

### Annual Report Reviews Progress

As a matter of interest to Scovill employees, we are reprinting in the following paragraphs excerpts from the message to stockholders as given by Malcolm Baldrige, Chairman of the Board of Directors, and President John Helies.

"Our earnings and sales for 1969 were exactly on target—a 10 per cent increase in per share earnings to \$3.91 a share and a 12 per cent increase in sales to \$444.5 million. This was satisfying not only because the figures were up but because our managers came through and met their projections in a year in which the economy as a whole started to slow down.

"In 1969 nearly every one of Scovill's major product lines shared in the gains. None of these advances came easily. In fact, some came in the face of adversity. Some notable examples:

"Housing starts in 1969 declined about 5 per cent, yet sales of our housing-related products climbed 7 per cent and profits rose 13 per cent. This means that these divisions, Nu-Tone, Lightcraft, and Caradco, demonstrated their ability to move ahead against the trend. Their strong product development and distribution systems are the primary factors responsible for this excellent performance. Notable gains were also made in the mobile and low-cost housing fields.

#### 1969 Annual Report

Employees interested in obtaining a copy of the Scovill Annual Report for 1969 may have one by contacting the Bulletin Office after March 15th.

"Copper prices were raised several times during the year, yet our Mill Products Division was able to preserve—and even slightly increase—its profit margins. This was due primarily to its strong marketing organization, its careful inventory control and its emphasis on sales of higher profit items.

"In 1969, too, we started to benefit from our past expenditures on research and development. One example is the development of a systems approach to our automotive business—the development and production of such products as emission control systems to reduce pollution and, still in the development stage, air control systems to power your car's accessories.

"Our Hamilton Beach Division had a very good 1969 as its operations became consolidated in two plants in North Carolina. Our con-

### 1970 Vacations

The Waterbury Divisions and Services will close for vacation starting Monday, June 29, 1970 and will reopen with the start of the first shift on Monday, July 13, 1970. Exceptions will be by notification in departments or to individual employees.

Employees entitled to more than 2 weeks of vacation and those required to work during the shutdown will be canvassed for their choice of time off.

Those who notify their foremen of their choice of time off will be given preference by seniority, provided they give such notification by April 1st.

In order that vacation pays can be prepared in advance of an employee's vacation, Central Accounting must have 3 weeks' notice prior to the start of vacation.

Employees who qualify will receive holiday pay for July 4th.

GORDON JONES WINS THE FORD TORINO

President John Helies turns over the keys of the 1970 Ford Torino to Gordon Jones, winner of the Holiday Suggestion System contest. Onlookers are Scovill Local 1604 president Thomas Curtin and a very happy Mrs. Jones. While still "not believing I had a chance to win", Mr. Jones had had four chances to win as that was the number of eligible suggestions he had submitted during the contest period. He's a millwright, working on the second shift.

# MEMO *from Management:*

## Scovill Today

The Scovill annual report for 1969, which is due from the printer this week, devotes considerable attention to describing the major markets in which we do business. These can be summarized as follows:

About 26 percent of Scovill's sales are in products for the housing industry. These include NuTone built-ins, Lightcraft lighting fixtures, WoodCarv kitchen cabinets, Caradco windows and doors, copper water tube, and various custom parts and assemblies sold to the building and construction trades.

About 39 percent of our 1969 sales were in consumer products, where Hamilton Beach and Dominion Electric, Dritz and Clinton notions and sewing aids, Nylaire and Nyguard zippers, Gripper snap fasteners, cosmetic cases and aerosol valves, have truly made Scovill a household word.

Sales to the automotive industry accounted for about 14 percent of 1969 sales. These include such products as the Schrader tire valve and, to an increasing extent, more complex products such as air conditioning hose assemblies and emission control systems.

Another 15 percent of 1969 sales were in a wide range of industrial markets. These include those brass and aluminum mill products and custom parts and assemblies not assigned to any of the above market classifications. They also include Schrader fluid power products.

The above percentages add up to 94%. Military products, which have been declining steadily, account for the remaining 6 percent of 1969 Company sales.

