\$2,010 PARTIAL AWARD TO PATRICK CRONIN

Patrick Cronin, of the East Machine Room, submitted an idea for salvaging valves used on the Hydro and Lake Erie presses in the Rod Mill. Above, he explains to Foreman George Block his method of repairing the valves which makes them reuseable, thereby adding life to the valves and reducing cost and frequency of replacement. His suggestion will be studied again within a year's time and a final award will then be made.

Suggestion Awards

\$103.17—Frank Lucashensky, West Machine Room

\$42.00—Frances Piedmont, Automotive Assembly

\$18.00—Gustave Luschenat, General Products Tool Room

\$30.00 Awards

Francis Ford, Fuze C Tool Room

Richard DeMarest, Fuze C Tool

Thomas McDonnell, West Machine

Ann Russolillo, Automotive Assem.

Hamilton Beach Adds Personal Care Line

Our Hamilton Beach Division is carving a deep wedge into the beauty field since the introduction of its courier collection of personal care appliances for women.

Designed with many exciting new extra care and convenience features that are a boon to today's busy American women, the Hamilton Beach "action line" of personal care products includes complete lines of hair setters and hair dryers, plus two electric manicurists.

In announcing the new line, Market-

A VERY SPECIAL THANK YOU TO THE WONDERFUL PEOPLE WHO GAVE . . .

. . . when the Bloodmobile Unit visited Scovill on September 19th.

ing Manager John J. Flaherty stated, "In order to expand the concept of Hamilton Beach as a full-line manufacturer of Traffic Appliances, it is mandatory that we enter this new growth field, and enter it in a dynamic, aggressive way with new products that offer the best values with better features, more promotions and programs than ever before undertaken by Hamilton Beach."

United Fund Drive In Scovill Plant

Your One Gift—the United Way—works many wonders.

With your fair share contribution to the United Council and Fund of Greater Waterbury, you will help to raise the necessary funds for 31 health and welfare agencies to carry on their work of serving people in the area.

The annual campaign for funds will be conducted in Scovill this month.

As in previous years, the Scovill drive is a joint Management and Union effort and is being conducted on a divisional basis. In-plant co-chairmen are Fred Wilson of Employee Relations, William Baker of the Casting Shop, Albert Lupica of the Rod Mill, and Felix Panasci of Gripper Eyelet Dept.

Divisional co-chairmen, representing Management and Local 1604-UAW, are as follows:

Closure Division—Joseph Sullivan, Closure Inspectors; Gary Hall and Frank McHale, Gripper Eyelet

Cosmetic Division — George Dauch, Cosmetic Tool

General Products Division — West Plant:— Larry Guzowski, Division Engineering; Helen Johnson, Quality Control; Joseph Fabiano, Trucking; Alfred White, Hardening; P. James Byars, Foundry

General Products Division — East Plant:— Tom Gifford, Screw Machine Production; Louis Orsini, Fuze C; William Mancini, Hot Forge; Joseph Aureli, Screw Machine Tool.

Mill Products Division:— Frank Miller, Mill Engineering; Ray Ditoto, Strip Mill

Waterbury Services:— Tom Kaukas, Blacksmith Shop; Dante Tartaglia, Welding; Lester Kucheravy, East Electrical

Fair-Share Giving

This year, the fair-share formula has been broadened and each person who pledges his "fair share" will be presented a "Brass City Brass Check" badge of honor.

MEMO *from Management:*

We All Depend On Each Other

Some people think that just because a company is big, it has all the money it needs and can help support any cause, activity, or government program that comes along. In this day and age, the average company is expected to do more than just provide jobs by hopefully selling what it makes at a profit. Industry's tax dollars help pay the cost of running our local, state, and national governments; the cost of building our schools and roads; and the cost of training our astronauts. Its payroll dollars nourish stores, garages, bowling alleys, restaurants, dry-cleaners, repair shops — and all the other service industries that our complex society requires to keep us going, at work and at play. Its "good neighbor" dollars help pay for the visiting nurse, the child guidance counselor, the speech therapist, the new hospital wing — and other visible expressions of a community conscience.

