\$1,298 Initial Award For Idea

Award Winner George Chepulis (left) and Alfred Smith, Foreman of the Finishing Division — Strip Mill.

George Chepulis and Victor Dion, both of the Strip Mill, joined forces in submitting an idea which earned for each an initial payment of \$649. Their suggestion will be reviewed in a year's time and final payment made.

The men proposed a change in the method of winding brass coils whereby reworking of the coils could be avoided thus eliminating scrap and increasing the yield.

Victor Dion was not available for the picture taking.

Other suggestion awards appear on Page 6 of this issue.

What It's All About

Many, many Scovill employees cheerfully respond to each call for blood donations. To few does the realization come that often a life has been saved because of the actual pint of blood given by them.

Several Scovill employees have volunteered their blood for open heart surgery. Here, where an actual human being is involved, the name is known, and the illness which could take this life — it becomes a different story for the donor. Sometimes the life is saved — sometimes it is not. And when this happens, it is also felt as a personal loss by the blood donor.

One such employee is Shirley Errico, who has given over four gallons of blood thru Blood Mobile Unit visits to Scovill as well as to several open heart surgery cases. She recently showed us a letter she received from Dr. R.R. Nesbit, of the Hospital of St. Raphael in New Haven and we want to share it in part with you.

"My purpose in writing is to thank you for the kindness and generosity you demonstrated when you came to St. Raphael's Blood Bank recently to give blood for use during heart surgery on the late. . . . In spite of the sadness

the loss of . . . causes all of us, I think it important to realize that in this operation her one chance of being able to carry out a life of normal activity was being offered. Without it, there was nothing in the future but the prospect of increasing disability to the point of being a complete cardiac invalid. She knew this even better than we and, knowing it, was willing to accept the one possibility along with the risk involved as her choice."

"Having made the choice, it then remained for friends like you (the patient was unknown to Shirley) to make the choice possible. Just think how dreadful it would be if because of the lack of a few pints of blood, the possibility of giving someone a normal life was denied. Yet, that is the fact, clear and definite. . . ."

Heartbroken because of the loss of the patient, Shirley wondered about the value of such surgery but, since receipt of this letter, her strong feelings are that if a person is courageous enough, knowing the full risks, to chance such an operation, then surely everyone of us ought to be willing to offer him that chance. The cost is so little to the donor — a pint of blood and a little time!

Holiday Special Blood Day, Dec. 11

Friday, December 11th — from 11:00 a.m. to 5:00 p.m. at the SERA — is the time set for the fourth Blood Mobile Unit visitation to Scovill this year. The earlier date was chosen so that all qualified employees could participate before becoming involved with their other planned holiday activities.

Designated as a "Holiday Special," this visitation gives all employees an opportunity to share the greatest gift of all — the gift of life — with someone less fortunate.

RH Negative Donors

RH negative potential donors sometimes are of the opinion that they should not donate regularly but should "save" their donations for emergency recruitment on request of hospitals. However, this reasoning leads to a shortage of RH negative blood supplies.

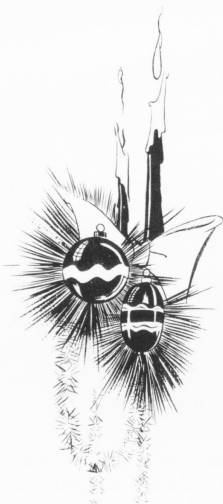

Regular donations by RH negative persons would assure a continuing adequate supply. RH negative patients need blood, just as other patients do.

RH negative blood donated is rare in this state — not because RH negative people are rare, but because the occasions on which they donate are rare. The only blood that's rare is the blood that isn't there!

A Letter on Courage

Mrs. Shirley Errico, Wire Mill, and Mrs. Florence Malicki of the Hartford Blood Center, share contents of letter from St. Raphael Hospital's Doctor R.R. Nesbit on recent open heart surgery case for which Mrs. Errico had donated blood.

SEASONS GREETINGS

On behalf of the Company, I wish each of you a Merry Christmas and a Happy New Year.

May you and your families be guided and sustained by the true spirit of Christmas, during the holiday season and the new year that follows.

Sincerely,

John C. Helms

President

On behalf of Scovill Local 1604, UAW—the officers, Executive Board, Negotiating Committee and myself—I wish to extend a Merry Christmas and a Happy New Year to all Scovill employees and their families.

