

SCOVILL BULLETIN

MAY, 1967

Published by Scovill Manufacturing Company for its Employees

How's BUSINESS? Shown discussing Company affairs with Scovill President Malcolm Baldrige are Karen Thatcher, Lorraine Beaudin and Patricia O'Brien 6th grade pupils at Centerville School in Hamden, Connecticut.

To better understand the way in which our business system operates, the members of this class purchased two shares of Scovill stock. These three pupils are among the six chosen by the class to represent them at Scovill's annual meeting held in Waterbury on April 17, 1967.

Freedom Shares Offered Via PRD

A new United States Saving Note, known as a "Freedom Share" has been placed on sale starting May 1st.

Scovill is offering employees an opportunity to purchase these notes via payroll deduction. President Malcolm Baldrige has outlined the plan in a letter mailed to employees' homes and urges all to take advantage of this opportunity to participate in the program.

Department foremen and stewards have been briefed on the program by a U.S. Treasury Dept. representative who helped to outline the plan and provided informational material for employee solicitation. Employees will be contacted within the plant up to Friday, May 19th.

The Freedom Share is a companion product to the Series E Savings Bond. That is, individuals must sign up for Series E Savings Bonds on a regular purchasing plan before they can sign up for the purchase of the new notes.

A Freedom Share and a Savings Bond are sold as a package. For example:— \$20.25 for a Freedom Share plus \$18.75 for a Bond equals the purchase price of \$39. The maturity value of the combination is \$50—half of it to be paid in 4-1/2 years when the Freedom Share matures; the other half in 7 years. Deduction authorizations must be in whole dollars.

The new savings note will earn 4.74 per cent interest when held to maturity of 4-1/2 years. It must be held one year before it can be cashed. Under present law, there is no provision for an extension beyond their maturity date.

E Bonds continue to earn 4.15% interest when held to their 7-year maturity. They may be redeemed after two months. They carry an optional automatic 10-year extension privilege be-

Scovill Reports 1st Quarter Results

The first quarter report recently released by Scovill shows a moderate decline in both sales and earnings for the first quarter of this year as compared to the same period in 1966.

Profits were down 2.6% on a sales decline of 6.3%. Comparable figures for the two periods are as follows:

	First Quarter	
	1967	1966
Sales	\$71,874,018	\$76,725,569
Profits	\$ 2,788,814	\$ 2,862,039
Profit as % of Sales	3.9%	3.7%

The lower sales and profits for the first quarter reflect a slowdown in many of the markets in which Scovill divisions do business. For the most part, this is due to efforts to reduce inventories on the part of many of our customers. It is still too soon to predict how long this condition will continue.

In commenting on prospects for the year, President Malcolm Baldrige stated, "The rest of the year is difficult to predict — as difficult as any business year I have known. This is true because of the great number of uncertainties in our economy and the impossibility of knowing what effect government fiscal, monetary, and defense policies will have on our overall economy. We should have another good year at Scovill, but there are too many unknowns to make any concrete predictions this early in the year."

Copies of the annual report for 1966 are available at the Bulletin Office for employees who are not stockholders but would like to have a copy.

yond maturity. They will keep earning interest.

A person may sign up for E Bonds alone or for the combination. He may not sign up for Freedom Shares alone. But the higher interest rate makes it worthwhile for any saver to step up his allotment to buy both.

MEMO *from Management:*

Dollars For Waterbury

The new highway systems now nearing completion in Waterbury offer great opportunities for future growth and prosperity. But these good things will not come to us automatically — we must earn them by providing the new facilities and services that are required in the type of city which we wish to become. Many organizations and many people are well aware of the potential for growth that exists in our community and are doing all that they can to achieve it.

As a result of efforts to date, it has become clear that low-income housing and downtown renewal are two of the major problems facing Waterbury in its efforts to improve itself. It has also become evident that before anything of importance can be accomplished in these two areas, there must be careful planning to establish specific programs of action. We must determine in detail what is required and where it is required.