The contributions of business to our way of life cannot always be measured in dollars. Who can put a price tag on the time and talent that industry's people devote to community programs that might not otherwise get done? But, where the contribution *can* be measured in dollars, the figures are impressive. For example, in the last five years, Scovill:

- has paid over \$38 million in income taxes to the Federal government
- has paid just under \$3 million in sales and use taxes and corporate business taxes to the State of Connecticut.
- has paid over \$6 million in property taxes to the City of Waterbury
- has contributed \$3¼ of a million to community funds and hospital drives in the Waterbury area
- has paid over \$180 million in wages and salaries to employees working in the Waterbury area.

The money that keeps all these wheels turning doesn't grow on trees. It comes from human effort — human effort that is put to profitable use. Those of us who work for a company realize that our jobs depend upon its continued operation. If it fails or moves away, we must look elsewhere for a living. But, we are not alone. Many other jobs and activities in a community depend upon the dollars that pass through a successful business each day.

Employees Donate 218 Pints of Blood

A total of 231 employees answered the plea for blood donations on Friday, September 19th, with 218 pints actually collected.

Section #3 scheduled to give at this time included employees in the Mill Products Division, Industrial Engineering, Transportation, Purchasing and Executive Offices. However, employees came from other sections of the plant also to make this fine showing.

Special gallon pins were awarded at this visitation:—

6-gal.:—William A. Rogers

4-gal.:—Anthony Scaviola

3-gal.:—John Kiely, John Brade

2-gal.:—Peter Dowling, Helen Brandt, Rudy Mannetti, Donald Perrelli, Richard Rogers, John Pescetelli

1-gal.:—John Staver, Irving Boyle, Jr., Albion Pelkey, Simone Messino, Charles Atwood.

All volunteers were included in a special drawing, with prizes going to: William L. Warner—tickets to a Yale game; Halit Mulla—electric knife; William Dougherty—corn popper; Joseph Rafferty—tea kettle.

Register And Vote!

In all towns in Connecticut having an election on November 4th, voters may be admitted up to and including Saturday, October 11th. In Waterbury, an all-day session will be held in the Aldermanic Chambers on October 11th from 9:00 a.m. to 8:00 p.m. (Check your Town Clerk for exact time in your community).

Persons who have changed resident address since the last election must call this to the attention of the Registrar of Voters. Penalty for failure to do so is removal of name from the voting list.

Persons who become 21 years of age, or who have achieved the six-months period of residence between October 11th and Election Day may be admitted on Monday, November 3rd. In Waterbury, hours on the 3rd are from 12:00 noon to 4:00 p.m.

Absentee Ballots may be obtained from the Town Clerk for use if you expect to be out of the state on Election Day, are sick or disabled, are a member of the armed forces, or are full-time students away at school.

In all towns—hours for voting on Election Day are 6:00 a.m. to 8:00 p.m.

ANTHONY MASSARELLI—Asst. Foreman, Dept. 35, Assembly Fuze C and Dept. 36, Dish

CARL PICKETT—Foreman, Dept. 30, Aluminum Finish

THOMAS MUCKLE—Asst. Foreman, Dept. 354, Gen. Manufacturing Tool

Mill Products Div.

VINCENT OLDAKOWSKI—Assistant to the Continuous Strip Mill Supt.

Plant Engineering

EDWARD O'LOUGHLIN — Foreman, Salvage Dept.

Standard Time

Eastern Standard Time will go into effect officially in the state of Connecticut at 2:01 a.m. on Sunday, October 26th.

At about that time, all clocks in the Waterbury divisions will be set back one hour.

Two Scovill Authors

A new American Management Association research study applying industrial engineering to management problems contains articles by two Scovill men.

Richard L. Heyniger, Mill Products Division Controller, is the author of an article titled, "Cost-Profit Relationships at Scovill's Mill Products Division". It describes the development of a standard direct cost system on computers for marketing and production use primarily to implement division profit planning and control.

