessmen. In addition to those sponsoring the 184 racers, others will provide refreshments for the boys, and another will equip all boys taking part in the Derby with rubber-soled canvas shoes.

## SERA To Sponsor "See America" Tour

The 1965 vacation trip being sponsored by the SERA will give employees a first-class look at the U.S.A.

Travelling by the most modern GMC motor coach (including snack and refreshment bar) and by regularly scheduled jet airline, the 15-day tour will include Washington, D.C., the Great Lakes region, Chicago, the Great Plains, the fabulous national parks, Las Vegas, scenic beauty of Utah.

Also, if sufficient interest warrants, a five-day deluxe tour of Atlantic City will be planned.

## Blue Cross — CMS Payment of Premiums

Blue Cross and C.M.S. coverage is paid for by the Company for all active employees and their eligible dependents, for all those absent on "illness leave", and for all retirees. Such premiums are not paid when a person is laid off or on personal leave.

If you are planning a personal leave of absence (such as an extended vacation) be sure to check with the Insurance Office regarding your premium payments. Unless notified otherwise, Blue Cross and CMS will send a bill directly to your home to cover a three-month period.

Remember — the payment must be made in advance to retain coverage.

**POWER MOWER PRECAUTIONS.** *Summer has not officially arrived but hospitals already are reporting a number of severe injuries suffered by unwary or uninformed users of mowers who have found they can cut off toes and fingers and spew debris that can plough deeply into flesh and bone. A word — or picture — of caution would seem to be advisable at this time.*

## Rod & Gun Club

By Walter Dziura

Our annual Rod & Gun Club fishing competition of May 15/16 was well attended. After this first part of the competitions, following are members who are first in the various categories:—

*Bob Fumire*, 16" pickerel; *Jim Gilroy*, 14¼" trout; *Stan Jacovich*, 13⅞" calico bass; *Joe Caron*, 13⅞" perch; *Joe Aleksinas*, 12½" bullhead.

The next fishing competition will be the first of the Reeves' Competitions, set for Sept. 11-12.

At the regular monthly meeting of May 18th, *Dave LaBonte*, our conservation man, reported he is building a spreader to fertilize the upper pond. He will need help in spreading the fertilizer and asks anyone wishing to help to contact him or any officer.

*Earl Tooker*, chairman, reports the children's fishing contest will be held on June 26th. There will be 3 age groups, with 3 prizes in each:— 3-6 years of age, 7-10 years, and 11-15 years. This is an excellent opportunity to take your children or grandchildren out for a day of pleasure and to give them a chance at a prize. Refreshments will be served to the children.

Our next activity is the summer outing of August 14th. Just a reminder—plan to attend.

Employees wishing to report exceptional catches or news of fishing trips, are invited to call the writer, ext. 2472 or the Bulletin Office.

Our next monthly meeting will be held on June 15. No meetings will be held in July or August. Have a fine vacation with many fine catches.

### RETIREMENTS WIND UP 142 YEARS OF SERVICE.

*Fellow workers and associates paid tribute to four long-service employees on their retirements as of May 1, 1965:*

- (1) *John Carey*, Closure Design, retired with over 30 years' service.
- (2) *Bernard Commerford*, Screw Machine Tool, had over 29 years.
- (3) *Josephine Galvin*, Mfg. Packing, had a record of over 42 years.
- (4) *Egnas Marchessault*, Aluminum Mill, had over 40 years' service.

## Your Social Security

Here's advice from your social security office that may prove valuable.

To make sure letters, postcards, and reports you send to social security offices get prompt action, be sure to show your social security claim number. This number is the social security number of the person on whose record you are being paid benefits.

To avoid any unnecessary delays in benefit checks, or replies to your letters, show the correct claim number.

This number can be found on all letters and benefit checks sent to you by the social security office.

The Waterbury social security office is at 236 Grand Street. The phone number is 756-7475.

FOREMEN HOLD ANNUAL SPRING DANCE

*Top photo:—A typical group of foremen and their wives who enjoyed a most delightful evening at the Scovill Foremen's Club annual spring dinner dance held at the SERA Bldg. Lower photo (left to right):—Club president James Smith and Anthony Sebastian congratulate Program Committee member John Baker and Chairman Andrew Minicucci on a well-planned evening.*

## Saule Nudegimas — Insolazione — Grille

By Robert W. Butler, M.D.

They have it in every language but, no matter how you say it or how thin you slice it, it's pretty hard even in these days of super-cosmetics to disguise a blistered beak! And for that statement, brethren, I have the fervent word of some high-class experts: those who have tried more than once and finally gone back to vinegar or goosegrease.