Scovill today has a strong position in four major markets—markets which will continue to offer attractive growth opportunities to those companies smart enough and aggressive enough to take advantage of them.

## Scovill 1969 Annual Report

*(Continued from Page 1, Col. 3)*

fidence in the small appliance market is further indicated by our acquisition of Dominion Electric in April.

"We continue to have excellent labor relations. During 1969, we signed a three-year contract with the United Auto Workers in Waterbury without any work interruptions.

"Finally as we enter the '70's, we'd like to note the change that has come about at Scovill in the '60's. Since

1960, Scovill has grown from a company known primarily as a brass mill with sales of \$142,000,000 and earnings of 62 cents a share to a widely diversified, balanced company with 1969 sales of \$444 million and earnings of \$3.91 per share. We thank you, our stockholders and our employees, for supporting us in the '60's. We will try to continue this progress in the '70's.

## Your Social Security

If retirement time is coming but you're not ready to retire yet, you might want to think about semi-retirement. You could continue to work part-time while still reserving leisure time in which to develop new hobbies and interests. And, if you're 65 or over and semi-retired, you might be able to add social security to this combination of work and leisure.

If you're eligible for social security retirement benefits you will be able to draw your full benefit check each month if your earnings are less than \$1,680 a year. If your income is between \$1,680 and \$2,880, you will lose one dollar in benefits for every two dollars you earn. If your income goes above \$2,800 a year, you will lose one dollar in benefits for every dollar earned.

Social security benefits, like benefits under other insurance programs, are only paid when the insured risk has occurred. The fire insurance on your house, for example, pays off only if you have a fire. In the case of social security retirement benefits, the covered risk is loss of income due to retirement. This is why benefits are reduced or stopped for beneficiaries who are earning enough money so that they cannot be considered to have suffered the loss of earnings against which the program insures.

Your decision about how to spend your retirement years is an important one and should be considered carefully. Some people prefer to remain in the world of work on a part-time basis, while others find retirement a challenge and a chance to travel, develop hobbies, take an active part in community activities and to do many other things for which they had not found time during their working years. Retirement can be either exciting or frustrating, depending upon how well you plan it in terms of your needs.

## Good Friday

The Waterbury Divisions and Services will close for Good Friday at the end of the work day on Thursday, March 26, and will reopen with the start of the first shift on Monday, March 30.

Good Friday is one of the holidays for which employees who qualify are paid when they do not work.

## New Assignments

### Closure Div.

CHARLES F. ASH, II—District Sales Manager; Atlanta, Georgia

JAMES B. DUFF—Product Sales Manager, Narrow Fabrics Section; New York Sales Office

RICHARD L. IZARD—Product Manager, Blind Rivet

RICHARD McCAFFERY—General Product Manager, Zipper

WILLIAM C. MITCHELL—Manager, Field Equipment

FRED ONDERDONK—Northeast Regional Sales Manager

### Employee Relations

JOHN T. JONES—Chief, Security Department

### Hamilton Beach

CHARLES M. DALY—Contract Marketing Manager; Chicago Office

## Training Course

TOOLMAKER. Edward Bianchi was graduated as a toolmaker as of February 2, 1970. He has been assigned to the Gripper Eyelet Tool Room.

## Retirements

AGOSTINA FINOCCHIO, Closing Room, retired as of February 1, 1970, with 33 years' service.

### Effective March 1, 1970

MICHAEL BAKER, sample control man in the Strip Mill—44 years.

JENNIE BUTLER, bench inspector in Chucking—24.2 years.

ARNOLD CASSIDY, tool machine operator in Closure Tool—30 years.

ANTHONY CURZIO, furnace lineman in Casting—34 years.

VICTORIA DANIELS, Quality Control inspector in General Quality Control—28.1 years.

THOMAS DUNLAP, technician in Electrical Testing Lab—34 years.

HERBERT EDELMAN, Mills Administrative Assistant, Jackson, Mich.—36 years.

## Census Day—April 1

You wouldn't want to lose a voice in Congress, would you?