James J. Boyle, Assistant Director of Industrial Engineering, is author of the second article, "An Inventor Control Program Using Exponential Forecasting as a Basis at Scovill Manufacturing Company". It was based on a new system to more effectively control inventories in the Mill Products Div.

Insofar as it can be determined, this is the first time that two authors from any one company were included in a research study produced by the American Management Association.

Retirements

JOHN PALLADINO, Chief Power Plant Electrical Engineer, retired as of October 1, 1969. He had completed 36 years and 2 months of service.

Training Course

ELECTRICIAN. Anthony Mancini was graduated as an electrician as of September 8, 1969. He has been assigned to the Electrical Dept.—West Plant.

GOLF TOURNAMENT FINALIST

Phil Valaitis, Gripper Eyelet Tool-room, holds trophy presented to him as second place winner in the Republican-American's 34th annual City Golf Tournament. Champion at Western Hills Golf Course, he played the title holder of the East Mountain Golf Course in the 36-hole final match.

JOHN WALLACE RETIRES AFTER 46.5 YEARS' SERVICE. Among the many well wishers who dropped into the West Machine Room to say "so long" to John Wallace were these close associates over the years. Plant Engr. Director Tom Colina (left) presented a token of remembrance in behalf of "the whole crew".

Your Social Security

"It has been over a year and a half since passage of the last set of amendments to the Social Security Act, but many people have still not applied for benefits to which these amendments entitle them," said Ernest D. Bauer, District Manager of the Waterbury Social Security Office.

Mr. Bauer named three groups of newly eligible persons:

1) *Children of retired, disabled, or deceased female workers.* They could be those under age 18, of students under age 22, or adult children who have been physically or mentally disabled since before the age 18. Those whose applications were turned down because the mother's work had not been recent enough should now apply.

2) *Disabled widows over age 50 with little or no work record but whose husbands were insured under the Social Security system.* Monthly benefits at a reduced rate can now be paid to those widows whose condition is severe enough and began within seven years after the husband's death or after termination of mother's benefits.

3) *Disabled workers—male or female—whose impairment began before age 31 and who worked less than five years under the S.S. system.* Under the amendments, some disabled workers can now become eligible for monthly benefits on the basis of as little as a year and a half of covered work.

Mr. Bauer invites anyone who feels he or she might fall into one of these categories to contact the Social Security Office. It is located at 236 Grand St. and is open from 9 a.m. to 5 p.m. If you can't stop in, call 756-7475.

Girls' Club News

By Lucille Houseknecht

Welcome to another month of great surprises. As we go to press, two trips were in the works and by now should be pleasant memories for all who participated. There was the October 1st bus trip to the New Haven Arena for the always delightful and colorful Ice Capades — and the October 4th fall trip to New York.

The trip to the Winery last month was also full of surprises—a glorious day for all who went along. A fine representation from Oakville Division joined the group.

On October 22nd, there will be a card party at SERA. Get your friends together and let's have a night of enjoyment with all the girls. A make-up demonstration is the star attraction.

Welcome new Club members Aida Spyrie, Ingeborg Mrosek, Connie Fernandes together with Cecelia Handura and Claudia Kacerguis of Oakville.

Pinochle

The 38th annual pinochle tournament started its first session on Thursday, October 3rd, with a roast beef dinner and refreshments.

William Mancini, Tournament Chairman, invites all employees interested in joining the group to contact the Employee Activities Office. Play is held on Thursdays at the SERA, starting at 7:30 p.m.

SECURITY DEPT. HAS NEW PATROL SCOUT. *Chief of Guards Michael Ryan hands over fire extinguisher to Lieutenant Edmund Roche for placing in Scout as part of equipment which will be available for any emergency.*

Security Dept. Ready For Any Emergency

Plant security is the foremost responsibility of our Security Department 24 hours a day. "Plant security" covers employees, buildings, equipment, work in process, finished products, and outlying properties.