Waterbury has applied for federal funds to help pay for this necessary planning and for the actual renewal programs that would follow. But we have been given no definite word from Washington as to when or if such financial help would be forthcoming.

We can no longer afford any further delays in revitalizing our central business district and in providing badly needed low-cost housing. Many other communities have already accomplished much in these areas and the headstart they have makes them much more attractive to the new industries, shoppers, and taxpayers that we are all competing for. Recognizing this fact, a group of dedicated civic-minded citizens has formed the Waterbury Non-Profit Development Corporation for the purpose of raising the money required to get started immediately on necessary planning.

This new corporation has dedicated itself to raising \$425,000 by May 21. Everyone in the community will be asked to contribute. Of the total \$425,000 to be raised, a little over one half will go for low income housing — part for planning and part for seed money to actually finance construction of the most practical type of housing. The balance will be used to prepare a specific plan for the renewal of our central business district. Besides getting the first and necessary planning steps started far more quickly than by waiting for government grants, this example of a united Waterbury struggling to help itself will aid us immensely in obtaining government renewal and housing funds.

The group that has formed the Waterbury Non-Profit Development Corp. has taken on a tough job in raising \$425,000. But they are confident that they will succeed. They believe that the people of Waterbury do care about the city in which they live and work — that they want to see it grow and prosper for themselves and their children. They believe that Waterbury citizens will show their concern by investing their dollars as they have their lives in the future of Waterbury. We are confident that Scovill employees are equally aware of the great opportunities before us and will pitch in and help to achieve them by contributing their "Dollars for Waterbury".

Contributions may be made to "Dollars for Waterbury" and sent to the Waterbury National Bank, 195 Grand Street, Waterbury, Conn. 06702.

New Assignments

Plant Engineering

CHARLES PECHALONIS—General Foreman, Steam Dept.

LEON SCHLIFF—Asst. Chief Power Plant Engineer

Central Accounting

GERALD J. BARTH—Supervisor in charge of General Accounting

Corporate

RICHARD P. BURNS—Supervisor in charge of the Data Preparation and Control Section of the Corporate Data Processing Dept.

ANNE GRIFFIN—Supervisor, Clerical Training Section of the Corporate Training Dept.

General Products

TERRY C. BYRNE — Asst. Government Contracts Manager

HENRY W. HART—Manager of Engineering for the General Products Div. responsible for: Maintenance and equipment engineering for all Gen. Prod. Div. departments, Finishing Lab, Quality Control Engineering, Product and Quality Control, Staff Engineering

RAYMOND H. KOZEN—General Foreman, responsible for Foundry Operations

C. DONALD MACKELLAR—Responsible for Production Control, Foundry Operations

Memorial Day

The Waterbury Divisions and Services will close in observance of Memorial Day at the end of the work day on Monday, May 29th, and will reopen with the start of the third shift on Tuesday, May 30th.

Memorial Day is one of the holidays for which employees who qualify are paid when they do not work.

Training Course

MACHINIST. Thomas P. Matan was graduated as a machinist as of April 10, 1967. He has been assigned to the West Machine Room.

25 yrs.—Apr. 3

INDUSTRIAL BRIDGE CHAMPIONS FOR 1967. *SERA Bridge Tourney Chairman George O'Meara presented trophies to Mr. and Mrs. Thomas C. Chapman on their winning the Industrial Regional Championship. The Chapmans then went on to Chicago for the National Tourney and came home bearing the national title.*

Bridge players at Scovill are among the best in the nation. This is the second year a tourney was sponsored by the SERA. Winners of the local match scored highest in the Northeast Regional Tourney and then went on to Chicago to capture the National title from 23 other teams.