Sincerely,

Thomas F. Custer

President

Scovill Local 1604, UAW

Christmas Mailings

Mr. William Phelan, Officer-In-Charge, of the Waterbury Post Office, reminds our readers of the final deadlines suggested by the Post Office Department to make sure all Christmas mail is delivered on time.

December 11 — Airmail packages and letters to servicemen or relatives overseas. Also, for cards to distant states.

December 12 — Gifts to local areas.

December 15 — Cards and letters to local areas.

First, please note that all Christmas cards, whether sealed or not, require a

six-cent stamp. To insure speedier handling, this year the Post Office is offering for sale pre-cancelled Christmas stamps. These stamps, and the use of Zip Code numbers on all mail, will get your Christmas remembrances to their destination in the quickest possible time. The Post Office is also delivering to each home, bands for use in separating local, out of state, and special handling mail.

Information on weight restrictions and postage rates may be obtained by contacting the Post Office.

New Assignments

Closure Division

Walter T. Ackerman — Manager, Zipper Engineering

Hugh Andrews — Manager, Fastener Engineering

Raymond Capowich — Manager, Process Engineering

Jonathan Foults — Manager, Field Equipment

Joseph E. Donahue — Asst. Foreman, Dept. 27, Plating Room and Dept. 29, Rolling Room.

Cosmetic Container Div.

Jon Barth — Supervisor of Purchasing and Manufacturing Depts. #61, 346, 347 and 668.

Employee Relations

Emil F. Howes — Manager, Employee Relations

Donald LaBonte — Sergeant, Security Dept.

David A. Ryan — Director, Industrial Relations.

General Products Div.

Michael Campi — In addition to his responsibilities as Foreman of Dept. #1, Blanking Room, is in charge of Dept. #2, Drawing Room

Michael Kuba — in addition to his responsibilities as Foreman of Dept. 6, Coupling, is in charge of Dept. 15, Annealing

John J. McKenna — General Foreman, Depts. 81, Kingsbury and Dept. 86, Chucking, East Plant

Robert Matey — Foreman, 2nd shift activities, all operating departments, Bldgs. 109, 112 and 65 East Plant

John Meehan — in addition to his responsibilities as Engineer-in-charge, Finishing, is in charge of Dept. #30, Aluminum Finish

Carlton Pickett — Foreman, Dept. #25, Lacquer Room

Louis Quattrocchi — in addition to his responsibilities as Foreman of Dept. 28, Dip Room, is in charge of Dept. 26, Plating Room

Andrew D. Wylie — Maintenance & Equipment Engineer, Dept. 679, Screw Machine Production, East Plant

Mill Products Div.

Stanley F. Nicklas — Credit Manager

Plant Engineering

Earl F. Tooker — Foreman, Welding shop, Dept. 316

Mailing Within the Plant

If you are planning to send cards to associates within the plant, be sure to write out the department name in which the person is employed. Do not use department or building numbers.

Service Awards

Carl Longo
Aluminum Mill
40 yrs — Nov. 16

Everett Barney
Gen. Prod. Tool
25 yrs — Oct. 25

Edward Berube
Mill Prod. Sales
25 yrs — Oct. 22

William Miller
Mill Prod. Div.
Norwood, Mass.
25 yrs — Oct. 15

Henry Minor
Mill Prod. Div.
Los Angeles, Calif.
25 Yrs — Nov. 5

40-year Award

November, 1970 — Lauretta Champagne, Closing Room; Henry Kosmoski, General Products Tool

25-year Award

October, 1970 — Maurice Presley, Tube Mill Office; Alexander Boyarchok, Lacquer Room; Wilbrod LaFrenier, Casting; James Wildes, Aluminum Mill; Francis Murphy, Closure Production; Edward Punter, Hot Forge; Harry Bellemare, Closing Tool; Anna Marinaro, Coupling; Rudolph Mannetti, Screw Machine; Armand Provancer, Screw Machine

November, 1970 — Donato Galanti, Casting; Edward Hill, Mfg. Eyelet

10-year Award

October, 1970 — Abilio Morgado, Kingsbury Dept.

November, 1970 — John Costello, Screw Machine; Alfred Smith, Rod Mill

H-B New Field Sales Managers

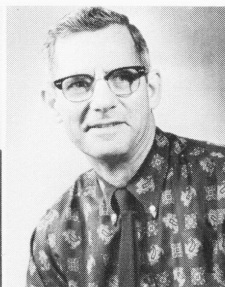

Paul C. Ackels has been named Eastern sales manager and Richard Beyer was named Western sales manager, according to notice issued by John J. Flaherty, Manager of Marketing for our Hamilton Beach Division.

