MAY, 1966

*Published by Scovill Manufacturing Company for its Employees*

## \$613 Dollars Paid for Suggestions During April

\$149 went to Anthony Mastrofrancisco as a partial payment for his suggestion which results in a better mold made in less time. He devised a new method for shaping molds for the continuous casting machine. Above, he explains it to Casting Asst. Foreman Carl Summa.

\$114. Award—Eleanor Estelle, Aluminum Sales, suggested a new procedure for collating mill tickets which results in a saving of time and cost.

\$60. Award—Michael Campi, Blanking; Alfred Klinzmann, Hot Forge Tool

\$30. Award—Marie Kreidler, Aluminum Sales

## Medicare Sign-up Deadline May 31

Congress has extended the deadline for signing up for Medicare Plan B until May 31, 1966 with benefits to be available July 1, 1966.

People who were 65 years of age or over on January 1st of this year who do not sign up by the new deadline, May 31st, will have to wait until October 1, 1967 to do so. If they delay until that time, they will have to pay more, too. Furthermore, they will have to wait at least six months, until July, 1968, to obtain coverage.

People becoming 65 after January 1, 1966 have a seven-month period (extending from three months before the month of their birthday to three months after that month) to sign up.

To sign up, contact your Social Security office.

\$200 was the amount Michael McEnerney received as partial payment for his suggested method of cutting off metal for government fin blades. With his method, both time and material are saved. Hot Forge Foreman Roger LaFrance listens with interest to the suggestion.

*John C. Helies*  
Executive Vice President

President Malcolm Baldrige recently announced the appointment of John C. Helies to the new position of Executive Vice President of Scovill. Mr. Helies had been a group vice president in charge of the Schrader and Hamilton Beach divisions.

Before joining Scovill in 1964, Mr. Helies was president of the Security Engineering Division of Dresser Industries. Prior to Dresser, he was general

## Scovill Reports Higher Sales, Profits

1966 is off to a flying start at Scovill. The recently released financial report for the first quarter shows record sales and profits for the Company as a whole. The report is summarized as follows:

	First Quarter	
	1966	1965
Sales	\$76,725,569	\$57,184,948
Profit	\$ 2,862,039	\$ 1,771,988
Profit as % of Sales	3.7%	3.1%

President Malcolm Baldrige said the continued improvement is due to "higher volume, tighter operating controls and more aggressive marketing actions."

*(Continued on Page 2, Col. 3)*

manager of General Electric's Appliance Control Department and, before that, he was associated in various manufacturing and management positions with E. A. Laboratories and the shipbuilding division of Bethlehem Steel Corporation.

# MEMO *from Management:*

## Working For The Community

The other day, a local college girl stopped in to get some information for a homework assignment. It was about public relations. Her first question was right to the point. "What does Scovill do for the community?"

You have to start out slowly in answering a question like this — you can't toot your own horn too loudly. Scovill has many influences on the community, being the largest employer (about 5,000) and the largest taxpayer (about \$1-1/4 million per year). So we began telling our young visitor what Scovill dollars do for the community—our payroll dollars, tax dollars, and the thousands of dollars contributed each year to local civic and social organizations.

But we didn't dwell too long on this point because there was another contribution that we wanted to emphasize — the community service of our employees.

It takes people as well as dollars to get things done in a community — people on school boards, parking commissions, finance boards, social and recreational agency boards — planning for arts festivals, political rallies, and all the other activities of a healthy and vigorous community.

Many of the people who are helping Waterbury move ahead are Scovill employees. It is their willingness to pitch in and help that gives real meaning and purpose to the dollars that companies like Scovill invest in our community.

## Children's Day Camp

The Children's Day Camp will start its 19th season on Tuesday, July 5th. It will be operated for the children and grandchildren of Scovill employees as follows: girls—6 through 10 years of age; boys—6 through 12 years.

Qualified and experienced counselors have been employed. They will meet the children at SERA and will guide and supervise their activities until they are returned to the SERA at 5:00 p.m. to be picked up by parents.

Brochures and application blanks are available at the Employee Activities Office, Ext. 834.

In order to make arrangements for proper personnel and sufficient

## Woodtick Opens May 28

Weather permitting, the Woodtick Recreation Area will open officially on Saturday, May 28, the Saturday before Memorial Day.

As in the past, passes will be distributed to employees, with application for associate passes for family members. Employees are urged to use the passes because, on extremely warm days when over-capacity crowds appear, the passes will be asked for at the gate.

supplies and equipment, all interested in sending their children to the Day Camp are asked to check the Employee Activities Office as soon as possible.