Mr. and Mrs. Thomas Chapman (he's in General Product Sales) were about the most surprised couple on hearing the results. They had scored

132 points in the first round, placing 11th in the tourney; their 149 points in the second round moved them up to 6th place. Feeling they really had no chance of placing near the top, they relaxed and played the third and final round "just as best as we could". Their 150 points brought their total to 431 points, to place them 10 points ahead of the leading team.

In addition to a beautiful suitably engraved silver tray, with coffee pot,

Retirements

Effective May 1, 1967

ULRIC DOYON, packer and shipper's helper in Manufacturing Packing—33 years' service.

DALLAS WYANT, toolsetter in Chucking—25.3 years' service.

MARY WYANT, rack repairer in Cosmetic Finishing—15.9 years.

Mr. and Mrs. Wyant are the second husband and wife team to retire from active service at the same time.

sugar and creamer, the Chapmans' prize includes a 13-day cruise to the Caribbean, which they will take in January 1968.

Last year's winners of the local tourney, Mr. and Mrs. John Dexheimer, were runners-up in the regional tourney and missed, by a very narrow margin, competing for the national title.

These drawings show an interesting fact. Millwrights know it, but many others don't. They show why the string around a heavy package sometimes breaks when carried by the string. The direct, upward pull remains the weight

of the load — but — *the strain on the sling (or string) increases far beyond the load weight.*

Whether it is a heavy bundle tied with string or a 20-ton machine — it's a fact, and something to remember.

Woodtick Opens May 27th

Weather permitting, the Woodtick Recreation Area will officially open on Saturday, May 27th. Passes will be distributed again this year and employees are urged to carry the passes with them whenever going to the area as, on extremely warm days when overcapacity crowds appear, the passes will be asked for at the gate.

Children's Day Camp

The 20th season of the Children's Day Camp will start on Monday, July 3rd for the children and grandchildren of Scovill employees: girls — 6 thru 10 years of age; boys — 6 thru 12.

Qualified and experienced counselors meet the children at SERA and supervise their activities until they are returned to the SERA at 5 p.m.

WILLIAM A. CUGNO, floorman-scaleman in Fuze C, left for service with the U.S. Army on March 16, 1967. He had been with Scovill since November, 1966.

RICHARD D. LUSH, floorman-jitney driver in Blanking, left for service with the U.S. Army on March 28, 1967. He had been with Scovill since April, 1966.

DONALD W. RAYMOND, assistant foreman in Forging — Fuze C, left for active duty with the U.S. Army on March 31, 1967. He had been with Scovill since September, 1966.

ROBERT JENNINGS, hardener in the Hardening Dept., left for active duty with the U.S. Army on April 7, 1967. He came to Scovill in June, 1964.

Brochures and application blanks are available at the Employee Activities Office, Ext. 834.

In order to make arrangements for proper personnel and sufficient supplies and equipment, all interested in sending their children to the Day Camp are asked to check the Employee Activities Office as soon as possible.

Vacation Trips For Employees

SCANDINAVIA. One group of employees will leave Kennedy International Airport on Thursday, May 11th, on a jet flight to Amsterdam for the start of a two-week tour of Scandinavian countries. They will leave Bergen on May 25th for the return trip to Kennedy Airport and home.

PUERTO RICO. Plans have been finalized for a week's trip to Puerto Rico during the shutdown. This group will leave from Kennedy Airport on Saturday, July 8th, and will be registered at the El Miramar Hotel. Reservations are coming in so, if interested, be sure to call the Employee Activities Office as soon as possible.

HAWAII. No group tour is being planned this year by the SERA, however, the Employee Activities Office will be happy to help you make arrangements if you're interested in going to Hawaii for your vacation.

EXPO 67. The Employee Activities Office is investigating the possibility of bus trips to the Expo 67 World's Fair in Montreal this summer. Flyers, with all details, will be distributed as soon as such trips can be worked out.

Girls' Club News

By Nora Williams

The annual meeting was held on Monday, April 17th, at the SERA. While the inclement weather cut down on the number attending, those attending enjoyed the color films and refreshments following the business meeting.