Responsibilities of the new sales managers will include all field sales operations and the supervision of the national field sales force; thus eliminating the position of national sales manager.

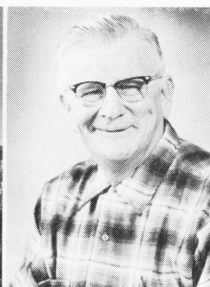

"These moves have become necessary because of increased sales and expanding marketing opportunities," Mr. Flaherty said. "They represent another step by Hamilton Beach in the continuous development of in-market merchandising programs. In addition, the consolidation of the sales and marketing organizations will provide improved liason between our sales and product planning operations."

William Morrison
Traffic Ofc.
25 yrs — Nov. 5

Walter Moss
Cl. Tl. & Mach.
25 yrs — Oct. 15

Richard Tooley
Gen. Pr. Tool
25 yrs — Oct. 15

Delmar Trout
Metals Research
25 yrs — Oct. 15

Emergency Work Schedules

In the event of any emergency which might affect work schedules, employees may now call telephone number 757-8321 to check their work schedules. This special number may be called at any hour. A recorded message

will describe any change in or cancellation of regular schedules.

Small telephone stickers, showing this emergency number, are available in all departments. Why not pick up one for your home phone.

A "Thank You" To Milt Burrall

Highlight of the Rod & Gun Club's annual meeting was presentation of a special placque to Milton Burrall who retires this month. In appreciation of his assistance to the Club and his services as a most able, enjoyable Master of Ceremonies over the years, President Paul Delage presented the placque which is inscribed: — "J. Milton Burrall from his friends — The Scovill Rod & Gun Club — November 12th, 1970." Fred Kirschbaum heartily approves the action.

Scovill Wise Owl #31

Charles Diaz became a member of the Scovill Wise Owl Club because he was wearing safety eyeglasses when involved in an incident in the Casting Shop.

As he was pouring molten brass into a mold, hot metal suddenly blew out of the mold and struck him on various parts of the body and heavily splattered the left lens of his safety glasses. Without the safety glasses, Mr. Diaz would have had serious damage to his left eye.

How often have you heard, or said, "There is only one chance in a million of getting a foreign body or some chemical solution in my eye" — "I have been doing it this way for years and have never gotten anything in my eye" — "Glasses hurt my nose and give me a headache"?

In the plant — The Scovill Eye Protection Program, which provides proper protective equipment wherever needed by employees has prevented untold numbers of employees from suffering impaired vision or blindness as well as other suffering and disability time. It is the employee's responsibility to wear such equipment at all times while on the job.

Away from the plant — the greatest danger is in home and recreation accidents, and automobile crashes, especially to children. The National Society for the Prevention of Blindness points out that half of all blindness, in children or adults, is preventable.

Today, with economical means of prevention readily available, it is tragic that so many persons who wear spectacles are provided only with fragile glass which, upon impact, often shatters into dangerous slivers which can damage or destroy human vision. Millions more, who don't require spectacles, wear unsafe sunglasses.

Safe Winter Driving

Safe winter driving takes special techniques and skills; any error on your part can mean serious injury or death. Here are a few tips to assist you during this period:

Before cold weather sets in — check brakes, tires, lights, windshield, defroster, muffler, flashers.

Winter driving is different — you can't rely on instinct or "feel". You've got to be able to see the entire picture — all the time.

Before you start out — clean windshields of ice and snow, fog inside — not just a peephole, but the entire windshield; also, side and rear windows. Remember — you've got to see danger to avoid it.

When stuck in a snowbank — get the snow away from the tires first by turning your wheels back and forth a few times. Then, straighten them out and ease forward in low gear, accelerating easily. Sometimes, rocking the car will get you unstuck. But, check the recommendations in your owner's manual to avoid transmission damage.

Traction can be increased by sprinkling sand or rock salt under the drive wheels or carry a piece of carpeting to put under a spinning wheel. Studded tires and chains are the best assurance of "go" traction. On loosely packed snow, snow tires have a 51% better traction rating than regular tires; reinforced tire chains have a 313% better rating according to the National Safety Council.