## Scovill Reports

(Continued from Page 1, Col. 3)

The first quarter profit of \$2,862,039 was 3.7% of sales. This compared with a profit return of 3.3% for the entire year 1965. The national average for the larger industrial concerns in this country is well over 6%.

## Girls' Club Holds Annual Meeting

The 51st year of the Scovill Girls' Club was one of continued helping hand activities as well as increased number of events for participation by all members throughout the plant.

In her annual report, retiring President *Dorothy Chambers* noted the resumption of bus trips to New York by members. Two to date saw four and five busses on each trip; another trip is planned for May 14th.

*Mrs. Chambers* also thanked all members, and other interested Scovill women who, to date, have knitted over 60 pairs of mittens, helmets and caps which will be turned over to the Christmas Activities Committee for inclusion in the baskets for needy children. Special mention was made of *Mrs. Loretta Oliver*, now retired, who has for some time knitted articles for the Southbury Training School and has offered to knit 25 pairs for the Club.

Entertainment was provided by *Cathy Curtin*, *Theresa Lupica* and *Jerry DiPietro, Jr.*, winners in the talent shows sponsored recently by Scovill Local 1604 for the benefit of the Waterbury Association for Retarded Children.

Members elected to the Council: *Edith Carolan*, *Dorothy Chambers*, *Betty Colbasani*, *Elaine Daniele*, *Ellen Donovan*, *Sandra Goldberg*, *Lucille Houseknecht*, *Ruth LaFlamme*, *Violet Pelletier*, *Cloe Read*, *Della Riccio*, *Mary Schifiliti*, *Evelyn Smoil*, *Patricia Thomas*, *Rose Wiktorski* and *Nora Williams*.

At a meeting held after the membership meeting, the Council elected as officers:—President *Evelyn Smoil*, Vice President *Della Riccio*, Treasurer *Patricia Woods*, Secretary *Ellen Donovan*.

## Memorial Day

The Waterbury Divisions and Services will be closed on Monday, May 30th, in observance of Memorial Day.

Any deviation from the above will be by department or individual notice.

Memorial Day is one of the holidays for which qualified employees are paid when they do not work.

## Retirements

ILDEBRANDO PELLEGRINI, band maker in the Strip Mill, retired as of April 4, 1966 with over 37 years of service.

WILLIAM WARD, productive helper in the Casting Shop, retired as of April 18, 1966 with over 37 years of service.

### Effective May 1, 1966

VINCENTE ANDRES, millwright in the Millwright Dept.—39 years.

DAVID GIANNINI, floorman-scalemaker in Cosmetic Assembly & Pack—50 years' service.

JULIAN HAYRE, rotary wire pointer operator in the Rod Mill—15.7 years.

JOHN F. KANE, supervisor in the Aluminum Mill—30 years.

GEORGE NEWELL, iron worker in the Tin Shop—15.7 years.

## Scovill Credit Unions

Members of all Scovill Employee Credit Unions are asked to turn in their passbooks as soon as possible so that they may be audited, if they have not already done so.

## Training Course

JOHN E. HARTY was graduated as a plumber-steamfitter as of April 4, 1966. He has been assigned to the Pipe Shop.

EDWARD KAWECKI was graduated as a toolmaker as of May 2, 1966. He has been assigned to Cosmetic Eyelet Toolmakers Dept.

JOHN H. WEAVER was graduated as a millwright as of April 4, 1966. He has been assigned to the Millwright Dept.

Catherine Moran, Relay  
10 years — April 18, 1966

Edward F. Miller, Oil House  
10 years — April 23, 1966

Andrew Lastra, Attaching Machine  
10 years — April 24, 1966

Stephanie Horzepa, Cont. Mfg. Sales  
10 years — April 30, 1966

## July Vacationers Jet To Caribbean

Plans for the 1966 SERA-sponsored vacation trip for employees have been finalized; applications and brochures are being sent out. Initial payments are due on May 20th.

Employees interested in the trip are urged to call the Employee Activities Office as soon as possible to be sure of reservations.

Leaving on July 2nd, the trip will include stops at San Juan, Puerto Rico, Port Au Prince, Haiti, and Kingston and Ocho Rios, Jamaica. They will return to Waterbury on July 17th.