Our security force is divided into three shifts with Chief Michael Ryan overseeing the entire department, assisted by Lieutenant Edmund Roche. Each shift has a sergeant who supervises the activities of his men.

Plant security activities include covering all parking lots within and outside Company gates regardless of hour or weather; also responding to emergency calls at all times.

Covering outlying areas during nighttime hours, especially in snow and muddy weather, and the need to get to an emergency in a hurry make it essential to have the proper vehicle and equipment.

A new International Scout, painted white and bearing the Scovill Security Patrol insignia, has been added to the Department. It's 4-wheel drive will enable our men to get to any given point in a hurry, regardless of snow or mud. It is being outfitted with equipment such as a fire extinguisher, first aid kit, rope, chain, 2-way radio, spotlight, amber blinker, etc. to handle any sudden emergency.

The Sergeant of each shift will be in charge of the vehicle, and the men are being trained in the use of first-aid equipment by our Hospital Staff.

Keep Hunting A Safe Sport

1. Never carry a loaded gun in an automobile, wagon, or other vehicle. Keep it in its case until you start hunting.
2. Before shooting, look into the breech and make sure that the barrel or barrels are clear.
3. Keep the safety lock on until just ready to shoot.
4. Never pull a gun through a fence. Carry it over with you. Keep the muzzle pointed away from yourself and others.
5. Never lay a loaded gun down in a boat. Never lift a gun from a boat by the barrel.
6. Don't set a loaded gun against a tree or a fence or leave it lying on the ground. Even a playful dog might cause it to be discharged.
7. After a fall, or a climb, or after walking over plowed ground, examine your gun to make sure the barrels are clear.
8. Never shoot at objects indistinctly seen among trees or bushes; they might be human beings.
9. Before shooting at game, make sure that no house, barn or other building is in the line of fire.
10. Don't leave your gun or shells near a stove, a fireplace or other fire.

Rod & Gun Club

By Vin Manzolli

Two of the Reeves Competitions have been held with two more to go. A check of the fish measured in indicates the fishing hasn't been too good, so far. Here's hoping it improves during October.

Who will be the Fishing Champion for 1968? Will it be *Jim Gilroy* again—or *J. Aleksinas*—or, perhaps, *George Bezuhly*, or *C. Bernabi*? Read the November issue of the *BULLETIN* for the answer.

This year marks the 40th anniversary of the Rod & Gun Club, and plans are in the making for a special banquet in November. More about this later.

Rifle Chairman *Charles Carpentier* advises the range will open the second week in October for practice shooting. Inter-departmental competition is expected to begin early November. A turkey shoot has already been scheduled for November 16th. So, shooters, keep that date in mind.

The word is out that *Richie Kulmann*, who recently married, is expected to rejoin the Main Tool Room team—last year's champions. His teammates are sure that only a few practice sessions will be needed for *Richie* to regain his keen eye and steady hand.

May we correct a misprint in the August *BULLETIN*. We stated that *Henry Tarasewich* caught a 2-lb. cod. We all know it was a 26-pounder. Sorry for the ribbing you must have taken, *Henry*.

Another misconception that needs to be corrected is that *Jack Brade* just "talks" big catches of fish. His wife, *Bunny*, assured us that because of their success this summer, she's had to purchase a larger freezer! We're inclined to believe her.

May we extend our congratulations to *Lenny Synkowicz*, newly elected president of SERA Board of Directors, and to all new members of the Board. We're sure we will continue to have a fine cooperative relationship with the new Board as we have had thru many, many years.

Basketball

The basketball season will start on Tuesday, November 18th. All Scovill men interested in playing are asked to contact the Employee Activities Office. Details on time and place will be published as soon as established.

Len Synkowicz New SERA Head

Len Synkowicz, of Fuse C Tool Room, was elected president of the Scovill Employee Recreation Association, at a meeting of the newly-elected Board held Tuesday, September 16th.