When driving on ice or snow — you can't stop on a dime. Slow down gradually, well ahead of intersections where the going may be slippery. Give yourself plenty of time and space to stop. Never jam on the brakes — you'll only go into a skid. Pump the brake with hard rapid jabs.

If you go into a skid — take your foot off the gas and turn the wheels in the same direction the rear of your car is skidding. You'll be able to feel the

car come out of the skid — then straighten your wheels. Never hit the brakes when the rear end starts to slide. Ice is twice as slippery at 30°F as it is at 20°F.

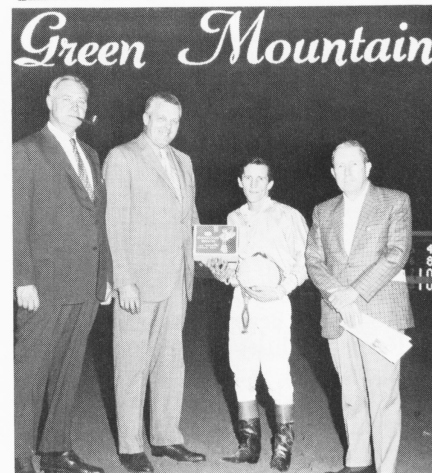

Posted Speed Limit on Scovill Property is 15 miles per hour.

Scovill Group - A.A.

Meetings are held each Sunday at 6:30 p.m. at the SERA.

All employees and members of their immediate families who are now members of A.A., or have a drinking problem, are invited to attend.

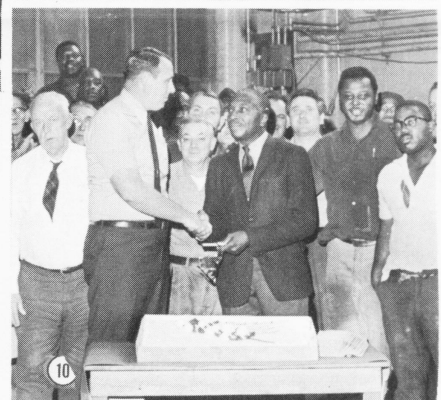

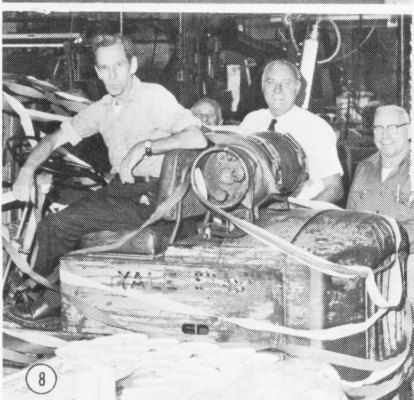

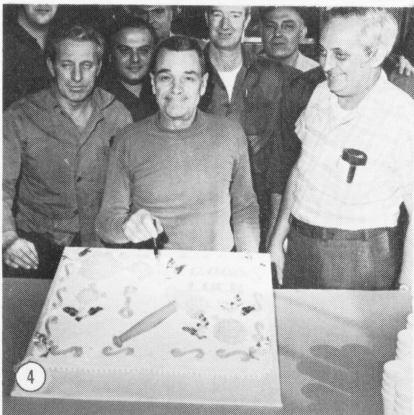

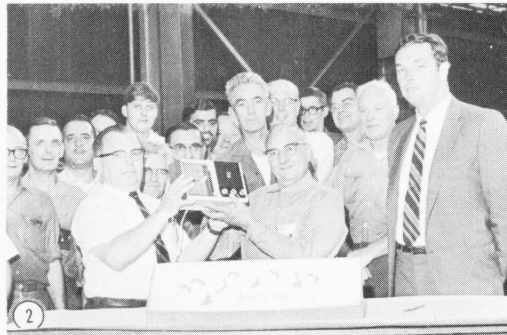

Foremen's Day At The Races

A profitable, to some unprofitable, day was enjoyed by 21 couples recently at the Scovill Foremen's Club Day At the Races. Pictured with the winning jockey at the SFA Feature were John Corbett, Henry Jankowski and Ray Murphy. The Club presented a Hamilton Beach Mixette to the Jockey.

New Connecticut Law Re Lenses And Frames

On January 1, 1971, Connecticut will become the second state in the nation to permit only shatter-resistant lenses and non-flammable frames to be sold. This law, which was passed at the last session of the legislature, covers sunglasses and prescription glasses.