You can very easily, by not filling in your Census Form. That's because legislatures, both national and state, are based on population. And if you, and enough of your neighbors, feel the Census is a nuisance instead of a necessity, you may not be counted. And, if that happens, it may be just enough to lose you a representative.

And that's only one reason you should fill in your Census form. Because the information you give—about yourself, your house, and your family—is used by the government to determine the needs of your city, county, or neighborhood. It can mean better schools, better recreational facilities, and better housing—as well as a greater voice in Congress.

So, don't hesitate to fill in your Census Form. It's not only absolutely private (not even the FBI is allowed to see it)—but it's also one good way to help make your community a better place to live.

The questionnaire will be delivered by the letter carrier and each family will be asked to fill it out, using a penciled dot language that can be read by FOSDIC, the Census Bureau's ingenious scanning machine.

AMBROSE FEEST, eyelet machine operator in Mfg. Eyelet—29.6 years.

MARIE GENTILE, vertical edger operator in Press 2—29.9 years.

SAVERIO LAUDATE, shake out operator in the Foundry—21 years.

CATHERINE LAUDATE, punch press operator in Press 2—29.5 years.

DIEGO LEONE, crane trailer in the Strip Mill—33 years.

JOHN MANCINI, maintenance & construction in General Maintenance—27.9 years.

EDUARDO MARTINEZ, gang leader, furnace loader and unloader, Strip Mill—16.7 years.

CARMELLA MENTURWECK, bench fixtures operator in Fuze C—20 years.

ERNEST MONTAMBAULT, machinist in Chucking—49 years.

WALTER NIEBUHR, toolmaker in Hot Forge Tool—38 years.

EMMA SAUNDERS, miscellaneous machines operator in Press 1—24.4 years.

DOBORAH SHEA, punch press operator in Hot Forge—14.8 years.

ARMANDO SILVA, Centrifugal oil separator operator in Fuze C—14.7 years.

John Gelwicks  
Cosmetic Sales  
25 yrs — Feb. 27

Renaud LaChance  
Gen. Prod. Tool  
25 yrs — Feb. 7

## Service Awards

C. PATRICIA WOODS, Cont. Mfg. Prod.  
10 years — February 1, 1970

JOSE DEBARROS, Rod Mill  
10 years — February 9, 1970

MARY B. BROWN, Gen. Quality Cont.  
10 years — February 16, 1970

EVELYN CHESNAS, Mailing & Filing  
10 years — February 22, 1970

## Credit Unions

Credit Union #4—In error, the listing of officers for Credit Union #4 was given in last month's issue as Credit Union #2. Officers and dividend declared of Credit Union #2 are as follows:

### Credit Union #2

Dividend declared—4.5%

President—Peter Moneta

Vice Pres.—Vincent Iacovino

Secy-Treas.—James Ryan

Board of Directors—the officers, Carl Longo, Patrick Fitzpatrick, Frank Miller, James Smith

Credit Committee — Carl Longo, Vincent Iacovino, John Synnott

Supervisory Committee — James Smith, Matthew Kobylinski, Bob Shove

JAMES CAVANAUGH left for service with the U.S. Marines on February 6, 1970. A toolmaker in the Gripper Eyelet Tool Room, he has been in Scovill since July, 1966.

RICHARD BIANCHI left on February 6, 1970 for service with the U.S. Marines. A toolmaker in the Gripper Eyelet Tool Room he has been employed in Scovill since November, 1964.

## Are You Suspicious —

By Robert W. Butler, M.D.

—that booze may be beating you? If you are (and you may be the only one who knows), you're sick and you'd better get help while the helping is good. By this I mean: get help before you lose your friends, family, money and health. Sure — you can get help at any stage; but if you don't get it soon enough you'll have a lot of heartaches to go with your headaches and bellyaches!

You're sick, man, you're *sick* — and if you want to treat your own diabetes or cancer or tuberculosis you might as well have a shot at treating your booze problem as well, but let's hope you discover what a flop you are before it's too late.