Elected, by members, to serve on the Council for the coming year were:— Anita Barrieau, Hot Forge; Betty Betancourt, Transmission; Nancy Brown, Fuze C; Mary Byrnes and Edith Carolan of A.S.M.D.; Dorothy Chambers, Mill Accounting; Betty Colbassani, Relay; Ellen Donovan and Sandra Goldberg of Addressograph; Lucille Houseknecht, Lacquer; Ruth LaFlamme, Mfg. Timekeepers; Rita Mongillo, Closure Lab; Violet Pelletier, Quality Control; Della Riccio, Screw Machine Products; Evelyn Smoil, Closure Inspectors; Patricia Woods, Cosmetic Sales.

Re-elected for a second term of office, by Council members were:— President — Evelyn Smoil; Vice President — Della Riccio; Treasurer, Patricia Woods; Secretary — Ellen Donovan.

Copies of the Club's by-laws were distributed to all attending. Other Club members interested in having an up-to-date copy are asked to contact Ellen Donovan, Addressograph.

We welcome the following new members:— Rose Flynn, Marguerite Murphy, Nancy Brown, Teresa Ditota, Ellen Sullivan, Roberta DiFelice, Theresa Diogostine, Terry Diosostine, Mary Showers, Idalina Fonesca, Julia Rosum, Mary Francis, Phyllis Dambraskas, Thomasine Kenny, Ruth Franco, Theresa Zakaruskas, Janice O'Reilly, Carol Gransky and Angela Read.

Plans are being formulated for a bus trip to the horse races, and another one to Jones Beach. Flyers will be out as soon as details are completed.

MISS HAPS

Your Social Security

Medicare beneficiaries who signed up for medical insurance protection can now obtain an information kit to help them keep a record of their doctor bills so they will know when they reach their yearly \$50 deductible.

The kit includes a record-keeping folder and two leaflets which explain the two methods of payment for medical insurance claims, and what medical expenses count for the \$50 deductible.

The folder has pockets on the inside for holding doctor bills and space to write in the date and amount of each bill so that the beneficiary will know immediately when he reaches the \$50 each year. After that, the medical insurance plan pays 80 percent of the reasonable charges for covered expenses for the remainder of the year.

All new medicare beneficiaries will receive the kit when they sign up for medical insurance.

Those who already have medical insurance coverage may obtain a free kit by contacting the BULLETIN Office or by writing, telephoning or visiting the Social Security Office at 236 Grand Street, Waterbury.

APRIL 1ST RETIREES FETED BY ASSOCIATES, CO-WORKERS

Top photo:—It is indeed a rare happening when three men in one department retire at the same time. This happened in the Steam Department as of April 1st and the occasion called for a gala dinner party at the SERA.

Included in the over 125 persons attending were representatives of various companies which deal in boiler and turbine products and who have come to know these men over the years. Pictured at the event were:—Chief Power Plant Engineer Charles Stickney, retirees John VanderMeer (23 years' service), Joseph Graveline (44 years' service), and Thomas Healey (45 years' service); and Director of Plant Engineering Thomas W. Colina.

Lower photo:—Paul Raymond receives good wishes of his fellow workers in Gripper Eyelet. He retired with a service record of almost 17 years.

Bowling Tourney

The 23rd annual SERA Bowling Tournament attracted 120 keglers on Saturday, April 1st, at the Bowl-O-Drome on Meriden Road. Winners were:—

Class A—110 and Over

High 3—Joseph Tramuta, 431
2nd High 3—James Abriola, 423
High Single—M. Buinauskas, 166

Class B—103-109

High 3—Marie DeBiase, 355
2nd High 3—Ward Hobbie, Jr., 355
High Single—Mary Orlando, 134

Class C—92-102

High 3—Catherine Aurio, 350
2nd High 3—Dorothy Almeida, 344
High Single—Patricia Woods, 129

Special Prizes—Girls

Class B:— High 3—Joan Sileo, 338;
High Single—Betty Colbassani, 132;
High Game without a mark—Josephine Freddo, 91

Class C:— High 3—Elizabeth Buczak, 325; High Single—Betty Fusco, 115; High Game without a mark—Ruth Jackowski, 91

Interested In Basic Education?