The importance of wearing proper eye protection cannot be over-emphasized. Safety should be voluntary, not provided only when forced by law.

October-November Retirees Feted

1) Alexander Sconziano proudly shows Cardinal plaque to Mrs. Rose Rotella and Supervisor Jon Barth which was presented to him by the staff at Cosmetic's Montross, Va. plant. As Al had been "commuting" between the two plants for some time, his friends there wanted him to have a reminder in the form of the Virginia State Bird.

2) A clock radio was presented to Anthony DeLallo by Foreman George Block on behalf of his co-workers in East Machine. Plant Engineering's Asst. Director Robert Weber attended the festivities.

3) Lawrence Bainer, of the Aluminum Mill, who retired as of October 1st, was on hand for the retirement party given for Miss Alice Chagnot at the Main Hospital. Dr. Butler extends best wishes to both retirees.

4) Sports is the theme on the cake which co-workers of Pompeo Cantoni, Welding Room, presented to him at his retirement. Foreman Earl Tooker stands by.

5) Mrs. Antoinette Altieri shows her "last auto dash

assembly - before calling it time for retirement" to Buff Room's Asst. Foreman Frank Joyce (left) and Lacquer Room Foreman Chester Bandurski.

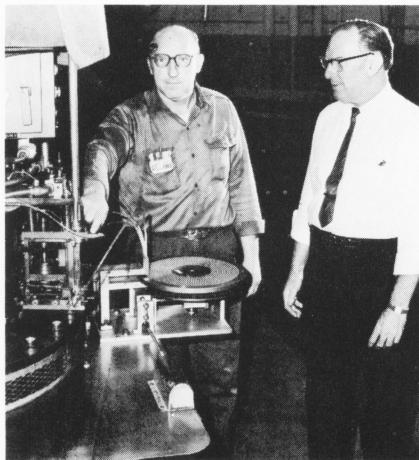

6) "This is it," says Mrs. Ruth Adams to Cleaning Dept. Foreman Charles Ancypa as she gets ready to pack the final fuze body part into box for shipping. Operations Manager Robert Dunn smiles his approval.

7) Victor Daugela is flanked by Closure Div. Works Manager John Butkus and Japan Room's Foreman Tom Rush as co-workers gather to wish him well in retirement.

8) Dressing up his jitney in bright colored ribbons was part of the festivities in Hot Forge honoring Roland Mailloux. Foreman John Corbett smiles in background.

9) Christy Carozza is the honored guest in Gripper Eyelet as Asst. Foreman Edward McMullen extends a warm handshake and best wishes to the retiree.

10) George Ward accepts the warm wishes of his co-workers in the Rod Mill as extended by William Pratt, Assistant to the Superintendent of the Mill.

\$252 Suggestion Award

Julius Zembruski, of M-219 Fuze, describes for Edward Stuart, Senior product process engineer, the workings of a device which he recommended be installed on the assembly machine to give the operator a warning that the magazine is almost unloaded and that it is time to watch for the last part to drop into the machine — thus eliminating incomplete assemblies and scrap.

\$216 — Stephen Ponzillo, East Machine

\$144 Plus \$30 in Awards

William Watts, of Auto Maintenance, was awarded \$144 for his idea of reinforcing lift cylinders on the lift jitneys in order to prevent them from collapsing due to weight of billets, scrap material, etc. Supervisor James Mitchell, Jr., shows a keen interest in the description of the reinforcement. Mr. Watts was also awarded \$30 for a second suggestion he had submitted.

\$72 — Alton Klobedanz, East Machine Room.

Retirements

John Yanavich, crane operator in the New Milford Tube Mill, retired as of October 26, 1970 — 33 years' service.

Effective November 1, 1970

Ruth Adams, inspector/packer in Dept. 85 Cleaning - 17.2 years.

Antoinette Altieri, unracker/inspector in Lacquer - 27.6 years.

Pompeo Cantoni, welder in Welding - 28.8 years.

Alice Chagnot, physical therapist in Main Hospital - 13.7 years.

Mary Corbett, typist-clerk in Contract Mfg. Production - 14.9 years.

Samuel Gerillo, chucking machines operator in Chucking - 41 years.

George Hartery, Floorman/scaleman in Drawing - 20 years.

Anthony Mangini, flat mill straighteners operator, Strip Mill - 33 years.

Earl C. Northrop, Manager of special projects, Closure Div. - 45 years' service.