There are about 60 - 70,000,000 social drinkers in the United States, and about 5 - 6,000,000 problem drinkers or alcoholics. (They're problem drinkers until they know they're hooked and get the disease under control, and then they're "alcoholics" — and if you doubt this, just ask them).

Of the millions of alcoholics in the country, only about 5% are on skid row, so don't try to kid yourself into thinking you have no problem because you haven't started sleeping in doorways — yet. Most problem drinkers are living at home and, for a while at least, showing some semblance of normalcy. They also go to work, even though much of the time they're only half there and putting on a pretty miserable kind of performance operating a machine or running a company.

The social drinker, who may even get falling-down-drunk a couple of times a year, becomes an alcoholic when he loses control. Through no fault of his own this guy or gal can't take one, or two, or three and quit. Once he starts he can't stop until semi-oblivion sets in. He may be able to squeeze his head through the door and get to work in the morning, but he won't be happy doing it, and will hardly be able to wait until quitting time to give the jug another squeeze — and chase oblivion again. This is escape from escape from escape unto ruin.

Don't get any idea that our victim is in this state due to lack of moral fiber, courage, or just plain guts—he's *sick* and he knows it; but he has so

JAMES MCQUEEN RECEIVES \$205. PARTIAL AWARD

*Electrical Testing Lab Foreman Joseph Cepelak gets details on the new magnetizer devised by James McQueen which will lower the voltage output of a speed sensor assembly without disassembling the entire unit. Formerly, when the sensor indicated high voltage output, it was necessary to take apart the unit to lower the voltage, an operation costly in time and materials used.*

## Other Suggestion Awards

\$304. was awarded to Margaret McGrath, General Quality Control

\$30.—Anna Shatinsky, Lacquer

\$30.—Egiziano Giacobini, Lacquer

much pride that he tries to hide it and joins the select groups of people on reducing diets, the diabetics and the ulcer patients. People with these four afflictions encompass about 98% of all the medical cheats and liars in the universe—and the uncontrolled alcoholic heads the list. He's so busy lying he never has time to tell the truth!

So what about you? Do you drink too much too often? Are you hung over too often? Do you go to parties and wake up in the morning not knowing how you got home and to bed? Do you regularly offer your services as bartender at these parties? Do you gulp or sneak drinks? Do you make long distance phone calls and when you get the bill wonder whom you know in Sheep Dip, Kansas? Have you discovered that a slug of the hair of the dog in the morning is the greatest invention since the wheel?

If the answer to any of these questions (and there are many others) is yes—you're already in trouble and you'd better start the salvage operation before you reach the point where there is nothing to recover, because this is where you're headed.

About a dozen years ago we started a program here to help you sick peo-

## Scovill Group — Alcoholics Anonymous

Meetings are held each Sunday evening, at 6:30 p.m. at the SERA.

All employees and members of their immediate families who are now members of A.A., or who have a drinking problem, are invited to attend.

Further information may be had by contacting any member of the Scovill Alcohol Program Committee: J. M. Burrall, Dr. R. W. Butler, Roger P. Rose or Charles Rietdyke.

ple and we're happy to say we've been able to help many. It hasn't been easy and sometimes it's been most discouraging; but we don't give up easily and the results have been well worth the effort.

Have a problem? Want to get better? If so, come and see us — but you've got to realize that right now getting better is the most important thing in the world for you, and you can't *possibly* do it without help.

If you honestly want help, come around because we can provide it.

If you don't, that's another matter; after all — it's *your* life!

### Parties Held Honoring February Retirees

(1) A plant-wide party was held at the SERA honoring nine General Products Division men who had totaled 338 years of service. Seated:— Frank Klinzmann, 34 years; Charles Blackburn, 45 years; Vincent Polzella, 46 years; Gray Butler, 30 years. Standing:— Louis Kerwin, 39 years; Charles Paul, 33 years; William Sutton, 41 years; Frank Williams, 34 years (retiring March 1st); Salvatore Tolla, 36 years.