The Waterbury School Department offers splendid opportunities for educational improvement to our adult citizens. The foreign-born who want to study English — the "undereducated" who were unable to complete their basic education, find in the program the answer to their desire to learn quickly and correctly.

A certified teacher instructs small groups (no more than ten people in one group) in elementary school subjects at no cost to the students, and at a time convenient to them.

Interested? You too can join! Just fill in the form (right) and return it to the Bulletin Office.

To: Bulletin Office Employee Relations Bldg.
Yes, I am interested. Please send me more information.

Work Shift

\$2471 Paid Out For Suggestions In April

\$700 was the amount of the award paid to Frank Williams for his suggestion of combination tooling which has cut considerably the cost of machining fuel oil couplings and several other jobs. Here he explains the procedure to John Sauer, Asst. Foreman of Chucking—Hand Screw and Chucking Machines.

\$319 was awarded to Victor Valantieus of the Repair Room for his proposed method of assembling parts of a relay whereby he improved and subsequently cut the cost of assembly. Here he receives his award and the congratulations of John Lengyel, investigator for the Scovill Suggestion System Committee.

\$240 was paid to Charles Mott, Repair Room, as partial payment for his devised method of taking apart a transmission modulator so that the parts which are expensive can be reused in the Transmission Dept. Repair Room Foreman Harvey Krantz listens with interest to a description of the procedure.

\$180 went to Frank Lucashensky of the West Machine Room for his suggested method of repairing #6 gang presses in the Blanking Room whereby much of the maintenance downtime is eliminated. Here he outlines his accepted method to West Machine Room Assistant Foreman Edward Leggett.

\$288—Francis Grenier, Garage

\$240—Elenore Estelle, Aluminum Mill Sales

\$152—Michael Scurso, Casting

\$ 96—Stanley Hypsh, Blanking Tl.

\$ 60—Domenic Giusto, Hot Forge;
Robert Zabit, Cosmetic

\$ 46—Armond Brown, General Products Tool Room

\$ 30—Stanley Wise, Hot Forge;
Laurier Theriault, Electrical;
Daniel McCarthy, Alum. Mill

1967 TV National Driver's Test

The third National Driver's Test, covering areas completely different from two previous tests, will be presented in color over the CBS network on Tuesday, May 23, at 10:00 p.m. Sponsored by the Shell Oil Company, the test was developed from the National Safety Council's defensive driving course.

Areas to be covered include winter driving hazards, school buses, motor-

cycles, special vacation travel hazards and a section concerned with women drivers—when distractions occur with children in the car, special hazards at shopping centers and school crossings, positioning a baby bassinet.

Test forms are available at Shell stations, or prepare a sheet of paper with numbers 1 to 35 to write your answers which you can compare with those of the studio audience.

Obituaries

WALTER POND died on March 22, 1967. Retired, Electrical Dept. in May, 1959—19 years' service.

ANTHONY SANDULLI died on March 26, 1967. Retired, Hot Forge in August, 1959—42 years' service.

JAMES BRICKEL died on March 30, 1967. Retired, Closure Tool & Machine in January, 1961—20 years.

OTIS VAN AKEN died on April 8, 1967. Retired, Milling & Grinding in July, 1960—32 years.

LUCIANO GOMES died on March 30, 1967. Retired, Aluminum Mill in December, 1964—30 years.

MABEL SEAMAN died on April 16, 1967. Retired, Headed Products in September, 1961—42 years.