Katherine O'Rourke, industrial nurse, Main Hospital - 27.9 years.

Alexander Sconziano, Assistant Foreman in Cosmetic - 45.9 years.

William Serrell, machine operator and bench worker in Repair - 25.7 years' service.

Mary Yanikuny, timekeeper in Mfg. Room Clerks - 46.8 years.

Effective December 1, 1970

Dorothy Arnauckas, timekeeper, Mfg. Room Clerks - 17.9 years.

Catherine Aurio, loader-unloader, Solenoid Assembly - 18.9 years.

Peter Bleau, stock control man, Aluminum Mill - 35 years.

Louise Bolt, cashier, Financial Div. - 23.9 years' service.

J. Milton Burrall, Director of employee Relations - 39 years.

Anthony Daraskevich, estimator in General Products Division - 41 years.

Thomas Dealey, working supervisor in B/S & Davenport - 30 years.

Abel DosSantos, floor/scaleman in Press 2 - 15.3 years.

Nicholas Guerrera, asst. foreman in Lacquer - 35 years.

Algot Johnson, grinder in General Mfg. Tool Room - 27.2 years.

Francis Judd, technician on measuring instruments, General Products Div. - 33.8 years' service.

John Lengyel, time study and methods engineer in General Products Div. - 30.9 years.

Helen Machovsky, secretary-stenographer in Closure Div. Chicago Office - 41 years.

Mary Montory, price poster in Central Accounting - 47 years.

John Pivrotto, sergeant in Security Dept. - 30 years.

Albert Rosenbeck, productive helper in Casting - 24 years.

William Rotella, asst. foreman in Chucking - 40 years.

Margaret Shea, balance and packer in Closure Packing - 44.9 years.

Frank Shimkus, estimator in Forging Production - 34 years.

Margaret Snowden, service timekeeper in General Mfg. Tool Room - 19.9 years.

Harry Wabuda, Asst. Foreman in Grinding Room - 29.8 years.

Edward Wolff, estimator in General Products Div. - 33 years.

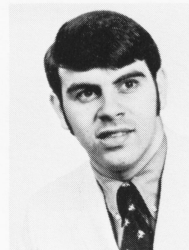

Ajax Celebrates 25th Anniversary

Ajax Hardware, which became a Scovill subsidiary earlier this year, opened its doors to over 1300 visitors to celebrate its founding 25 years ago.

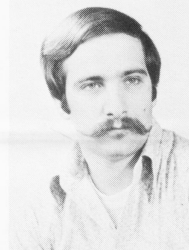

In his message, President Norman Louis noted, "On this our 25th year, we celebrate not just to commemorate our Silver Anniversary, but to celebrate our 26 years of business with our customers. It is the loyalty and dedication from our customers that has provided the basis for Ajax's success. We at Ajax are all extremely proud of our past and are enthused about the future."

Training Course

Toolmaker. Leonard Iannantuoni was graduated as a toolmaker as of October 19, 1970 and has been assigned to General Products Tool Room.

Electrician. Francis Maturo was graduated as an electrician as of November 23, 1970. He has been assigned to Electrical Maintenance — East Plant.

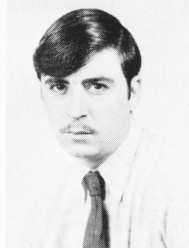

Toolmaker. Bruce Schultz was graduated as a toolmaker as of November 23, 1970, and has been assigned to General Products Tool Room.

Millwright. James Ward was graduated as a millwright as of October 12, 1970. He has been assigned to the Millwrights Dept.

Electrician. David Whittlesey was graduated as an electrician as of October 12, 1970, and has been assigned to Electrical Maintenance — East Plant.

Softball Champs

The Electrical team was declared 1970 SERA Softball Champions when they defeated the 1st round winners (Semi-Journeymen) in a best 2-out-of-3 play-off series. They were honored at a Sports banquet held at the SERA.

Other teams in the league were: Chucking, Fuze, Office, Rod Mill and Strip Mill.

Members playing on the winning Electrical team included: Ed Costello, Ed Gill, Dave Brown, Mike Feest, Charles Summa, Francis Maturo, Jerry Shea, Dave Kirouac, Dick Gorman, Brian Smith, Paul Evon, Dave Whittlesey, Joe Capaldo, Jay Messinger, Robert Brown and Fred Zelsky.