(2) Joao Martha, retiring with 49 years' service receives token of remembrance from Louis Gosain, Union Divisional Steward; New Milford Foremen Jack Carrington and John Greaney smile their approval.

(3) Anthony Fasano, Gripper Eyelet—33 years

(4) John Patronik, Screw Machine—12.4 years

(5) George Ralph, Rod Mill—45.5 years

(6) Charles Ruffini, Closure Packing—47 years

(7) Arthur Gallagher, Press 1—39 years

(8) Henry Menard, Millwrights—29.4 years

(9) Joseph Sullivan, West Machine (2nd left)—37 years. On hand for the event were John Wallace (3rd left) former West Machine Room foreman now retired; Don MacIntosh, Casting Shop Engineer (left) and William Rosevear, Mill Div. Tool Engineer.

(10) Salvatore Tolla — Transmission Assembly — 36 years.

"FILL IT UP" — A MUST FOR FIRE EXTINGUISHERS. *Anthony Crispino and Bert Lafrenier of our Fire Dept., keep all extinguishers ready for action, except the carbon dioxide type which is a gas type requiring special equipment to refill.*

### Fire Extinguishers Must Be Ready for Action

Fire waits for no one. When a fire breaks out is not the time to wonder if the nearest extinguisher is ready for use. This type of fire equipment should be checked before each shift, especially if you operate a machine or crane where fire is likely to occur (look at the pressure gauge).

If an extinguisher is found hanging up and the seal broken, (or one off its hanger) it should be removed and taken to the shift foreman who, in turn, will call the Fire (Ext. 748) or Safety Dept. (Ext. 888) to have it replaced or refilled.

Recently several extinguishers were found which had been used but not

reported and so would be useless in event of a fire. All employees are asked to notify their foreman immediately if they notice an extinguisher which is not in working order. You can help us make Scovill a safe place to work.

### Fun Nite at SERA

The first in a series of events for the "young at heart"—single or married employees—will be held at the SERA on Monday, March 16th at 7:30 p.m.

Nick D'Andrea, chairman of the Young Folks Activities, announces that the program will consist of badminton, shuffleboard, music and refreshments.

## Rod & Gun Club

*By Vin Manzolli*

The Rod & Gun Club Officers for 1970 were installed by Harold Rogers at the very well attended February meeting. Upon conclusion of the business session, food and refreshments were served, followed by several friendly card games. This turned out to be such an enjoyable evening that a number of members expressed the hope that future monthly meetings be as well attended and that the card games become a regular part of the program. We'd like nothing better—so, fellows, if interested, make it a point to attend our meetings which are always held on the third Tuesday of the month.

Our officers for 1970 are: President Paul Delage, Press 2; Vice President Carmen DiMaria, East Electrical; Treasurer Dennis Galvin, Mfg. Production; Financial Secretary Donald Berry, East Electrical; Secretary Vin Manzolli, Mfg. Production.

We'd like to extend our deep appreciation to the SERA Board of Directors for their continued financial support of our annual trout stocking program. This support is the source of much pleasurable fishing for many of our members. Again, "thank you".

Fishing Chairman Bob Fumire, together with Fred Wilson, is making plans for the first stocking of 11" to 12" trout, to take place April 12th, the Sunday before Opening Day. It is hoped that many of you will be on hand to help put the fish into the water. Bob will need all the help he can get. Won't you plan to be there?

Rifle Chairman Charlie Carpentier advises the team standings as of Feb. 20th were: Mfg. Eyelet, 7 wins-1 loss; Main Tool Room, 7-1; M-219 Fuze, 3-5; Pipe Shop, 2-6.

Question:— What happened to the Main Tool Room who, only a short time ago, were in the lead? Will they regain that lead? Do they need more practice? Only time will tell.

An Easter Ham Shoot is scheduled for March 15th for our sharpshooters. May we suggest you bring along your wives? You may remember last year some of them turned out to be expert "marksmen" and walked off with prizes. Or should we have said "marks-women"? Anyway, invite them to go along unless, of course, you expect the competition will be too much for you.

As for you fishermen, we suggest you start readying your tackle—the fishing season is almost upon us.