IT'S CLEAN UP TIME AGAIN. *Not waiting for the May 1st Clean-up week, the Tin and Welding Shop is shown just after one of their regular clean-ups. It is a fine example of how a service department with very limited space and endless shapes and pieces of metal has licked the where-to-put-it problem.*

A look into the department would show that all aisles are clear and what is needed is readily available. Above, Edmund Kissell finds and moves a

work piece with no hazard or difficulty.

A lot of satisfaction comes from a good clean-up. Now is the time to get going—at home, too.

## Your Breathing Troubles:

### Understand Them, Face Them, Treat Them

You have trouble with your breathing: shortness of breath, persistent coughing, too much phlegm, or a combination. Is it serious? It might be.

You know it's not "just a cold". Your trouble has been going on for a long time, or coming and going over months, perhaps years. You are only noticing it now—and wondering. Or perhaps you've been aware of it for a while but you put it down to "too much smoking" or "just run down" or "getting out of condition". Now you think there might be more to it than that.

Yes, there might.

### What Happens?

Your lungs are a complicated system of air sacs with connecting tubes, large and small. Their job is taking in fresh air and forcing out stale air. Trouble comes when the flow of air in and out of the lungs is impaired. Then trouble shows itself in breathlessness, coughing or other such symptoms.

Your air flow may be impeded by one or more of several possibilities. A doctor can usually tell which factors are involved in a particular case. When they consider the overall picture, the general name given to this trouble by medical experts is "chronic airway dis-

ease". By this they mean breathing trouble that involves impaired air flow, the cause for which must be found for each patient. It may not be easy.

Having looked into the situation of the patient before him, the doctor may give his trouble a specific name, too, depending on the cause and other features. *Asthma*, *chronic bronchitis*, *emphysema* — these are the three most important of several ailments that come under "chronic airway disease".

### Three Ailments—

—*Asthma* is the collection of breathing troubles that result from an allergy to some normally harmless substance.

—*Chronic bronchitis* means long lasting trouble in the lung tubes that shows itself in coughing, too much phlegm, and breathlessness.

—*Emphysema* may show itself in the same way—especially by breathlessness—but it has the added feature that some of the small sacs (air spaces) deep in the lungs are damaged.

These three (and certain other ailments) are lumped together under one heading because they so often overlap. Also, they look and feel much alike.

### What Causes

—*Asthma*? It can be explained, in a

## Softball League

SERA Sports Committee Chairman John Deegan reports four teams are entered in this season's Inter-Department Softball League. Games will be played on Brass Mill Diamonds #1 and #3 at 6:00 p.m. on Mondays, starting May 9th.

The final organizational meeting will be held on Wednesday, May 4, for the election of officers and any other details necessary.

Teams include: Closure, managed by Nick Ruffino; Office, Mario Martone, manager; East Plant, Paul Sorbo, manager; Apprentice, Tom Sloss, manager.

Any Scovillite interested in playing in the league is asked to contact the Employee Activities Office.

general way: You're allergic to some substance, like ragweed pollen or horse dander. But finding the substance (or substances) that are guilty in your particular case may be difficult.

—*Chronic bronchitis*? Maybe it's caused by repeated colds, too much smoking, air pollution, or other things that do damage in the lungs—or by a combination of several or all such things.

—*In Emphysema*, with the overstretched air sacs and destroyed air sac walls that are its outstanding feature, the cause is less clear. But the doctors have strong suspicions about infections, cigarette smoking and air pollution.

Most important for you, the doctors have ways of meeting the challenges of the various cause of chronic breathing trouble and of the very real known troubles they cause.

If you (or someone in your family) has chronic airway disease, you can be helped. Your doctor has available both advice and medical procedures of several kinds. He has ways to help you breathe better, to combat infection if it is present, and to avoid those things that aggravate your symptoms.

### What Should You Do?

If you have breathing troubles, you cannot decide for yourself what is causing them. *Let your doctor decide.* If you turn out to have chronic airway disease, particularly emphysema, you want to know how you can be helped. Your doctor can tell you.

A free booklet, "Your Breathing Troubles: Understand Them, Face Them, Treat Them" is available in the Main Hospital, East Plant Hospital or Bulletin Office.

## Your Social Security

Are you moving? Have you packed the tea cups? Hired the van? Disconnected the utilities? If you have—you still have one more thing to do.

To have your mail follow you—notify the Post Office. If you are getting social security checks—*be sure to notify your local social security district office* so that you'll get your next social security check on time at your new address.

One added detail—*don't forget to show your social security claim number on all your correspondence to the Social Security Administration.* The Waterbury office is located at 236 Grand Street; the phone number is 756-7475.