Rod & Gun Club's Turkey Shoot

A banner number of contestants participated in the Club's annual turkey shoot last month. Fourteen matches were held with as many turkeys awarded. The annual turkey shoot has become a family affair, with many wives and children trying their luck.

As luck would have it, the highest score of 80 points was achieved by Kevin Vienneau, young son of Roland Vienneau — even our best shooters admit this is an excellent score. Other winners were: Joe Guay, Joe Testa, Carmen Santoro, Orlando Rafael, Joe Stango, Donald Vance, Sharon Richards, Bill French, Steve Shea, Richard Petrucci, Gaysi Stokes, Dave Zukauskas and Tom Muckle.

Obituaries

Robert Schuster died September 26, 1970. An Assistant Metallurgist in Metals Research - 5 years.

Benedict Kelley died September 28, 1970. Retired in April, 1966 - 14 years' service.

Gaetano Macchiarella died September 28, 1970. Retired in November, 1953 - 30 years.

Joseph Yinkosky died September 29, 1970. Foreman, Welding Shop - 33 years' service.

Anthony Beck died October 1, 1970. Retired in November, 1953 - 37 years' service.

James McEvoy died October 4, 1970. Retired in May, 1961 - 29 years.

Joseph Rolandi died October 19, 1970. Retired in July, 1953 - 35 years.

Romeo DiStiso died October 20, 1970. Oil and grease wiper in the Oil House - 36 years.

William J. Davis died October 25, 1970. Retired in October, 1959 - 37 years.

Frank Didzevicius died October 26, 1970. Retired in August, 1957 - 12 years.

Fantastic Fondues Are New H-B Introductions Traditional Charm with All Modern Conveniences Offered

A sense of progress without destroying the sensitivities that are inbred with Fondue cooking is what Hamilton Beach Division has accomplished in announcing two new convertible fondue sets. Both offer complete recipe and instructions book.

Model 355 may be switched from electric heat controlled to romantic alcohol flame method of cooking. The fondue pot is of quality spun aluminum, Teflon-lined for non-sticking and easy cleaning with a porcelain enameled exterior for decorative beauty and walnut grained handle that will grace any dining table. Included with this model are six color-keyed stainless forks, drip pan, rack, alcohol burner and stand. It has an eight-position heating element and also a ten-foot cord for easy-reach to the table. Available in brilliant flame, gourmet yellow, and avocado.

Model 356, the convertible Two-pot party fondue contains all the

features of the 355 plus a 1-½ quart Stoneware pot for popular cheese fondue preparation. It is also available in the same decorator colors.

Mrs. Cecelia Toth, a representative from the Dritz Advertising and Publicity Dept. in New York City, discusses articles and clothing made with Dritz sewing aids which were on display at the Scovill Girls' Club recent fashion show held at the SERA.

Included were kits containing needlepoint canvasses, crewel embroidery and other handcraft articles as well. They are available at sewing and knitting centers in local stores.

From the attention the display attracted, it would appear that more and more women are taking to sewing as a way not only to save money but also to express their creativity.

The Dritz Company, acquired by Scovill in 1966, is a branch of our Oakville Division.

Sebastiano Parisi died October 26, 1970. Retired in April, 1953 - 26 years' service.

John J. Hoben died October 28, 1970. Retired in July, 1969 - 40 years' service.

Vincenzo Clemente died October 31, 1970. Retired in February, 1953 - 29 years.

Ymer Lepi died November 1, 1970. Boiler Room Engineer in the Steam Dept. - 19 years' service.

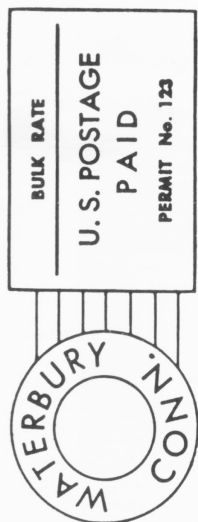

Daniel J. Healey died November 9, 1970. Retired in December, 1968 - 22 years' service.

John Gomosky died November 13, 1970. A productive helper in Casting - 27 years.

Richard Harding died November 13, 1970. Credit Manager of our Mill Products Division - 32 years.

Benjamin Mials died November 14, 1970. A cleaner/shipper in Bldg. 112 Cleaning - 22 years.

Harry Kushwara died November 15, 1970. Retired in November, 1957 - 24 years' service.