Most of us by this time know how much sun we can take safely, (but keep your eyes on the kids, Mabel) so let's for once keep the dose down and comfort up, shall we?

The right dose is good for the health, but too much can be well-nigh fatal. You wouldn't take 50 aspirin tablets at one time to cure your headache, so take no more sun than your body can handle, either.

It's a smart child who doesn't put his hand on the hot stove twice, but a smarter one who'll take your word without further proof that it's a poor thing to fondle; so, if you've been lucky thus far, take no chances. You don't want to go to that clambake and

have someone trying to break off one of *your* claws!

So what do you do? First, you take your sun in gradually increasing doses until you are thoroughly tanned. Many people can take only five minutes the first time or two, and if you burn easily you'd better keep your watch handy. Remember that the sun doesn't have to be very bright, either. Too many people have been badly blistered on a hazy day when they could look directly at the sun without the use of sunglasses.

Sleep is a great thing, but not on the beach! Who ever went to the beach to sleep anyway? Time passes very quickly that way, but you'll do little or no sleeping for the next couple of nights, so where is the profit? Blue Cross will take care of most of the hospital bill, but they won't assume the pain—nor will anyone else. You won't even have the satisfaction of having broken a record — because many another before you has been lifted off the sand and into an ambulance.

## Obituaries

JOHN HOGAN died on May 4, 1965. Retired, Tube Mill, in January, 1955—39 years' service.

PASQUALE MANCINO died on May 10, 1965. Retired, Hot Forge Dept., in June, 1957—7 years.

CHARLES WARNER died on May 14, 1965. Retired, Superintendent of the Wire Mill, in January, 1950 — 49 years' service.

CHARLOTTE MONTAGNON died on May 15, 1965. Retired, Cutting Room, in June, 1959—37 years' service.

WILLIAM J. FOLEY died on May 24, 1965. Retired, Waterville Rivet Dept. in July, 1958—52 years.

THOMAS J. KELLY died on May 24, 1965. Retired, Headed Products Production in November, 1961—39 years.

ALEXANDER GRANT died on May 26, 1965. Retired, Press #1, in April, 1958—10 years' service.

JOHN DEBLASIO died on May 27, 1965. Retired, Traffic, in August, 1949—25 years' service.

Beware of the breeze, because it will fool you; and that's particularly true if you're out in a boat, or driving a car with your arm out there holding the top down. The breeze cools your skin, and it won't yell "Uncle" until long after it's too late. The days of haze or breeze are the most vicious—so, beware.

Suntan lotions and creams will help protect your skin, and will help in the tanning process, but they're not the whole story by any means. Without good judgment on your part, they're worthless. You still have to do it gradually — that curvaceous blonde you see in full color in the magazines advertising the stuff didn't get that beautiful tan in one session by any means. You still have to get the tan gradually — and you have to apply the lotion or cream often. Water will wash it off, whether it be salt water from the ocean or from your own perspiration.

A real sunburn can make you real sick, so don't get one. As far as your body is concerned, it makes no difference whether you get it from the sun, a fire, or hot water; the result is the same — so, let's be careful, not careless. If your first move *is* to get careless, your second move is to get the doctor — it might be really serious, and expert help is what, unfortunately, you'll need.

*Scovill Girls Club  
50th  
Anniversary  
May 16, 1965*

## GIRLS' CLUB CELEBRATES 50TH ANNIVERSARY AT ANNUAL BANQUET

*Beauty, color, charm and distinguished gentlemen graced the head table at the 42nd annual banquet of the Scovill Girls' Club held at Waverly Inn on May 16, 1965.*

*Top row:—Head table guests included: Closure Division General Manager Roger W. Hall, Mrs. J. M. Burrall, Mrs. G. A. Goss, Jr., Mrs. G. W. Nelson, Retired Scovill Board Chairman S. T. Williams, Mrs. Malcolm Baldrige,*

*Employee Relations Director and Toastmaster J. M. Burrall, Girls' Club retiring president Betty Colbassani, Scovill President Malcolm Baldrige, Mrs. G. A. Goss, Sr., Vice President George A. Goss, Mrs. S. T. Williams, Mrs. R. W. Hall, and the Rev. Gerald W. Nelson.*

*Bottom row, left:—the 1964-65 Council members who sponsored the banquet. Right: newly-elected officers for 1965-66:—Treasurer Alice Behan, President Dorothy Chambers, Vice President Evelyn Smoil, Secretary Ellen Donovan.*

## Girls' Club News

*By Laura Denton*

In answer to the question asked most since our banquet — the very attractive commemorative charm dangling from our bracelets was designed by Robert Brinley of the Industrial Design Dept. Our sincere thanks, Bob, everyone's so pleased.