## Cost Office League

The Cost Office Bowling League final standings at the close of its season were as follows:

Top team—"Braves", with a score of 79 wins, 41 losses. Team members were: Gloria Turzo, Marie DeBiase, Gus DeVito and John Blake.

Trophies were awarded to:

High Average—John Blake, 123; Doris Yashenko, 108.

High Single—Charles Silva, Tom Kelly, 175; Lena Garofalo, 163. Runner-up was Betty Kernan, 156.

High Three — John Blake, 435; Lena Garofalo, 399. Runner-up was Len McIlroy, 422.

**WANTED—OLD STAMPS.** Do you have any old, unused automatic date stamps just laying around gathering dust? The one pictured is a Triumph No. 4 and also bears an individual's name.

If so, check with your supervisor on its usefulness, and then send it to John Chambers, West Machine Room. It can be adjusted and put into use in other locations in the plant.

### LONG-TIME EMPLOYEES AMONG APRIL RETIREES

*Top photo:—Florencio Alves retired from the Casting Shop after 36 years of service. His fellow workers present gift and warm wishes for his future.*

*Center:—Michael Cermola had completed 40 years of service when he retired. Above, Hot Forge fellow workers gather for warm send-off.*

*Bottom photo:—Elizabeth LaPerle has over 15 years of service. She was in Cosmetic's Finishing Division where her fellow workers partied her.*

JAMES J. TEIXEIRA, JR., left Scovill on April 11th to serve in the U.S. Army. A hand nailer in the Box Shop, he had been employed here since September 17, 1965.

MICHAEL FEEST left Scovill on April 27, 1966 to serve in the U.S. Army. An electrician in the Electrical Dept., he had been in Scovill since August, 1962.

PAUL M. OZYCK left Scovill on April 19, 1966 to enlist in the U.S.

## Rifle Range

All Scovill rifle enthusiasts are invited to visit and shoot at the new rifle range any Wednesday, starting at 7:00 p.m. Rifles, scoops and targets are available, however each person must provide his own ammunition.

Groups interested in using the range at any other time are asked to contact the Employee Activities Office as far in advance as possible as a range officer must be assigned whenever the range is in use.

Air Force. A productive helper in Casting, he had been here since September, 1965.

## Scovill Transportation — The “Last Word” in Equipment

1966—the “last word” in high speed, high capacity transportation equipment, this new rig is a V-8 Twin Screw Diesel job and is being operated continuously between Waterbury and Oswego, New York. It will haul 46,000 pounds and will maintain any legal speed.

Equipped with a second tandem axle, for a total of five axles, its gross capacity is 73,000 pounds. Note the size of the exhaust and the air cleaner which are mounted on the side of the cab.

1916—the “last word” in transportation. This truck's body is of wood frame construction with iron plate top and bottom. Stake holes are mortised into the frame. The rear end is equipped with loose stakes. The 4-foot high side sections are removable. It has solid tires and the latest in kerosene lamps.

Note the crank (dubbed “Armstrong Starter”), and the battery box. It might have made 15 miles per hour and its capacity was probably around 6,000 pounds.

## Obituaries

THOMAS MYERS died on March 24, 1966. Retired Vice President and General Manager, Hamilton Beach Division, in December, 1957 — 39 years' service.

CESARE ALISI died on March 27, 1966. An elevator operator in Trucking—39 years' service.

CARMINE DAMIANI died on March 27, 1966. Retired, Rod Mill, in April, 1953—26 years.

MARCEL PARIZO died on March 28, 1966. A toolmaker in Cosmetic Toolroom—3 years' service.

MARIE LAPIERRE died on March 29, 1966. Retired, Waterville Division, in September, 1959—16 years.

DAVID CARMICHAEL died on April 3, 1966. Retired, Steam Dept., in February 1965—37 years.

LAURENCE PELLETIER died on April 5, 1966. Retired, Blank & Draw Toolroom, in June, 1965—30 years.

JAMES SCHLEGEL died on April 10, 1966. Retired Asst. Employment Manager, in September, 1962—19 years.

CARL PETERSON died on April 23, 1966. A tool and die maintenance man in the Rod Mill—10 years.

ERNEST BENSON died on April 23, 1966. Retired, Milling & Grinding, in August, 1955—18 years.

WALTER BURNS died on April 24, 1966. An electrician in Electrical—29 years' service.