Frank Bogush, of Gripper Eyelet Tool, was elected Vice President. Ruth Peterson, of the Employee Activities Office, was re-appointed to the Post of Secretary-Treasurer.

Fourteen members of the Board of Directors were elected to serve one year at the annual membership meeting of the SERA held on Tuesday, September 16th. They are:—

The three officers; Edward Borowski, Carpenter Shop; John Capone, Tin Shop; John Deegan, Gripper Eyelet Tool Room; Carmen DiMaria, Electrical Maint.—East; John J. Finnegan, Oakville Division; Fred Kirschbaum, Manufacturing Eyelet; Rose Petti, Casting Shop Office; Lillian Santilli, General Quality Control; Margaret Snowden, General Products Tool; Pierre Savage, Screw Machine & Chuckers (Fuze C); and Les Kucheravy, Electrical Maint.—East.

Alternates elected were: John T. Mitchell, Jr., Fuze Administrative; Russ Gagne, Attaching Machines; James Spann, Chucking; and Nick D'Andrea, Multiple Spindles—New Britains.

Obituaries

THOMAS ENGALA died on September 6, 1969. An inspector of castings, Foundry—21 years' service.

JEREMIAH SULLIVAN died on September 8, 1969. Retired, Rod Mill in September, 1960—38 years.

JOSEPH LAMONTAGNE died on September 9, 1969. Retired, New Milford Tube Mill in January, 1965—29 years' service.

JOSEPH MORRONE died on September 15, 1969. Retired, Blanking Room in August, 1963—25 years.

MAURICE LISTON, JR. died on September 20, 1969. Marketing Manager, Mill Products Division—30 years.

GEORGE PEIRCEY died on September 29, 1969. Retired, Press #2 Tool Room—39 years' service.

SERA BOARD ELECTS NEW OFFICERS. Newly-elected SERA Board of Directors selected their officers for 1969-70 at their meeting directly following the annual membership meeting last month. They are: (left) President Leonard Synkowicz, Fuze C Tool Room; Secretary-Treasurer Ruth Peterson, Employee Activities Office; and Vice President Frank Bogush, Gripper Eyelet Tool Room.

What Is A Competitor?

(Many definitions of The Customer have been published, but this is the first we've seen of that other fellow everyone in business must consider.)

A competitor is a sly, cunning fellow who spends his days — and often his nights — thinking up ways to sell HIS goods and services to YOUR customers. He keeps coming up with new ideas. He makes it tough. This means you have to come up with new ideas, too, to sell your goods and services to new customers and re-sell them to your old ones. Or they'll all end up being HIS customers.

A competitor (without intending to be) often is more helpful to you than one of your friends. This may sound strange, but it's true. A friend often is too polite to point out your weaknesses. But not a competitor! He'll go out of his way to spot your weaknesses and "promote" them every chance he gets. And by doing so, he makes them that much easier for you to find and correct.

A competitor brings progress by his efforts to win your customer's favor. The competitor knows that your customer is not dependent on you. You are dependent on him. A competitor will try to convince your customer that his goods and services are the best, while you are doing the same. Competition, the lifeblood of business, makes the customer the boss.

A competitor should never be underestimated. The business graveyards are crowded with companies that figured they "had it made." They under-

estimated their competitor, who was trying to do the same thing they were: sell the best goods and services at the best prices. A competitor is always hoping you'll under-estimate his business ability.

A competitor is always with you. If you taper off in your sales efforts and services, he can quickly see where to increase his own. He knows that customers buy where they get the most for their money in goods, services and attention.

A competitor often seems to make life more difficult. Actually, it's the other way around. He's got one eye on his business and the other eye on yours. He keeps you on your toes every day. He chases after you, often so close that he breathes down your neck. He makes the race interesting and challenging, and just that much more rewarding when you win the victory.

Employee Store

For the convenience of employees, the Employee Store, located in the SERA Building, will be open one-half hour longer into the lunch period until further notice. Hours are:—

8:00 a.m. - 12:30 p.m.

1:00 p.m. - 5:00 p.m.