Members who were not able to attend the banquet have been asking about getting one of the bracelets. The Council says it will be able to order more if a sufficient number of requests come in. If you (members only) were not at the banquet, and would like to have one, please get in touch with an officer or your nearest Council member by June 30th.

Others we wish to thank for their valuable help in making the banquet such a success — members of Management who assisted in every way possible, *Adam Wolak* who gave of his time and talent for the photos, and *Margaret Fenske* who assisted in tracing past presidents.

New president *Dorothy Chambers* has appointed her committees:— Entertainment, *Edith Carolan*, *Cloe Read*, *Margaret Snowden*; Cards and candy—*Ruth LaFlamme*, *Mary Jarosz*, *Marion Thompson*; Sunshine —*Betty Colbassani*; Membership and Retired members — *Della Riccio*; BULLETIN reporters — *Violet Pelletier* and *Mary Schiffilinti*; Christmas activities — *Evelyn Smoil* and *Violet Pelletier*; Christmas dolls *Ruth Hunt*; Historian — *Margaret Fenske*.

You'll note that our president's policy is to name non-Council members to committees. We do hope, when you're contacted during the year to serve on various committees, that you will accept. This should make for a more interesting year for all and also lighten the work of the Council.

Once more it is "Swan Song" time. It has been pleasant doing this column — we hope to return again some day — and our best wishes to your new reporters.

Happy vacation!

## Forty Years Ago

In our last two issues we reminisced about the start of the Club fifty years ago, and its activities during the 1910s. It was certainly amusing and amazing!

During the 1920s, they were just as active — their charitable activities were continued — children's Christmas parties were expanded from just children of war widows to include those of all employees who were having "hard times". Their Christmas baskets also increased in number as time went on. In 1929, a new program was instituted. "Becky" Kelly was asked to send gifts to our retired members — an assignment she carried on for over 30 years!

You'll remember they had adopted two French orphans during World War 1. In March, 1920, they adopted a little Serbian girl. The last mention in the records was in 1924 so it would appear they supported these children until then.

Proceeds from their dances, card parties and minstrels were used toward the charitable work expenses. However, as time went on, these were not enough. So, one year they ran a rummage sale to "relieve cases of suffering due to unemployment"; two other years they raffled off a turkey, with approval of Management who allowed the sale of tickets in the plant. In 1924, with a vote of 328 out of 422, membership dues were increased to .20¢ per month. Their efforts were also greatly helped by the Foremen's Club who voted to contribute \$100 each year to the project.

Their minstrels continued during the 1920s, each one a huge success — in 1921 the "modernized" minstrel was oversubscribed so they had to move it from Doolittle Hall to Temple Hall, where it was held in succeeding years. The minstrels were also restaged for benefit of five area churches as well as the Allingtown Hospital in New Haven.

Recreation was also a prime interest during the 1920s and, in addition to the basketball, baseball and bowling games, a new sport — billiards — was played. Swimming classes were also set up in Crosby during the summer; swimming and gym classes in winter.

Another popular activity — one which is almost unheard of today among adults — was hiking. One such event recorded as the annual spring trip "to seek the mountain laurel" saw the girls take the Thomaston car at the center, stop it when they came to a rocky big hill which they climbed, then cooked bacon, chops, and frankfurters before climbing down and taking a car back to town!

Their annual summer outings moved farther afield as they travelled to Savin Rock and Lighthouse Point (which usually attracted over 300 members); later to New York and Coney Island.

They met with other local girls' clubs — they entertained Chase Club girls, Oakville Company and American Pin girls; they bowled against girls of Berbecker-Rowland Co.; also Watertown, Meriden and Naugatuck girls' clubs.

They continued active in the National League of Women Workers, with 17 members attending the convention in Bryn Mawr, Pa. As one of only two industrial clubs belonging to the league, our club was given a place on the program to present their ideas. President Loretta Murphy (Donahue) read her paper before 650 girls. At the state convention in October, 1920, our club won a loving cup for making largest gains in membership — 20 clubs were enrolled in the Connecticut League of Girls Clubs.

It is amazing to read of so much activity and we wondered how it could have been possible. But their secret seems to be in the fact that, although there were 15 members on the Council, there was also a "chairlady" in each department who kept in close touch with the Council and thereby keeping their girls informed of all activities.