VOCATIONAL EXPLORER POST. Officers elected by the newly-formed affiliate of Mattatuck Council of Boy Scouts are:—seated: Treasurer Roger Engle, Vice president Gordon Jackson, president Charles Rinaldi; standing:—Thomas Wierbonics and Michael Longo, cabinet representatives; Secretary Joseph Colella.

INNOCENZIO MARINARO died on April 25, 1966. Retired, Sanitation Dept., in August, 1957—47 years.

GEORGE T. NOLAN died on April 25, 1966. Retired, Tube Mill, in August, 1946—44 years.

JOSEPH DEMUNDA died on April 26, 1966. Retired, Lipstick Dept., in April, 1955—23 years.

LOUIS LOUGEE died on April 26, 1966. Retired, Metals Research, in October, 1955—35 years.

CHARLES KLEINERT died on April 28, 1966. Retired, Estimating Dept., in March, 1955—44 years.

MICHAEL J. MORAN died on May 1, 1966. Retired, Plant Protection, in December, 1957—16 years.

About 20 high school sophomores and juniors are enrolled in the Scovill sponsored Vocational Explorer Post. Meeting semi-weekly in the SERA Bldg., the boys are becoming familiar with industrial job opportunities offered to high school and college graduates.

One meeting a month is planned for field trips into the plant and offices where the students see first hand actual production and administrative functions, as well as learn the educational background needed for each job.

John Shull, Mills Division, is advisor to the group; Robert Bridges, Mill Production is associate advisor. The Post Committee consists of Chairman Vernon Russell, Thomas Kaukas, H. Arthur Schuyler, Jack Lyons, Robert Weber, John Fogarty, Donald Taylor.

## Rod & Gun Club Spring Banquet

An evening of congenial friends, good food, and fine entertainment was enjoyed by all at the annual spring banquet. It was a great pleasure to see so many retired members in attendance. Milt Burrall was toastmaster par excellence and his talk, and those of Guest Speaker Judge Reeves and the Club officials provided much fine entertainment as did the excellent fishing movies.

Left top photo:—the head table: Fred Kirschbaum (banquet co-chairman) who installed the new officers;

By Walter Dziura

Our annual spring banquet was well attended, and all missed our vice president Dom Cherubini who was still on the sick list. I'm glad, however, to report he should be back at his work place when this BULLETIN reaches you.

On opening day, most fishermen had good luck and quickly caught their limits at Woodtick while others had to work hours or even all day for their limits. Some, of course, went away empty-handed. Such is life for a fisherman.

At our regular meeting of April 19, it was voted to buy 300 more trout and to stock some in each pond. Repairs are being made and anchors replaced.

The rifle range is completed. SERA will be financially responsible for and have policy making authority over the range. They will apply for a charter from the National Rifle Association.

Rod & Gun Club assumes responsibility for governing the range. Rifle committee Chairman Charles Carpenter and his committee will draw up rules for the range and will investigate possibilities for team and individual shooting for adults and their children. Until this can be accomplished, it is hoped the range will be available one or two nights a week.

Open house was held at the range on Sunday, April 17, with more than a score of interested shooters on hand to inspect the facilities.

Next regular meeting of the Club will be on Tuesday, May 17, at 7:30 p.m.

Bob Fumire, fishing chairman; Judge Reeves, M.C. Milt Burrall, Club president Paul Delage, Banquet co-chairman John Capone, and Club secretary-treasurer Walt Dziura.

Top right: Marty Hollywood (2nd left) chatting with retirees Henry Miller, Russ Williams, Fred Ehrhardt.

Lower left: Retiring president Harold Rogers holds attention of Judge Reeves and retiree Walter Masse.

Lower right: President Paul Delage discusses Club activities with Jim and Joe Gilroy and Wilbur Freeman.

HIGH SCORERS IN BRIDGE TOURNEY. John and Marjorie Dexheimer, North and South winners accept challenge to play a hand of bridge with Tom Deeley and George O'Meara, East and West winners of the recent tourney sponsored by SERA.

## High Scorers "Almost" Get To Chicago

The SERA bridge tourney was held in conjunction with the national tourney sponsored annually by the National Industrial Recreation Association. The association is divided into eight regions, with tourneys held in each region. The winners of each region will compete in a final championship tourney to be held in Chicago.

The SERA is part of Region #1

which includes New York, New Jersey and all of New England.

Tom Deeley and George O'Meara, local top scorers, rated a score of 70.6% (points are converted to percentage scores). They were just 2½ points away from representing Region #1 in the finals in Chicago. While second in Region #1, their score is rated high in the nation-wide tourney.