ROD & GUN CLUB OFFICERS FOR 1970

*An ambitious schedule of activities is being lined up for Club members by their recently re-elected officers:— Vice Pres. Carmen DiMaria, Secretary Vin Manzolli (standing), President Paul Delage and Treasurer Dennis Galvin. Financial Secretary Don Berry was not available for the picture-taking.*

**FUTURE ENGINEERS TOUR PLANT.** *Twenty-five members of the senior class at the Waterbury State Technical Institute visited ....several of our mill and manufacturing de-*

*partments recently. Field trips to various manufacturing plants in the area are included in their courses at school which cover machine, tool and die, and other related trades.*

## Obituaries

**Ralph Dawson** died on January 31, 1970. Retired, Closure Division Salesman, New York Office, in January, 1955—48 years' service.

**Ernest Poirier** died on February 2, 1970. Retired, Bldg. 112 Service, in March, 1966—15 years.

**John Plochino** died on February 4, 1970. Retired, Casting Shop, in October, 1959—11 years.

**Catherine Bergen** died on February 5, 1970. Retired, Closing Room, in December, 1957—44 years.

**Antonio Amento** died on February 8, 1970. Retired, Blanking Room, in November, 1959—41 years.

**Kathleen Pakulat** died on February 9, 1970. Retired, Closure Packing, in January, 1970—37 years.

**Loretta Gardner** died on February 5, 1970. Retired, Trucking Dept., in 1960—36 years.

**Margaret Hosking** died on February 8, 1970. Retired, Press #1, in November, 1954—18 years.

**Anthony Perrelli** died on February 10, 1970. Retired, Buff Room, in January, 1970—17 years.

**Joseph Romanuskas** died on February 13, 1970. A toolmaker in Cosmetic Eyelet Tool Room—34 years.

**Tobias Bannon** died on February 16, 1970. Retired, Carpenter Shop, in January, 1955—12 years.

**Peter Mulhall** died on February 17, 1970. Retired, Casting Shop, in March, 1957—35 years.

## Scovill Parking

Employees granted parking privileges are assigned to a particular area and, in certain areas, a specific spot. Parking in any other location is a violation of Parking Rules.

Employees expecting to be away from the plant cannot "loan" their parking spot to another employee. This is a violation of Parking Rules.

**Violation of parking regulations can mean revoking of parking privilege. Illegally parked cars will be towed at owner's expense.**

**Mary Wyant** died on February 17, 1970. Retired, Cosmetic Container Division, in April, 1967—15 years.

**Eugene Shanley** died on February 18, 1970. Retired, Cosmetic Container Div. in January, 1961—43 years.

**MARY V. SULLIVAN** died on February 20, 1970. Retired, Comptroller's Office in August, 1959—44 years.

**LEO MORITIS** died on February 22, 1970. A productive helper in the Rod Mill—20 years.

**CHARLES KLOBEDANZ** died on February 24, 1970. Retired, Tube Mill, in November, 1965—42 years.

**THOMAS MCGUIRE** died on March 1, 1970. Retired, Waterville Division, December, 1954—29 years.

## Girls' Club News

*By Lucille Houseknecht*

Our recent spring fashion show was a great success with everyone having a most enjoyable evening.

Now we are busy making plans for our pre-St. Patrick's Day dinner dance to be held on March 7th at the SERA. 'Twill be all over by the time you receive this issue but the enthusiasm at press time assures this event of being a huge success also.

A bus trip to New York is planned for March 14th. At press time there were three busses all lined up to go. It's a wonderful opportunity to take in the always beautiful and popular Easter Pageant at Radio City, or to get some Easter shopping done—got your Easter bonnet yet?

Our annual meeting will be held in April—we're planning something "really big" so please be sure to come—you'll have a "bang-up" time. Flyers will be out soon with all details.

Our president *Evelyn Smoil* is vacationing in the Bahamas—getting the jump on the rest of us in soaking up the sun for the first tan.

Our best to *Della Riccio*—hope your recovery is speedy and we see you back real soon.