PATRICK E. MALLOY died on April 17, 1967. Retired, Foundry in October, 1960—22 years.

F. STILLMAN HYDE died on April 23, 1967. Retired, Forging Sales, in July, 1964—39 years.

Rod & Gun Club

By Vinnie Manzolli

Opening day for trout fishing has come and gone. Only one word can describe the weather that day, "miserable". That didn't stop the many "true" sportsmen who took advantage of the recent stocking of both the upper and lower ponds at Woodtick. Some got their limit and others just got "soaked". Although many 12" to 14" trout were caught, Les Hart reports that only *Chet Klim* took the time to measure one of his catch, and this was a 14 $\frac{1}{8}$ " beauty.

The annual spring banquet has also come and gone, and those of you who didn't attend missed a good time. *Milt Burrall* toastmastered the affair. (The fishing committee thinks he's the best, and he didn't let them down).

Guest *Judge Reeves* told some of his humorous stories which were enjoyed as always. One of the highlights of the evening was the short talk by Guest *S. T. Williams* on the customs and peoples of India, after which he showed films of his recent tiger hunt, which proved to be most interesting.

Another highlight was the announcement and presentation of trophies to the winning inter-departmental rifle team, which consisted of Capt. *Mario Guerrera*, *Harold Slocum*, *Sabra Slo-*

Employee Benefits—A Big Part Of Pay

In 1966, Scovill paid almost twelve million dollars in benefits for employees in Waterbury, New Milford, and sales offices of the Waterbury Divisions.

Scovill employees and their families are protected by an excellent benefit program which includes vacations, holidays, pensions, social security, group insurances, unemployment compensation, and others.

Generally we tend to forget about the benefit portion of our pay—until we suddenly need insurance, or the time comes for vacations or retirement. Yet these benefits, which we so often take for granted, have become a significant share of our total pay.

The total cost of all these benefits

to Scovill for the year 1966 was \$11,692,652.00. In addition to straight time earnings, the average amount paid for benefits per employee last year was \$2,412.84—or \$1.20 per straight time hour!

Dividing the total cost of these benefits by the number of employees shows these figures to be the average amount paid per employee! Quite a substantial sum of "hidden income" which certainly makes the old term 'fringe benefits' obsolete (a 'fringe' is defined as an edging or trimming—of little value).

Employee Benefits, in addition to straight-time earnings, in 1966:—

Vacations	\$2,130,000
Holidays (8 holidays with pay)	901,640
Disability Insurance	183,000
Supplemental Unemployment Benefits	75,000
Funeral Pay	22,283
Illness Pay	110,187
Medical Services	130,000
Life Insurance	530,000
Medical Care Insurances	1,109,000
Pensions	2,497,000
Overtime and Shift Extras	2,148,400
Miscellaneous benefits (incl: Suggestion System, Military Pay,) (Tool Bonus, Recreation, etc.)	59,142
*Social Security	1,163,000
*Unemployment Compensation Insurance	436,000
*Workmen's Compensation Insurance	198,000
Total Cost to Scovill	\$11,692,652

* Legally Required Payments

cum and *Paul Delage* (no thanks to *Harold* that Blanking Tool won).

A movie of salmon going back to their spawning grounds was viewed with interest. All in all, a most enjoyable evening, thanks to banquet chairmen *Fred Kirschbaum* and *John Capone*. One sad note, *Jim Wild* could not attend due to illness and expressed his regrets thru *Milt Burrall*. We all wish him a speedy recovery and hope to see him at the next affair.

One word of caution. Some fisher-

men were seen on the beach area of the lower pond using bait other than flies. This is prohibited. The accidental dropping of hooks in the sand could prove dangerous, later, when the swimming season opens.

Fishing Chairman *Bob Fumire* advises that if fishermen continue to fish this area with baited hooks, the lower pond will have to be closed to fishing. So, fishermen, please use good judgment, obey the rules set up by the committee for the benefit of all.
